CUTTER CAPSIZED DURING SQUALL

BODIES OF FIVE NAVAL APPRENTICES RECOVERED

It is Feared Seven Others Lost Their Lives in Accident on Lake Michigan

Chicago, Sept. 15.—Five naval apprentices were drowned and the belief prevails that five and possibly seven others lost their lives as the result of the capsizing of a cutter from the United States naval training station at North Chicago, Ills., on Lake Michigan, late yesterday. Five bodies were recovered.

The five identified dead are: R. C. Harlan, 18 years old, Bloomingdale, Ind.; I. L. Southworth, 18 years old, Pittsburg, Pa.; J. Wallace, 18 years old, Turner, Ind.; W. N. Antrobus, 21 years old, Indianapolis, Ind., and J. A. Patten, 23 years old, Stanton, Ohio.

Privates Caminan, Winkler, Frickson, Shoral and Field could not be accounted for last night.

An inquest was to begun at the station during to-day.

A. L. Raymond, one of the boys taken from the water, was resuscitated by a pulmotor after he had been worked over several hours.

The party left the training station shortly after 2 o'clock in charge of Chief Gunner's Mate Negis, and after cruising about until 4 o'clock the cutter was headed for North Chicago.

A few minutes later a squall struck the boat and the sails were lowered and an anchor thrown out. Negis, it is said, planned to let the cutter ride out the storm, but the boat dragged its anchor and began drifting toward the beach. When within 200 feet of the shore the cutter was overturned.

Captain W. F. Fullman, commandant at the training station, saw the danger from his quarters and sent a motor boat to the rescue, but this craft was capsized before it had gone far and the men in charge swam to the shore. Several of those from the cutter floated ashore on oars and pieces of wreckage. A number were rescued by officers of the training station and cared for at nearby houses.

Captain Fullman, who took charge of the rescue work as soon as he could reach the scene, declared that six apprentices were missing. The names of the victims could not be ascertained until the roll of the 300 boys has been called.

It was reported that several of the boys were unable to swim and that some became seasick soon after the squall struck the cutter.

DECKHAND DROWNED.

Kaslo, B. C., Sept. 16.—Edward Ashton, hired to work as a deckhand on the Kokanee, dipped the shovel with which he was cleaning the deck into the water to clean it and was pulled overboard while the ship was steaming between here and Kemball's ranch. The Kokanee was stopped and a boat lowered, but Ashton sank.

CRUSHED TO DEATH WHEN CAR CAPSIZES

Man Instantly Killed in Automobile Accident—Companion Seriously Injured

Eugene, Ore., Sept. 16.—Jesse Bounds, a timber dealer, was killed last night and Jerome Devine, his companion, was seriously injured when an automobile in which they were riding, overturned on a lonely road near Vida, thirty miles from here in Mackenzie river. Bounds probably was instantly killed. Devine was so seriously injured that he was unable to reach help until an early hour to-day. Rescuers removed Bound's body from under the car. Devine could not explain how the car overturned, but it is believed Bounds lost control of the car when it struck an obstruction.

BOATING FATALITY.

Two Girls Drowned at Portland.—Boat Capsized When Occupants Tried to Change Places.

Portland, Ore., Sept. 16.—Miss Orpha Meyers, aged 14, and Miss Leona Drummond, aged 22, both residents of St. Johns, were drowned last night while boating in the Willamette river. The young women attempted to change places in the boat and both fell into the water. They were drowned before assistance could reach them. The bodies were recovered.

MUST FACE MURDER CHARGE.

Hamilton, Ont., Sept. 16.—The case of James Bruce, held on a charge of vagrancy in connection with the poisoning of Rose Zieps, has taken a sudden turn, and next Wednesday morning he will be called upon to answer a charge of murder.

JOSEPH CHAMBERLAIN.

Alarming Reports Regarding Health of Aged Statesmen Declared to Be Unfounded.

London, Sept. 16.—The following bulletin was issued by Mrs. Chamberlain last night regarding the health of the Right Hon. Joseph Chamberlain:

"There is no foundation to the reports of Mr. Chamberlain's condition. He is very well and has been out walking to-day."

VICTORY FOR INSURGENTS.

Athens, Sept. 16.—A semi-official statement says that Albanian insurgents defeated Turkish battalions near Scutari Saturday.

TORNADO LEAVES HAVOC IN WAKE

FOUR PERSONS KILLED; FIFTY INJURED

Many Buildings Wrecked—Panic Among Excursionists at Pleasure Resort

Syracuse, N. Y., Sept. 16.—Four persons were killed and fifty injured by a tornado which left a ten-mile trail of disaster across the northern part of Onondaga county yesterday. The property loss is estimated at $5,000.

The funnel-shaped cloud first appeared near Long Branch, a pleasure resort three miles from here. About 400 persons were there and a panic followed as building after building was toppled over and two interurban trolley cars were hurled into a ditch.

A number of persons ran into a dance hall for safety, but the building was in the path of the storm and was demolished, many persons being injured.

The tornado wrecked the boathouse of the Syracuse University navy, in which was stored a crew equipment. All shells were wrecked. The loss to the university is more than $8,000.

At Pritcher's Hill fifteen homes, a number of barns and the schoolhouse were rased. The home of H. A. Wendell was lifted from its foundation and turned over. In the house were Mrs. Wendell and her two boys, none of whom were injured.

No trace has been found of Mr. and Mrs. H. Madison, of Syracuse, who were canoeing on Seneca river yesterday about the time the hurricane swept over Onondaga lake and the town of Salina. It is feared Mr. and Mrs. Madison were drowned.

BASEBALL MANAGER DIES SUDDENLY

W. H. LUCAS PASSES AWAY AT MISSOULA

Was Identified With Leagues in the West for Many Years

Missoula, Mont., Sept. 16.—President W. H. Lucas, of the Union Association of professional baseball clubs, dropped dead at his residence in this city last night.

Mr. Lucas had complained for several days of having difficulty in breathing and yesterday afternoon his wife was adjusting a plaster over his chest. He fell over in her lap, dead, without a word. His death was due to an aortic aneurism, according to the physicians who examined the body.

W. H. Lucas has been identified with baseball in the western part of the country since late in the 80's when he organized the first Northwestern League, which included Duluth, Minneapolis and St. Paul, with Lucas as manager of the Duluth club. That league was absorbed later by the American Association. Lucas came to the Pacific Northwest in 1890 and organized the Northwestern League which included Portland, Seattle, Spokane and Tacoma. This league lasted two years. He spent two years as manager of the Kansas City club in the American Association. He returned to the northwest in 1900, organizing the Montana State League, including Helena, Great Falls, Butte and Anaconda.

The next year he organized the Pacific Northwest League with the four towns that were in the original league. He was president of the league through four stormy years, saw the league expand to an eight-club league and finally was driven out of Northwestern baseball after the bitter fight between the Northwestern League towns and California cities. To Lucas was directed one of the most peculiar court orders ever recorded in the Northwest. The superior court of Spokane county issued an injunction forbidding Lucas to organize, conspire to organize, or to discuss baseball within the city of Spokane.

His next organization was perfected in 1905 when he banded together Vancouver, B. C., Everett, Bellingham and Victoria. This organization was joined later by Spokane, Butte, Tacoma, Seattle and Portland.

Mr. Lucas was not re-elected president of the Northwestern League at the expiration of the season of 1910, and immediately began the organization of the Union Association which has just closed its second season.

REPORTED SALE OF WHITE PASS ROAD

Rumor That Railway Has Been Acquired by Grand Trunk Pacific

Juneau, Alaska, Sept. 16.—It is reported here that the White Pass & Yukon Ry., which operates between Skagway and White Horse, 140 miles, has been sold to the Grand Trunk Pacific Ry., and that the transfer will take place in January, 1914. The deal is said to have been made by W. B. Close, of Close Bros., Chicago financiers, and who is now in the north. The fact that the Grand Trunk has already declared its purpose to build a branch from its transcontinental main line north to White Horse and Dawson, gives color to the report.

EMPEROR REVIEWS GERMAN FLEET

Naval Manoeuvres Will Be Carried Out Off Island of Heligoland

Heligoland, North Sea, Sept. 16.—The German Imperial fleet, composed of twenty-two battleships, six large and eleven small cruisers, flotillas of torpedo boats and torpedo boat destroyers and a number of auxiliary vessels, was reviewed off this island to-day by the German Emperor.

At the conclusion of the review His Majesty accompanied the fleet to sea where manoeuvres occupying four days will be held.

Sixteen passengers on board the Zeppelin dirigible balloon Hansa were among the spectators.

The Imperial fleet carrying out the manoeuvres includes four battleships of the Ostriesland type and four Nassaus, nine Deutschlands, the Dreadnought cruisers, Goebem, Moltke and Von Dertann, and several other vessels of older styles unequal to modern requirements. The tonnage of the manoeuvring armada, exclusive of small craft, aggregates 486,490 and the fleet is armed with forty-eight twelve-inch guns, eighty-four eleven-inch guns and twenty-nine four-inch guns.

MIMIC WAR WILL LAST FIVE DAYS

INVADING ARMY IS MARCHING ON LONDON

Defenders Move Out to Meet Force Moving From the North

Cambridge, Eng., Sept. 16.—Having received word that the Blue Army under the command of Lieut.-General Sir Douglas Haig, which in the army manoeuvres begun to-day, represents the invading force of the north sea, had started to march toward London, the defending army set out at daybreak this morning to intercept it. The manoeuvres are being conducted on the most elaborate scale held for some time. The general schedule provides for the repulse of an invading army from the direction of Germany.

The manoeuvres in the early stages will be confined to Norfolk and Cambridge, though later they will cover an area including Norfolk, Suffolk, Essex, Hertford, Huntington and Bedford. The mimic war will continue for five days.

The defending army, which spent last week on the carrying manoeuvres, is composed of 22,500 men, 900 horses, 96 guns, 68 machine guns and 1,500 cyclists. The invading force has 2,500 more men. Each army has the use of one airship and eight aeroplanes, the latter fleet having been considerably reduced because of recent order prohibiting the use of monoplanes on account of the accidents resulting in the death of four lieutenants of the army flying corps.

It is said the red and blue armies will clash to-morrow. By that time King George will have reached the scene of operations, and all the military attaches, including the American officers, will have taken the field.

WILL NOT TALK.

Accused Gunmen Show No Disposition to Give Information to New York Authorities.

New York, Sept. 16.—Harry Horowitz, alias "Gyp the Blood," and "Lefty Louie" Rosenzweig, charged with the murder of Herman Rosenthal, evinced no more disposition to give information or make any admissions than they did yesterday when Assistant District Attorney Moss talked to them for two hours.

Forty or more letters and postcards found in the rooms of the two men may furnish important information to the state's attorney. Detectives ransacked the apartment and beneath the boards of the floor and tucked under carpets correspondence was found which detectives say is of importance to the prosecution.

When arraigned, at the request of counsel for Horrowitz and Rosenzweig, pleading was adjourned until September 18.

The wives of the prisoners and Max Kahn, the alleged pickpocket arrested on Saturday in the flat in Brooklyn occupied by them, were held in $2500 bonds each as material witnesses.

The capture was the fruit of an unbroken surveillance of the wives and relatives of the two men. This surveillance was maintained by sixty detectives working in relays.

HONOR FOR FUSILIERS.

Ottawa, Sept. 16.—A militia order issued to-day announces that the King has been pleased to approve the 101st Regiment, Edmonton Fusiliers, being allied to the Royal Munster Fusiliers.

FROST WILL NOT DAMAGE GRAIN

HEAVY WIND DRIES GRAIN IN STOOK

Prospects of Higher Temperatures in the Prairie Provinces

Winnipeg, Sept. 16.—Heavy frosts marked the week-end over much of Saskatchewan with a lighter visitation in Alberta. Manitoba escaped almost untouched. Market gardeners of this district say there was just enough frost on Saturday night to wilt tender garden truck. Twelve degrees of frost were recorded at some points in northern Saskatchewan, and six to eight degrees in the central districts. Most of the wheat is, however, safe, heavy winds of Saturday having dried it out well in the stook. Green oats will suffer. Most of the flax country along the Soo line and towards the Saskatchewan southern boundary escaped frost, with heavy rains instead. It is generally fine to-day with prospects of higher temperature.

Inspector's Report.

Fort William, Ont., Sept. 16.—The report of Acting Grain Inspector W. Symes for the crop year from September 1, 1911, to August 31, 1912, shows that over 115,000,000 bushels of grain passed through elevators at the head of the lakes and also shows an increase of over 30,000,000 bushels over the amount that came into elevators during the preceding twelve months.

CANADA NEEDS LARGER MARKETS

SIR WILFRID LAURIER SPEAKS IN QUEBEC

Time Coming When Old Country Will Not Be Able to Take Surplus Wheat

Montreal, Sept. 16.—"We want a larger market, and that market is the United States," was the text preached on Saturday by Sir Wilfrid Laurier and Hon. Rodolphe Lemieux, who, with their friends from Montreal and elsewhere, to the number of several thousand, held a demonstration at St. Clet, in the county of Soulanges.

Reciprocity was in the air, while the keynote of the speeches was "down with the trusts, and larger markets."

Sir Wilfrid told his hearers that Canada had 250,000,000 bushels of grain to export, and as the time would come when England could not take this surplus, a market must be found elsewhere. His government had offered a market, but the present rulers of Canada were responsible for the people's refusal and must find a substitute.

Sir Wilfrid made an absolute denial to the statement made by Mr. Bourassa to the effect that he had signed a secret agreement with the Imperial authorities as to the disposition of the Canadian fleet in time of war. He had been in conference with the foreign office and no agreement had been signed that had not been openly submitted to parliament.

Sir Wilfrid spoke of a change in the leadership, although he said that each time he had suggested retirement his friends had insisted that he was wanted at the head of the party. He had, however, reached an age when the future was uncertain, yet he felt that he could still successfully defy his political opponents.

As to the naval policy of the present government, the Liberal leader declined to pronounce himself before the prime minister had made known his policy. Then, Sir Wilfrid said, he would judge the matter on its merits.

Hon. Rodolphe Lemieux, who becomes more and more Sir Wilfrid's first lieutenant, was bold in his affirmation that the battles of the tariff will have to be fought over again, saying: "The vote of the 21st of September last was not a vote against the fiscal policy of the Laurier government, but a vote of prejudices and passion, which will not be repeated."

Canada, he said, wants wider markets for her farm products, while such devices as "down with the trusts," and "give us wider markets" floated to the breeze.

EDWARD KIDD, M. P., DEAD.

Ottawa, Sept. 16.—The death occurred at 4.30 this morning of Edward Kidd, Conservative member of parliament for Carleton county. Mr. Kidd has suffered from a couple of strokes of paralysis within the past few weeks and has been gradually sinking.

His death makes the third vacancy in the House of Commons, the others being Richelieu and Macdonald.

GOLD SEEKERS SUFFER HARDSHIPS

Vessel Crushed by Ice—Members of Expedition Walk Forty Miles Over Floes

St. John's, Nfld., Sept. 16.—After great hardships in the frozen north Captain J. Bartlett, of the steamer Neptune, of this port, who headed the gold-hunting expedition to Baffin's Land, returned to this harbor last night. He reported the loss of one of his ships and the discovery of extensive coal deposits, but no gold.

The sealing steamer Algerine, of the expedition, was lost in Pond's Inlet. After she was crushed by the ice, the ship's company walked forty miles over the floes to land and found a cache left by Captain Bernier.

For two weeks they subsisted on four crackers each per day, while they worked their way to Button Point, 70 degrees north latitude, where they were picked up by the Neptune. The party was unable to penetrate far into the interior owing to the ice and unfavorable conditions.

WAS ASSASSINATED.

London, Sept. 16.—Colonel Lupakoff, head of the Russian political police, was shot down when waiting for a street car with his wife, at Pyatigorsk, Ciscaucasia, according to a dispatch received here from St. Petersburg. The assassin escaped.

SIX SAILORS DROWNED.

Cuxhaven, Germany, Sept. 16.—The German torpedo boat G 171 was rammed Saturday by the German battleship Zahringen, 16 miles southwest of Heligoland. The torpedo boat sank within fifteen minutes. Six men were lost.

BOY SHOT.

Salt Lake, Utah, Sept. 16.—Word has been received here of the shooting at Helper, Utah, of two boys by E. J. Johnston, a former deputy sheriff, who mistook them for holdups. Brigham Taylor, 20 years old, is dead, and Arnold Deardall, 19, is seriously wounded. Johnson, who was acclaimed by the citizens of Price for killing "Gun Play" Maxwell, a desperado, some time ago, is held without bail. He says the boys acted suspiciously when he met them on a country road. Deardall insists that Johnston fired without excuse.

Put a Polish on the Floor.—Use Linoloe, it's easy to apply. It preserves linoleum and makes a wood floor shine. Try a package at 10c, 25c and 50c. R. A. Brown & Co., 1302 Douglas Street.

DRIVER BLAMED FOR AUTO ACCIDENT

Verdict of Coroner's Jury Which Investigated Fatality at Vancouver

Vancouver, Sept. 16.—"We find that Arthur Douglas came to his death by being thrown out of an automobile on his head, striking some hard substance. The accident was caused by the careless driving, through the influence of liquor, of John Brown Duncan."

Such was the verdict of the coroner's jury, as arrived at after an unusually long inquest into the death of Arthur Douglas, who was killed late Thursday night when the automobile in which he was riding plunged off the bank at the turn of Granville street, in Eburne.

Duncan, the chauffeur, who was arrested on a manslaughter charge, has been released on two surety bail bonds of $1,500 each. He will come up for preliminary hearing on September 20 before J. C. McArthur, justice for Point Grey. Duncan was represented at the inquest by J. Clark.

R. L. Van Byl, a taxicab driver who was among the first on the scene, stated that the ill-fated car had passed him but a moment before the accident, proceeding south at fast speed. He heard the crash and saw the lights of the car upturned, hence he hastened to the scene and rendered what aid he could. He later removed Johnson, the other occupant of the car, to the General hospital, where he had his injuries treated. He was of the opinion also that the occupants of the car had been drinking, as the corner was a perfectly safe one and well lighted.

Charles Lock, a motor expert, stated there was absolutely no mechanical defect in the car before the accident, which could have been the cause, and added that in his opinion the accident occurred through carelessness.

"After careful verification of my theory," said Mr. Lock, "I have come to the conclusion that the driver attempted to turn too late, thus throwing the rear wheels against the two-foot curb, smashing them, throwing the car over the embankment and hurling the occupant to the rocks below. I consider that corner to be perfectly safe and properly circumvented by a car going 20 miles an hour if properly driven."

While admitting that the crowd had been drinking frequently during the afternoon, E. H. Johnson, the civil engineer who accompanied the deceased, denied they were drunk, and asserted that Duncan was a careful driver.

Dr. Hall in his evidence also testified as to the condition of the survivors of the wreck, stating that in his opinion they were intoxicated.

ANOTHER TRAGEDY FOLLOWS ELOPEMENT

J. B. Sneed Shoots Man With Whom His Wife Fled Last Fall

Amarillo, Texas, Sept. 16.—Al G. Boyce, jr., was shot and killed here Saturday afternoon by J. B. Sneed, with whose wife Boyce eloped to Canada last fall. Sneed is shortly to stand trial for the murder of Boyce's father, shot at Fort Worth, January 13, as a result of the elopement of the son Sneed shot Saturday.

The presence of Sneed in this city was not known until after the shooting. Boyce returned to the city only recently. The shooting occurred within a block of the business district of the city on the principal street, and shortly after the shooting Sneed surrendered to the local authorities, giving up an automatic shotgun and two automatic revolvers. Bystanders, hearing the first shot, turned to see a man, apparently a tramp, with a heavy growth of beard and wearing overalls, advancing to the centre of the street, firing on his victim with a shotgun. Approximately a score of buckshot took effect in Boyce's side. Sneed would give out no statement tonight. He waived hearing and further developments await action of the grand jury, which reconvenes to-day.

The disappearance of Mrs. Sneed from a Fort Worth sanitarium last fall was followed a month later by her detention, with Boyce, in Winnipeg, Man. Mutual friends brought about a reconciliation between the banker and his wife, and Boyce was released from custody after the couple had returned to Fort Worth.

Boyce, sr., was shot and killed in the lobby of a Fort Worth hotel, January 13 last, because of remarks he is alleged to have made. Sneed was tried for the killing, but the jury was unable to agree, and pending a second trial, which is set for November 12, he was released under bond.

BRYAN SPEAKS ON BEHALF OF WILSON

Denounces Taft and Roosevelt —The Colonel Scores Democratic Candidate

Denver, Colo., Sept. 16.—William J. Bryan opened Saturday night his campaign in the west in behalf of Woodrow Wilson and the Democratic national ticket. Before a large audience in the auditorium he denounced both President Taft and Theodore Roosevelt as unworthy of election. Mr. Byran spoke against the third term. "It would open a door which no man might be able to close," he declared.

Mr. Bryan's argument against Mr. Taft was that he is not in harmony with the progressive spirit of the day. "He already has been repudiated," he said, "by a majority of his own party, so he cannot hope to poll more than a third of the vote of the country, if that large a proportion."

The speaker disputed Mr. Roosevelt's right to the leadership of the Progressive movement.

"The Democratic party was fighting for all the national reform measures when Mr. Roosevelt was opposing them," he declared. "Mr. Roosevelt's position on the trust question and on the third term are dangerous to the country."

Roosevelt Attacks Wilson.

San Francisco, Cal., Sept. 16.—"Woodrow Wilson has advanced a programme in relation to social and industrial justice," Colonel Roosevelt said Saturday night, "which is either a promise that is not to be kept, or else it means the undoing of every particle of social and industrial advance which we have made."

He declared that Governor Wilson "stands for a policy which necessarily means if that policy is honestly put into effect, that he must be against every single Progressive measure. The trouble with Mr. Wilson," said Colonel Roosevelt, "is that he is following an outworn philosophy."

He declared that "in view of the Democratic platform and of the utterances of Mr. Wilson no man can claim to be a Progressive who supports Mr. Wilson on the platform."

Colonel Roosevelt's speech was delivered before a large crowd in the Coliseum, to which he went immediately on his arrival in San Francisco. He was on the train all day, except for a stop of an hour in Reno, Nevada, where he delivered an address.

DECLARES CLAIM IS VOID.

Mexico Will Not Yield to Demand of New York Syndicate.

New York, Sept. 16.—That the government of Mexico has no intention of yielding without a hard legal fight to the New York syndicate which recently purchased a $105,000,000 Manning and McIntosh claim against the republic, is indicated in a dispatch received from Ernesto Madero, the Mexican secretary of the treasury. He says: "I desire to inform you that said claim is completely null and void and was rejected since the year 1886 by the committee appointed in accordance with the law."

LATE EMPEROR'S BODY PLACED IN TOMB

Funeral Palanquin Carried to Mausoleum by Heriditary Bearers

Kioto, Japan, Sept. 16.—The last solemn function of the funeral ceremonies, which began at Tokio on Friday, of the late Emperor Mutsuhito took place Saturday night when the body of the departed ruler was buried in the imperial mausoleum at Monoyama.

The road to the imperial tomb was hung with crepe draped in white panels. A double line of soldiers and sailors flanked the route, which, cutting through the famous tea fields, had been built up to a height of sixty feet in some places and terminated in a court of honor about two miles in length.

On arrival at Monoyama the casket was removed from the train and placed on a funeral palanquin. This was borne by hereditary bearers selected from the farmers of Yasa village in grey hemp costumes. Approaching the burial hall the panelled doors were thrown open revealing a stand on which the casket was placed.

Prince Fushimi, cousin of the late emperor, and Prince Kanin, the representative of Emperor Yoshihito, and the Princess, representing the other members of the imperial family, entered and took up their allotted places, while the officials assembled to the right and left. A black curtain was dropped over the doorway. The top of the palanquin was removed and the casket placed on a carrier which bore it to the tomb on the plateau.

Prior to the interment a great procession was formed in which the local authorities participated. All implements of war and ritualistic ornaments were carried behind the casket. Immediately following the palanquin chamberlains carried on a low table a pair of imperial sandals covered with white silk. This is an ancient custom, for in olden times a boy attendant always followed the imperial palanquin carrying a pair of sandals. Amid prayers and the chanting of dirges the procession moved to the burial hall.

PROPOSED CHINESE LOAN.

British Minister Lodges Protest—The Railway Project.

Pekin, Sept. 16.—The British minister to China, Sir John N. Jordan, made representations to the Chinese government Saturday that Great Britain does not view with favor the new loan of fifty million dollars negotiated in London by the Chinese minister and a representative of an independent bank.

Hwang Hsing and Chen Chi Mei, two Southern leaders who are visiting Pekin, in an interview Saturday said they intended to support President Yuan Shi Kai, whom they consider to be the only man capable of establishing the Chinese republic on a firm footing. Thus Yuan Shi Kai's last and most bitter enemies have been won over.

As a result of criticisms in the Chinese press, Dr. Sun Yat Sen received on Saturday the editors of the leading newspapers, and explained to them his railway projects, which include the purchase of all existing Chinese lines. The former provisional president intends shortly to make a tour of China, during which he will explain to the people that foreign capital is essential to the success of the railroad scheme. Later Dr. Sun will proceed abroad with a view to directly approaching foreign capitalists.

FINDS RELICS OF ANDRE EXPEDITION

Steamer, Which Has Arrived From Spitzbergen, Reports Picking Up Buoy

Tromsoe, Norway, Sept. 16.—The Norwegian steamer Beta, which sailed September 1, from Foreland Sound, Spitzbergen, has arrived here. She reports having picked up a buoy marked "Andre's North Pole Expedition, 1896; number 10 buoy."

Prof. Salemon August Andre, the Swedish Arctic explorer, ascended in a balloon from Dane's Island, near Spitzbergen July 11, 1897, in an effort to reach the North Pole. He had with him two other scientists. The party was never heard from again.

STRONG RESOLUTION.

Canadian Peace Association Condemned by Trades and Labor Congress.

Guelph, Ont., Sept. 16.—Very rarely has such a strong resolution passed the Trades and Labor congress without a dissentient voice as the one passed Saturday, referring to the new Canadian Peace Association. The resolution reads:

"By R. P. Pettipiece representing the British Columbia Federation of Labor:

"Whereas, D. P. Scullin has formed an alleged Canadian Industrial Peace Association throughout Canada, and whereas, there are no labor organizations affiliated or identified with Mr. Scullin's inspiration; and, whereas, there is already a federal government tribunal for the investigation and settlement of labor disputes;

Be it therefore resolved, that this congress emphatically condemn the whole scheme; and be it further resolved, that the congress constitution be so amended that any trades unionist identifying himself with the Canadian Peace Association be ineligible for office in this congress."

SEARCH FOR ATTORNEY.

New York, Sept. 16.—Representatives of the Austro-Hungarian consulate continued their investigation Saturday to learn what disposition was made of $7,100 belonging to Mrs. Rosa Menschik Szabo, for whose alleged murder at Greenwood Lake, Burton W. Gibson is now incarcerated in Goshen, N. Y.

Gibson was executor of Mrs. Szabo's estate, and opened an account in a local bank in August under the name of Evan Rusena Menschik Szabo, and deposited $7,397. Subsequently Gibson, as executor, withdrew all but $297. There are reports that Mrs. Szabo had an attorney other than Gibson and detectives are hunting for him.

TRUE TO NATURE TEETH

DOCTORS LOWE & THOMPSON

Our "True to Nature" Teeth are a triumph of modern dentistry. They not only look perfectly natural and perform the functions of natural teeth, but they STAY PERFECT. The great care exercised in the choice of all our materials, the skill and experience we offer you, and our scientific painless methods, all ensure that at our hands your teeth troubles will soon be a thing of the past. Our moderate, reasonable charges are just one more agreeable feature of our service. Consult Dr. J. L. Thompson to-day.

A BIG MAN IN UNIONIST PARTY

WALTER H. LONG, M. P. ON PUBLIC AFFAIRS

Makes Interesting Comments on Subjects Now Agitating the Political Waters

As a frontbencher on the opposition side of the Imperial House, Right Hon. Walter Hume Long, now visiting this city, is one of the "men who matter." It is but a few months ago that he just escaped becoming the real leader of the Unionist party, and it will be remembered to his credit that he stepped down at the right moment to prevent a division of his own party.

A man well on in middle age, Mr. Long bears the stamp of one of those who seem gifted by the gods with perennial youth, both physically and intellectually. His fresh-colored face, with its light moustache speaks of a health and vigor as yet unimpaired, and of a large, breezy acquaintance with life out-of-doors—for he is a keen cricketer and hunter, this man who has been spoken of as "the bulwark of the Unionist party in Britain."

His personality is forceful and he has been blessed with a gift of oratory that is not of the pyrotechnic sort, emphasized with extravagant Latin gesture, but quiet, forceful, decisive. His eyes are very keen and bright under level brows and when thinking his

RT. HON. WALTER LONG

tightly-compressed lips betray remarkable concentration.

He has few gestures or mannerisms, but his mind is of the alert, ever-ready type and his power of "hitching on" to the meaning and motive of any question is remarkable. He is "swift i' the uptak," as they say in Scotland. And—he also likes a good cigar.

Without being either iconoclast or raider, Mr. Walter Long has succeeded in making himself almost indispensable to the Unionist party in the British house. He is a party man before all, and a leader of great and undoubted ability. Born of wealthy parents, he has not like F. E. Smith, had to cut a swath for himself in the political field; the way has been more or less marked out for him; but few men have shaped their course so steadfastly.

In his opening remarks in an interview yesterday, he gave in his usual downright way one of the chief reasons for his present visit to Canada.

"I consider it my duty," he said, "to tell the people of Canada the views of myself and the party to which I have the honor to be associated upon the great question which is now before the British Parliament, because it is a question which affects every portion of the empire. Your people have heard one side only. It is my privilege, and I believe my duty to present the other side. But I am not over here for subscriptions," he continued with a smile.

Mr. Long had some interesting things to say on the subject of Redistribution, which, he averred, was just now absolutely demanded by the inequalities of representation in the present parliament. He quoted the fact that at the present time Ireland had twenty more members than she was entitled to by her population.

"Manchester, Crewe, Midlothian? Yes, they were great victories. They are the outward and visible sign of the turnover of public opinion. I am convinced that if a general election took place to-morrow, the present government would be hammered, and badly hammered! The same thing operates with every government sooner or later. They are on the down-grade; they cannot stop, and the end is not far off."

With lively scorn Mr. Long reviewed Winston Churchill's latest idea of dividing England into provinces. He did not believe the Prime Minister ever authorized any such announcement. "He might as well have said we are going back to Heptarchy," remarked Mr. Long, with his usual fondness for an allusive phrase.

"Do you not think some form of national insurance [illegible]" Mr. Long was asked, apropos of the Insurance Bill.

"Certainly I do," he answered directly. "In a country like ours some form of it is absolutely indispensable, but there never was a measure which has raised such a storm of indignation as this present one. It was rushed through with scarcely any consideration."

The German Menace.

Few men have spoken so discerningly on the German menace as Mr. Long.

"It would be foolish to ignore," he said, 'that the German menace is real, but I believe the mass of the German people do not want war. I am sure the Kaiser himself does not want it. But war cames seldom because people will it. It obtrudes suddenly, forced on by circumstances, and well— England should be and must be ready for emergencies. Germany is making tremendous strides in her navy and her commerce. We would be blind not to see the goal to which she is rushing."

Continuing, Mr. Long said he thought Winston Churchill extremely ill-advised when he stated at Glasgow that "to England a large fleet a necessity; to Germany, a luxury." He thought it a foolish and damaging statement. The British navy only existed for the protection of her commerce, and in that way should appeal to the people of Canada—an immense country whose resources had scarcely been tapped, and whose commerce was increasing enormously.

Armored Merchantmen.

Mr. Long made an interesting suggestion for the better protection of commerce in the shape of armored merchantmen, which with guns aboard, would not feel obliged to heave to if a cruiser put a shot across her bows.

"But would not an armored cruiser prove too strong for any merchantman, however well armed?"

"It would not be necessary to wait and see," answered Mr. Long. "She could reply with her guns and then show the cruiser a clean pair of heels."

"Is it true that the British navy at the present is finding a difficulty in getting sailors to man the ships?" Mr. Long was asked.

"It is not true," he answered quickly. "Our seamen are mostly drawn from the east and the south coasts. They are of sailor ancestry, and the sea is in their veins. It calls to them and they cannot choose but listen. We have as fine a body of men as ever were in the service—in fact the finest on earth! And there is an unlimited supply behind."

THE TIME

To test the value of HALL'S BEEF AND IRON WINE is when you are "run down" or feel "out of sorts." It tones up the whole system in a really wonderful way, yet costs only $1.00 per bottle.

NEW SUITS
Arriving Daily

WE invite every woman before she makes her purchase of a Fall Suit, whether she intends to buy here or elsewhere, to view what is undoubtedly an authoritatively correct showing.

WOMEN who dress the best do not wait until the needs of the season become urgent. It's too late then to get the preferred range of styles. Those who buy their Fall Suits now have the right perspective—just far enough away from Fall to escape hurried choosing—near enough to pick the leading ideas.

As to Prices---They Range from $15.00 up to $1.25

DELIGHTED indeed, you will be with our smart Tailored Suits in serges, worsteds, fancy tweeds, ratines, Bedford cords, corduroys and other materials to be in demand this Fall. Then there are those severely plain tailored models and some of those stunning Norfolks.

WE COURT COMPARISON

FRESH SHIPMENT OF UNDERSKIRTS—We have just unpacked a large shipment of Moirette and Silk Underskirts. Big range of colors and correct styles. Prices $6.75 to $1.75

We Open Daily at 8.30 a. m. and Close at 5.30 p. m.

Campbells'

Our phone number is 181.

Special Showing in Extension Tables

We are showing a splendid line of Extension Tables at most moderate prices. They come in Fumed, Golden and Early English Oak, Surfaced Oak in Golden and Early English finish and Golden Elm. We offer a choice of round, square and pedestal styles and you cannot find better value in this line anywhere else in town. Come and inspect our stock. You are welcome whether you buy now or not. We give a discount of ten per cent for spot cash off regular prices.

Extension Tables
Golden Elm, 6 feet.
CASH PRICE . . . $7.65
Same Table, 5 feet.
CASH PRICE . . . $6.75
Imperial Early English finish Table, extends to 6 ft.
CASH PRICE . . . $8.50

Dining Chairs
Set of Imperial Surfaced Oak Diners, golden finish; five small and 1 arm chair; wood seats.
CASH PRICE . . . $10.80
Similar set, but with pantasote leather pad seats.
CASH PRICE . . . $15.00

Extension Tables
Solid Fumed Oak, round top, pedestal style Extension Tables; 8 ft. extension. A splendid bargain.
CASH PRICE. . . $28.80
See our stock of Buffets, Chairs, etc.

SIXTY INJURED.

Unfurling of Green and White Flag at Football Game Results in Fierce Rioting.

Belfast, Ireland, Sept. 16.—A fierce fight was waged in the Celtic Park football grounds Saturday in which sixty persons were severely injured, two of them being in a critical condition. Five of the injured are suffering from gunshot wounds.

The fight took place at half-time in a game in the league series between the Belfast Celtic team and a team representing Linfield. The Linfields were leading by a score of 1 to 0. Some Celtic supporters unfurled a green and white flag and started to parade. Linfield partizans displayed a Union Jack. Immediately stones, bricks and clinkers were hurled. The police were powerless. The opposing mobs surged towards the playing field where a regular battle was fought in full view of the spectators in the grand stand. The report of a revolver caused a lull and many left the grounds, but the stone-throwing was soon resumed, both inside and outside the grounds. More revolver shots were fired but police reinforcements arrived and separated the mob.

Many Ladies Sceptical

IN THE NEW BUILDING OPPOSITE CITY HALL

Many ladies are sceptical as to the real value of Electric Cooking Apparatus. They are prejudiced—and yet few of them have really gone into the matter with quarter the care and solicitude spent over the choice of a new hat. In just ten minutes we can explain, first cost, running cost and actual results in such a manner as will quite convince you that you really ought to use Electricity in your kitchen.

AUTONOMOUS NAVIES.

Though there is little reference in Canada to the naval policy of Australia critics of the Laurier naval policy frequently refer to the example of Australia as though the Antipodean dominion is giving an example of imperialism which Canada might do well to emulate. Though Australia is doing more in the way of building warships and cruisers than was immediately proposed under the Laurier Naval Act, she is doing nothing differently, and the autonomous control of the Australian navy is held in the Commonwealth. The announcement of the naval policy of Australia was only a little earlier than that of Canada, yet Australia has applied herself strenuously to the carrying out of her programme while that of Canada has been procrastinated. A recent issue of the London Standard says:

"With the launching of the (Australian) cruiser Sydney, the completion of the programme announced at the Imperial conference of 1909 will be well within sight. Three destroyers are already afloat and in commission. A Dreadnought and a smaller cruiser have been launched and are being completed; the construction in Australia of another cruiser and three destroyers and at Messrs. Vickers' works at home of two submarines has been begun. But since these warships were ordered the Commonwealth has resolved to carry out the larger scheme recommended by Admiral Henderson, which will give it a fleet of forty-eight war ships to be built within twenty-two years at a cost of twenty-three millions sterling."

The fleet will be Australian in every respect. Not only are most of the remaining ships to be built at home, but training schools have been established with the ultimate purpose of manning the navy with Australians. The control of the navy is absolutely autonomous though there is in Australia, as in Canada, a recognition of the fact that "when Britain is at war Australia is at war." No part of the empire can dissociate itself from the defence projects of the empire as a whole.

What is still more remarkable about the Australian navy is that it is proposed to build a number of cruisers of the "Bristol" type, such as was provided under the Laurier programme and sneered at by the Conservative press as obsolete and "tin-pot" vessels. While the Australian programme is much more pretentious than was that of Canada, the principle is the same. Australians have had reason to reproach the loyalistic boastings of the government party in Canada because of its do-nothing policy. The stinging sarcasm uttered by an Australian statesman that Canada is talking while Australia is acting was well merited. And the autonomous policy of the Commonwealth is perfectly satisfactory to the British admiralty.

MR. LONG'S ARGUMENTS.

Rt. Hon. Walter H. Long, the chief burden of whose political addresses in Canada has been attacks upon the Home Rule Bill proposed for Ireland, declares that the bill is impossible because it grants administration of customs and postal departments to Ireland. Mr. Long asks how it would work in Canada if each province managed its own postal affairs and erected tariff walls against the trade of the other provinces. To Mr. Long these questions may seem impossible of rational answer but to the "provincials" in Canada, familiar as they are with their system of provincial autonomy, there appears nothing particularly alarming in such a proposition.

The Dominion of Canada is an integral part of the British Empire. Yet it manages its own postal affairs, fixes its own postal rates and establishes its branch post offices wherever the government chooses. The fact that Canada does this in no way interferes with the loyalty of its people and the population of Ireland is nearly as great as that of Canada. Many smaller colonies of the Empire are in the same position.

So far as inter-provincial or anti-provincial tariffs are to be reckoned with the advocates of tariff reform have told us to believe that a system of tariffs within the Empire is absolutely necessary to the maintenance of the integrity of Empire. If tariffs secure or advance the prosperity of a nation why should they not be equally effective in securing and advancing the prosperity of individual provinces? Why should not one province of Canada protect its industries, tax its customers and grow rich by shutting out competition from other provinces? Or why should not Ireland erect a tariff wall against the world and give a preference to Great Britain as the tariff reformers, of whom Mr. Long is one of the chiefs, so persistently advocate? Canada has autonomy in tariff legislation; is the Dominion less loyal because of this autonomy? Why then should the mere right to levy a customs tariff provoke the separation of Ireland?

However appealing Mr. Long's arguments may be among British tariff reform sympathizers he is beating the air when endeavoring to convince Canadians that autonomy, either in postal matters or tariffs, will result in a separation of Ireland from attachment to the throne and institutions of the Mother of Parliaments. There may exist good reasons for opposing Home Rule but Mr. Long's arguments will not appeal to Canada.

MEAT TRUST INQUIRY.

That there is a meat trust in Canada which controls price and supply and even the producer's sale price is a growing conviction. The close relation between packing establishments in Canada and those of the United States makes it clear that the whole continent is in the grasp of organizations which dominate the profits of producers and the cost of meats to consumers. It is not long since the New York Sun obtained from London, by cable, the wholesale and retail prices of meats in the London markets on a given day. It published these in parallel columns with New York prices and proved that, while wholesale prices in London were two or three cents per pound lower than in New York, the difference in retail prices was out of all proportion. Thus, sirloins sold in New York at 28 cents while in London the price was 19½ cents per pound. For all cuts the London prices were far below those of New York.

What makes the comparison the more remarkable is that the United States exports from one to two hundred million pounds of beef every year and the most of this foreign shipment goes to London. Much of the beef distributed in England is American beef. It is carried across the ocean, distributed and sold throughout Great Britain for much less than it is sold for in New York. And the best beef is the exported beef. Though the price of beef on the hoof has advanced slightly the advance in no way compares with the increase in the retail cost of meat.

Much the same conditions prevail in Canada and the city of Toronto has taken the matter up. It has asked the Dominion government to institute a searching inquiry into the truth of the charge:

"That the supply and distribution of meat, within the city of Toronto, and throughout the Dominion of Canada, is regulated and controlled by an agreement or understanding among the various dealers therein, whereby the prices to the consumer are unduly enhanced and sustained and kept at excessive rates through illegal and improper methods by such persons, and that such agreements and methods constitute a menace to the health and prosperity of the citizens of this city and of the Dominion."

Thousands of tons of meat are kept in cold storage under the modern development of the cold storage business. It is fortunate that this can be done but the possibility of levelling the market and keeping it in control that such scientific achievements afford places the whole meat industry in the hands of the trusts. These can refuse to buy, or they can beat down prices when production is abundant and refuse to sell until there is a famine unless at their own prices. It would not be possible for them to do this unless the government constructed for them a tariff wall which effectually shuts out all foreign competition. Their surplus stock is shipped to foreign countries and enters into competition with the countries of the world. The producer in America is mulcted in profits and the consumer in prices to the glorification of the tariff and the enrichment of the trusts. It is high time the matter were investigated with a view to the authentic disclosure of the facts.

Suffragettes recently invaded the grounds of King George's Highland castle in the course of one night. The King is residing at Balmoral during the shooting season and a strong force of police is in attendance. The women, however, succeeded in completely outwitting the guards and left signs of their daring exploit in the shape of purple colored flags bearing the words, "Votes for women means peace for the cabinet ministers," all round his Majesty's private golf links. They removed and took away with them the flags marking the holes.

• • •

As The Montreal Herald understands it, the scientists think they might possibly find a way to start life from matter, but that, if they did, it would take about a hundred million years to work up through synthesis to the production of man. As they cannot even then give any guarantees of the sort of man it would be, the prudent course will be to go along trying to improve on the present stock.

• • •

The British Trades Union Congress has by a large majority put itself on record against compulsory arbitration of labor disputes. There are probably a variety of causes behind the action in question, though what it is directed against may yet come out. The work of the trades unions tends steadily to destroy the old individualist relation between the employer and the worker and to make conditions of work and wages matters of treaty between representatives of the two classes concerned. Most arbitrations have as a natural consequence the enforcement of the agreements, thus reached, and in some advanced countries the law has been put into accord with the logic of the situation.

• • •

Some English newspapers, inclined to be finicky, want to know what F. E. Smith and Walter Long are doing out here in Canada, leaving all the work of arousing Ulster to Bonar Law. One of them is unkind enough to suggest that Mr. Long thinks the wrong man was made Tory leader, and that modesty keeps him from being around when the other fellow is proving it.

• • •

The Montreal Gazette begins an editorial with the remark that: "Those Canadians who are still calling for free trade with the United States seem to forget that there is no apparent desire for it at present on the other side of the border." Since there are no persons in Canada who are "still calling for free trade with the United States" and since for twenty years there have been none who have suggested such trade relations with the republic it is difficult to see the force of the specious, oracular statement. But it does seem somewhat puzzling to find organs of a political party which declares that reciprocity is "dead" making so many vindictive and revengeful stabs at a suspected corpse.

WHEN HISTORY REPEATS ITSELF

From the Cleveland Plain Dealer

There was a frightful disturbance on the lower deck of the ark.

"See what's the matter, Ham," said the skipper. The young man was gone for some time.

"It's all right now, dad," he said. "The bull moose was trying to butt the elephant overboard."

o o o

HOSPITALITY

A reverend gentleman tells a story of a bishop who arrived unexpectedly at the house of a certain vicar, whose wife happened to be from home. The good man did his best for the accommodation of his right reverend father, and installed him for the night in the spare bedroom. The following morning the bishop came down rubbing himself, and, in response to the hope expressed by his host that he had passed a good night, grumpily replied that he had not. Later in the day, when the bishop had departed, the lady of the house returned, and was horrified at what had occurred. Said she: "When I left I put the teapot and all the silver spoons under the feather bed in the spare room."

o o o

STILL WONDERING

A motor was tearing along a country road the other day, when a policeman suddenly loomed into view near some crossways and held up his hand. The driver, feeling himself guilty of exceeding the speed limit, slowed up with a grunt of vexation, while visions of police court proceedings and "forty shillings and costs" flashed upon him. "What is it?" said he irritably, as the machine throbbed slowly past the policeman. "Well, sir, I must—" "Look here, constable," interrupted the motorist. "Pick this up and keep your mouth shut." And a half-sovereign clinked upon the road. The policeman quickly stooped his blue official back, and in a twinkling the motor had bounded on, the driver chuckling with glee at having escaped the law. Some twenty minutes later that same motorist was heard to murmur, on recovering consciousness: "I wonder if that policeman simply wanted to warn me that a tree had fallen across the road?"

TWO MORE TERMS FOR ROBERTSON

YEAR ON AUTO THEFT AND CHEQUE CHARGE

Coal Mines Regulation at Nanaimo Dismissed—Men and Company Charged

Stewart Robertson was presented in the county court this morning for trial on two counts, one of having stolen an automobile and the second of having obtained goods with a worthless cheque. He is serving a sentence of one year for having obtained goods from G. T. Fox, cutler, to the value of $10 with a worthless cheque, and being found guilty this morning was given terms of one year on each of the present charges, the sentences to run concurrently.

Robertson was on a drinking spree about two months ago, and took the automobile belonging to E. S. Wilband, a real estate operator, from in front of the new Union Club building, Humboldt street. He drove to the Oak Bay and Willows hotels and had liquor at each, according to his story this morning, and afterwards went out along the Cadboro Bay road, where he was overtaken by Sergeant Clayards, of the city police, who, being notified, went after the thief with the city police patrol. Robertson was brought back to the city and charged, but in the police court he elected a trial by the higher court.

When he was secured and searched cheque stubs and blanks in his possession pointed to him as the man the police were searching for in connection with cheques passed at the stores of G. T. Fox and Copas & Young. He was presented on both charges, the hearing in the Fox case being before the police magistrate. Alarmed at the sentence of one year, the accused determined to seek a better fate at the hands of a higher court judge on both the second cheque charge and the automobile charge.

He had no defence this morning except that he had been drinking heavily before he committed either of the three offences on which he was convicted. He regarded the first cheque charge on which Magistrate Jay sentenced him, as a paltry affair, and this morning pleaded for a light sentence on the ground that he was given a year in the police court for a paltry charge of obtaining goods to the value of $10. There was no forgery, he said, and the goods had been returned to the rightful owner. J. H. Austin represented the crown and Robertson appeared for himself.

Judge Lampman this afternoon is hearing the case of Hambach against Bradon, in which plaintiff is suing to recover $125 on an old promissory note. The defendant pleads the statute of limitations, claiming no proof before the court of any acknowledgment of the note in the last six years. The court also continued the hearing in the Chinese loan case and remanded it for more evidence until to-morrow.

Nanaimo Court.

At the Nanaimo court on Friday the Western Fuel Company was charged with having employed three men in the Protection mine for more than eight hours on one day. The men were charged with having worked for more than eight hours on one day. The prosecution was brought under the Coal Mines Regulation Act. The charges were all dismissed as the evidence showed that the roof of one slope in the Protection mine was in a dangerous state and the men had worked for the purpose of making it safe, and preventing accident to themselves and fellow-workmen. W. C. Moresby appeared for the crown, and E. M. Yarwood for the company and the men.

OUR LETTER BOX

NOTICE TO CORRESPONDENTS.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

CORRESPONDENT OR EDITOR.

To the Editor.—Mr. Thomas Dacey, of St. Joseph's hospital, has replied in the Colonist to a letter of mine which you kindly allowed to be printed in the Times on Friday last.

I should be sorry to wantonly give offence under any circumstances, but it is really more than I can do to divest myself of the suspicion that there has been collusion in this case. Mr. Dacey now says "the facts stated by T. S. K. are at variance with the truth," which, put short, means "liar." What a row there would have been over this in the good old times! He takes "strong exception to my statement that he had denied the authorship of the letter," attacking my views upon Ulster and Home Rule. But I made no such statement! I wrote to him last month politely asking if he was the author of the letter signed "Thomas Dacey," but I received no answer, and then became a little suspicious.

As Mr. Dacey seems to be a favored friend of the Colonist, and judging by his editorial style of writing possibly a contributor to the fourth page, he may be able to furnish some particulars of the "Michael O'Flaherty" case, an illusive home ruler who also took liberties with my good name, assisted by your autocratic contemporary, who displayed a rare amount of worldly wisdom in his persistent and characteristic silence, admitting nothing, denying nothing, until this morning when a small editorial bomb, which I have been directed not to call a "leaderette," was aimed at me.

If Mr. Dacey wishes to supplement his income as nurse in the hospital by contributing editorials to the Colonist he is, bona fide, one of the staff, and it is a mere quibble to say the letter was not concocted in the Colonist office.

I will now confess (and no one knows better than your contemporary how useful confession may prove in earthly affairs) that when writing my last remonstrance to the Colonist I knew it would not be published. It was only a trap to induce the Colonist to "walk into my parlor" and say (or allow me to say) something in justice to me. It reached the Colonist on Friday last, along with that of Thomas Dacey, but, as I fully expected, was not published. That was the only document from which Mr. Dacey could have discovered any grounds, if he took it seriously, for calling me a "liar." Then the question arises how did he get access to MS. that was rejected by the editor of the Colonist?

Guided by this correspondence I have not found that the Colonist takes both sides of a "contentious issue," as I was not given a chance at the two home rulers, who were allowed every facility to state me with perfect impunity.

The lone Ulster man got more kicks than halfpence, whilst the home rulers, "Michael O'Flaherty and Thomas Dacy," who have no practical knowledge of Ireland and her requirements, walk off with all the jam.

T. S. K.

P. S.—As the Colonist will not print anything from me on this subject I appeal to you for protection which I expect you will not refuse.—T. S. K.

Serge Dresses for the Little Girls, and You'll Not Object to the Price

NAVY, cardinal, browns, greens and shepherd's checks are the colors in which these smart little garments are to be had. They are made up in styles that are really pleasing, are to be had in sizes to fit the average girl from 2 to 14 years, and are trimmed with neat braids, bands of plain silk, bands of materials, buttons and embroideries. Sailor styles and a semi-sailor style with a one-sided effects are very popular lines well represented in this showing. They are a serviceable and inexpensive dress that is very attractive and well suited for school wear.

ANOTHER GOOD VALUE, made of a good washing print, has a pocket and a large bib. A good value at only .....50¢

Two Lines of Coat Sweaters for the Boys

AND THEY HAVE MUCH TO RECOMMEND THEM

OF course there are many other lines if you prefer them, but as it is out of the question to talk of them all in this limited space we have chosen these two lines for description and invite you to see the garments in the department. Like all good merchandise, these garments are their own best advertisement and they require no flattery—the fact is that there is nothing that we can say here that will more than do the garments justice.

HEAVY WOOL MIXTURE COAT SWEATERS, in colors grey, brown and blue with fancy trimmings down the front are here in all sizes. They are well made and are warm and serviceable garments. One glance at them is convincing evidence of their worth. Prices 75c and $1.00
PULL-OVER-THE-HEAD STYLE OF SWEATERS, made of a heavy wool mixture, are to be had in the honeycomb knit. Colors grey and blue with red striped collars are here and all sizes are to be had for the boys. Price, each .....75¢

NO BETTER VALUES ARE TO BE HAD AT ANY PRICE

Men's Socks and Japanese Rush Suit Cases

ATTRACTIVELY PRICED

SHOPPING OR LUNCH BASKETS, made of Japanese rush, metal bound and finished with leather handle and brass side clasps. They are a neat and strong little basket that will recommend themselves. To be had in four sizes, and the prices are only $1.35, $1.15, $1 and .....75¢

JAPANESE RUSH SUIT CASES, metal bound, have leather handle, brass lock and side clasps, and are well finished on the inside. They come in the 14 and 16 inch sizes and are remarkably good values at, each, $1.50 and $1.75

MEN'S WOOLLEN SOX for Fall wear. These are a heavily ribbed cashmere sox and are to be had in colors blue, green and tan. All sizes at, per pair, 35c or 3 pairs for $1.00

WORSTED SOX for men. They are heather mixture sox of a medium weight and are a durable and comfortable garment. Black may be had if desired, and the dyes are fast. Per pair, 25c, 35c, 50¢

Our $2.95 and $3.45 Shoes for Women are the Best Possible at the Price

Some Beauties Marked at Only $2.95

THIS lot includes all sizes and as there is quite a large assortment of leathers and styles to choose from it will prove an easy matter for you to find a pair that will both fit and please you.

IN GUNMETAL CALF there are both button and lace styles to be had. Some have high heels and others come with the popular low heel.

BUTTON AND BLUCHER BOOTS are to be had in tan Russia calf, and this line is finished with the Cuban heel. They are well finished, are neat, and would do credit to a higher priced shoe.

IN PATENT LEATHER you can have either button or lace boots with either the high or the low heel. Smart, comfortable and serviceable are three words that best tell the merits of this line.

SCHOOL BOOTS for growing girls are to be had in all the popular leathers. Built for service, they are as strong as it is possible to make a girl's shoe and sell it at this price and in point of style and fit they are hard to equal even at a higher price.

Splendid Values at $3.45

THEY look good and are just as good as they look. Added to this the important fact that they are made to fit the feet perfectly. They are a value that is easily worth $5.00 a pair, but the fact that we purchased them direct from the manufacturers and sell a huge quantity for cash, enables us to sell them at a price advantage.

BUTTON BOOTS are to be had in a gunmetal calf with attractive cloth or neat kid tops. These are both smart and serviceable and should appeal to all women who love stylish footwear.

IN PATENT COLT there are button boots with either cloth or kid tops and you can choose between high or low heels in this lot.

BUTTON OR LACE BOOTS are to be had in tan Russia calf. A quality that is rarely seen marked so low, and your choice between high or low heels.

BLUCHER BOOTS, with high or low heels are to be had in either gunmetal or velour calf. All sizes are here and their style is pleasing.

DAVID SPENCER, LIMITED

Personals

A party was given by Miss Hazel Petherick at the Empress hotel Saturday afternoon to Mrs. Wesley Moore, nee Gypsy Switzer, a recent bride. Those present besides the hostess and the chief guest were Lorene O'Kelly, Mrs. M. C. Sands, Mrs. F. R. Rendell, Emma Price, Verna Humber, Olivette Petherick, Louise Wheteley and Alice Robelee.

• • •

During his stay in Victoria Bishop Rudolph, of New York, will be the guest of Mrs. R. S. Day, Rockland Avenue.

• • •

The reception to welcome Rev. Mr. and Mrs. Flinton to St. Mark's church will be held in the Parish hall to-morrow.

EXPERIENCE.

Mrs. Elizabeth B. Grannis, at one of the dinners following the conservation congress in St. Paul, said of marriage: "It is true that some girls, marrying men to reform them, succeed. Some girls, too, fail. The hostess at a tea once said to a beautiful, sad-eyed woman, 'Are you fond of sports, Mrs. Blank?' Mrs. Blank smiled. Her sad eyes twinkled a moment. Then she sighed and answered, 'Well, I suppose I ought to be. I married one.'"

"John, am I all right for the theatre?" "My dear, I hardly know what you consider all right. You have a dab of powder on each ear, but none on the tip of your nose."—Washington Herald.

BOWES HAS IT

If it's something you would expect to find in an up-to-date, well equipped drug store. The reliability that comes after long establishment and wide experience, with the progressiveness of modern business conditions are found at Bowes' and account for the confidence of the Victoria people. In everything from pills to perfume, are found purity, efficiency and true value.

New Hotel at Sooke Harbor.—C. H. Barbour, the well known "hotellier," is opening a new hotel at Sooke harbor to-day. The building will contain forty rooms in all, with thirty-two bedrooms, having hot and cold water laid throughout. The new structure stands just beyond Milne's store and overlooks the harbor. Needless to say it is an ideal rendezvous for sportsmen and fishermen and will be a decided asset to the attractions of a very beautiful district.

o o o

Well-Known Clergyman. — Rev. Henry Elliott Fox, prebendary of St. Paul's cathedral, London, and well known as clerical secretary of the Church Missionary Society from 1895 to 1910, arrived on the Empress of India yesterday from the Orient and proceeded to Vancouver. Prebendary Fox has been on a visit to Eastern countries. He was born in Southern India, and before commencing his long association with the Church Missionary Society held appointments at Oxford, Westminster and Durham.

o o o

Y. M. C. A. Boys.—The Y. M. C. A. boys have been collecting the signatures of those of their number interested in Association football. Quite a large number of names have been handed in and Mr. Hughes, the boys' work director hopes to be able to run two teams among the youngsters very shortly. Yesterday afternoon the camp boys participated in their postponed automobile jaunt. Four cars were on hand belonging respectively to Ald. Beard, R. T. Elliott, Albion Jones and Mr. Mitchell. About fifty miles of good Island roads were covered and the boys returned home happy about 6 o'clock.

o o o

Laborer Injured—W. Acheson, a laborer, was severely injured on Saturday by being trampled upon by a horse which he had been riding, the animal becoming frightened at something and throwing his rider. At the time of the accident Acheson was taking his team to be shod, riding one of the horses and leading the other. Shortly after he was thrown some people discovered the injured man and removed him to the Colwood Hotel, Dr. Houghton being summoned and giving all the assistance possible until the arrival of the ambulance about two hours later. The patient was removed to the Royal Jubilee Hospital, where he was promptly attended to. His injuries were found to be less serious than at first anticipated. Acheson left the hospital yesterday afternoon.

JURIST EN ROUTE.

Mr. Justice Newlands Returns From Visit to Orient During Long Vacation.

Mr. Justice Newlands, of the Supreme Court Bench of Saskatchewan, arrived yesterday on the Empress of India from the Orient, having made a round trip by the steamer on pleasure.

His lordship said he had been greatly impressed with his trip, and had enjoyed excellent weather, taken all round. There had been atmospheric disturbance during the last few days, but otherwise he did not have much to complain about from the trip. He was not making any special observation of conditions, and therefore, had not much to say to the Times man, but observed that no one could pay a visit to the Orient for the first time without being brought into touch with a different civilization from that of the Occidental peoples.

The first question he asked was how were the crop prospects in the prairie provinces, and was satisfied to hear the hopeful reports. He proceeded to Regina at once, in order to take his seat again at the opening of the fall term.

Mr. Justice Newlands was formerly adviser to the Yukon council, and was appointed to the Supreme Court Bench of the Northwest Territories in 1904, being assigned to Saskatchewan when the territories were recognized, and the two provinces formed in 1905.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, September 16, 1887.

How to populate the great northwest as well as many sections of our own province is the great problem. That the wife famine is one of a serious character all admit. It is proposed that the railways shall issue tickets to eastern points on one side of which shall be printed the price of the ticket, and on the other a marriage certificate in blank. When the holder returns, if he can show the certificate properly made out and present the bride at the office, the full amount will be returned.

The C. P. N. Co. will in future dispatch a steamer from Victoria to Alberni once a month for the next three or four months.

The Dominion steamer Sir James Douglas, returned after a cruise along the east coast this morning.

A large number of ladies and gentlemen surprised Mr. S. L. Kelly and family at the residence, Yates street, last evening. A surprise party was also held last night at the residence of Mr. Dobbs, James Bay.

In a long letter to the Times, Thos. C. Sorby urges the adoption of standard time, Victoria being a quarter of an hour behind the age. As a consequence visitors to the mainland miss the return boat sometimes.

EMPLOYED OFFICERS' MEETING.

Y. M. C. A. Workers Will Hold Conference in Vancouver on Wednesday.

The employed officers in the different branches of the Y. M. C. A. along the coast have been invited to the Employed Officers' Conference at Vancouver on Wednesday next. Teachers of the several subjects and physical instructors will meet to discuss their views on various allusive topics, and papers will be read by experts in each class. This is the fourth conference which has been held this year on the coast, and if it follows the example of its predecessors, it will result in much good both in fostering the spirit of union among the officials, and in inculcating fresh ideas into the work of the association, to keep it in line with the highest educational development of the time.

TRIBUTE TO VICTORIA.

Chicago Lawyer Very Highly Impressed With This City.

A tribute to Victoria was paid in a letter received from a prominent Chicago lawyer at the office of the Vancouver Island Development League this morning. He writes: "I am rather undecided as to which part of British Columbia we (my son and I) shall settle in, for we have made up our minds conclusively to come west. Victoria is very attractive to me, partly because of its ideal climate which I am always hearing about, and partly because I was born in England, and certainly felt at home in your city during my last visit. My son is a graduate of Yale University and a very clever accountant, so I think he ought to do well on the island." Other letters received were from a fruit-farming expert in Rokeby, Sask., and a farmer desirous of buying land and stock from Hurstpierpont, England.

Roofs made fire-proof by Newton & Greer Co., 1326 Wharf street, makers of "Nag" Roof composition. •

GUARD OF HONOR.

Fifth Regiment Will Provide One.—Parade To-morrow Night.

The gallant Fifth will have a unique opportunity to distinguish themselves during the visit of the Duke of Connaught. They will furnish a guard of honor, on the arrival of the royal party. Probably they will also mount a permanent guard during the stay of His Royal Highness at Government House.

It is not often that a regiment has the good fortune to furnish a guard of honor to so distinguished a member of the royal family. A parade is being held to-morrow at 8.30 o'clock, at the drill hall, to select the fortunate men to whom this exceptional honor will be entrusted.

NEW FINANCIAL HOUSE.

Building Permit Taken Out To-day for Structure on Corner of Yates and Langley Streets.

A banking business is to be located on the southeast corner of Langley and Yates streets. The Bankers Trust Corporation has let a contract for the construction of premises from designs of L. W. Hargreaves, for which a permit was taken out to-day. It will be of brick and concrete, and the contract has been awarded to the Pacific Coast Construction Company. The cost will be about $11,000.

Other permits taken out to-day are for a six-roomed house on Lilian and Irving streets, costing $2,000; and by J. C. Rand for an addition to a store on Oswego street.

EXTENDING FACILITIES.

Electric Light and Power to Be Furnished Residents of Saanich Peninsula.

The announcement made on Saturday by A. T. Goward to the effect that electric light and power facilities will be extended to the whole of the Saanich peninsula is of great importance to the people of Victoria and to all the residents of the southern part of Vancouver Island. Every area within a reasonable distance of the new interurban line will be served at an early date. S. Hails, the company's agent, had inspected the territory very carefully and exhaustively, and a three-phase power and lighting distribution of the most modern kind is to be built and will be arranged so as to allow of its being tapped to serve the numerous settlements which are springing up very rapidly along the track of the new car line. Electric current available for residences, as well as necessary power for various domestic purposes, will be a distinct advantage to those who anticipate setting up homes in the suburban districts.

SAANICH COUNCIL.

Eight Plans of New Subdivisions Were Passed on Saturday—An Old Grievance Re-aired.

Several interesting items appeared on the agenda of the regular fortnightly meeting of the Saanich Council which was held on Saturday last.

With regard to shooting in the limits of the municipality, Councillor Dunne asked if any special steps would be taken to see that no shooting took place by residents before October 1, and the reeve authorized another notice in the papers and remarked that the constable would be given full power to take such steps as he should deem necessary in order to enforce the law.

A complaint was read in council from Mrs. C. T. Griffiths about the roaring of the wild animals on Cloverdale avenue. It was authorized that Mrs. Griffiths be informed that in view of the case dealing with this question now pending at the present time in the supreme court, no immediate action can be taken.

The plans of nine new subdivisions were considered by the members of the council, and eight were approved subject to due provision of roads of the proper width on which the council are determined to insist.

A letter was read from J. L. Raymur, Jr., requesting that certain bridges in the district be strengthened as he proposes to start a motor freight service, and the weight of his vehicle would be in the neighborhood of seven tons. The reeve expressed the opinion that it would be an excellent thing for the district and that as much as possible would be done to meet the writer's request.

"Professor, Won't You Favor Us, Please?"

When there is a real, live professor among the visitors, one who is accepted as a finished artist, a musician whose knowledge and experience cover a wide range, how comforting and reassuring it is to the hostess to know that her piano is everything that a piano can be; that it is worthy the greatest master; in short, that it is a

Gerhard Heintzman Piano

And the best of it is, this great piano is not just a rich man's instrument, although it is the choice of many of the wealthiest homes in Canada. The price is little more than is asked for many very inferior makes, and we are able to arrange the terms in such a manner as to render it delightfully easy for almost ANY family to enjoy the benefits of this king of pianos and pay for it in small instalments.

First game—Portland, 10; Spokane, 2. Second game—Portland, 7; Spokane, 7 (called in eighth).
Tacoma, 4; Vancouver, 3.

Seattle, Sept. 15.—By breaking even in to-day's double header with Victoria, while Spokane lost one and tied one at Portland, the locals increased their lead over Spokane by half a game. Vancouver, losing to Tacoma, maintained its relative position one game behind Spokane.

Meikle pitched fine ball in the first game with Victoria to-day, holding Victoria to three hits, while the locals bunched hits on Kaufmann and profited by Victoria's errors, winning 5 to 0. In the second game Victoria got an early lead, knocking Thompson out of the box in two innings. Schneider went in to pitch for Seattle, and the locals forged ahead, but Victoria rallied in the ninth, scoring four men and winning the game 9 to 7. Scores:

Score by innings:

Seattle	0	0	0	0	2	0	1	4	0—7
Victoria	2	2	0	0	1	0	0	0	4—9

Summary: Two-base hits—Shaw, Schneider, Meek. Home runs—Schneider, Brooks, Kennedy, Meek. Sacrifice hits—Yohe, Brooks. Stolen bases—Kellar. Pitchers' records—4 runs and 3 hits off Thompson in 2 innings; 5 runs and 8 hits off Schneider in 7 innings; 7 runs and 12 hits off Wilson in 8 innings; no runs and no hits off McCreery in 1 inning. Credit victory to Wilson; charge defeat to Schneider. Struck out—By Schneider, 1; by McCreery, 1. Bases on balls—Off Wilson, 3. Time—1.40. Umpire—Moran.

PIPPINS HOLD COHN'S INDIANS BACK IN RACE

Portland, Ore., Sept. 15.—Portland won one game and tied a second of a double-header to-day with Spokane. The first contest was a free hitting affair in which Portland knocked two pitchers out of the box and hammered Centre Fielder Hartley, who had been sent in to try to stem the tide. The second contest was sensational. Spokane secured a lead of five in the first, knocking Girot and Doty out of the box before a man had been retired. In the third and fourth Portland found Kraft, tying the score. Spokane broke the tie in the fifth, only to have Portland tie it again in the seventh, which was to have been the last innings. In an added innings Spokane broke the tie again only to have Portland tie the score over again in its half. The game was called at the end of the eighth at the expiration of the time limit. Scores:

First Game.

TACOMA WINS WITH A RALLY AT FINISH

Tacoma, Sept. 15.—Tacoma celebrated its second annual Umpire Day to-day by pulling the game out of the fire in the ninth inning, defeating Vancouver by a score of 4 to 3. In addition to a number of bouquets and "josh" presents, Umpire Van Haltren, the guest of the day, received a roll of 25 $1 bills from the Conversation league, a local rooters' organization. The 1911 champions had a lead of one run when the last half of the ninth inning was reached, but three hits and Goodman's error brought in two runs for the locals. Score:

Vancouver—	A.B.	R.	H.	P.O.	A.	E.
James, 3 b.	2	2	0	3	2	1
Bennett, 2 b.	3	0	0	2	2	0
Goodman, 1 b.	4	0	0	10	0	1
Frisk, r. f.	4	0	2	2	0	0
Freer, c. f.	3	0	0	4	0	0
Brinker, l. f.	4	0	1	0	0	1

WITHIN THREE OF MARQUARD'S MARK

Joe Wood Equals Johnson's Record of Sixteen Straight

St. Louis, Sept. 16.—Joe Wood won his sixteenth straight game and equalled the American League record made by Walter Johnson, of the Washington team this season, when he defeated Earl Hamilton in the second game of a double-header. The game was called at the end of the eighth inning because of darkness. St. Louis won the first game.

Wood is now within three games of Rube Marquard's record, and has been pitted against the best pitchers in his league. The game which was credited to him yesterday was taken from Earl Hamilton, the boy wonder of the tail-end Browns who pitched a no-hit game against Detroit. Wood has worked in 38 games this season, winning 30 and losing 4. His percentage reads almost .900.

UNASSISTED TRIPLE PLAY AT OAKLAND

Oakland, Cal., Sept. 16.—In a game replete with sensational plays, the greatest of which was the triple play (unassisted) made by First Baseman Bill Rapps, of Portland, Oakland won Saturday by a score of 6 to 5. Although his team was defeated, Rapps was the hero of the game.

With the score 4 to 3 against Portland, the first baseman of the Northerners put the ball over the fence with a man on first, giving Portland a 5 to 4 lead. Then, in the eighth, with Christian, of Oakland, running for Mitz, on second, and Killilay, the pitcher, on first, Rapps made his phenomenal play. Leard, the Oakland second baseman, hit a low liner down the first base line. Rapps scooped it up at his shoetops and rolled over. Killilay and Christian had advanced and Rapps ran over and touched first. Then running for second, he reached the Keystone sack before Christian, who had gone down almost to third on the play, could return.

It is the eighth time in the history of baseball that the play has been recorded.

BASEBALL NOTES

"Curley" Meek leads the Northwestern league in hitting with a mark of 334, although Wilson and Hartley are in front of him with better marks, but them have not been in the league for any length of time. Hap Myers follows Meek with an average of 322.

• • •

Bill James is the leading Northwestern league pitcher, having won 24 and lost eight games to date.

• • •

The Portland Northwestern team will play the Portland Coast team an exhibition game on September 30.

• • •

Hugh Pace, a Spokane semi-pro. of some reputation, has signed a contract for next year with Tacoma. He is an infielder.

• • •

Harmon is hitting at the end of the league hitters with a .200 mark. Victoria is certainly represented on both ends all right.

• • •

Meek added another home run to his list yesterday. Leslie Mann, of Seattle, did also. The latter is the premier four-sack slugger in the league.

• • •

Ed Kippert, centre fielder for the Beavers, is laid up in bed with a swollen head, as the result of being hit by a pitched ball by Butch Belford in a game last Thursday. This is a serious blow to the Vancouver team at this stage of the race, as Kippert has been playing great ball. How long he will be absent in problematical, but he may not return to the game for a week or so at least.

OTTAWA HOCKEY STARS MAY COME

So Bruce Redpath Announces After Having Been West to Vancouver

Ottawa, Sept. 16.—Bruce Ridpath, formerly of the Ottawa hockey club, who has just returned from a visit to the Pacific coast, says that Frank Patrick claims to have signed Hamby Shore, Jack Darragh, Erskine, Ronnan and Fred Taylor to play out there this winter. Ridpath does not think, however, that the exodus to the coast will be as large as last year. Ridpath intends to play at Toronto providing his health remains good. He has been travelling for a Toronto sporting goods house.

It was announced Saturday following a conference between Frank Patrick and New Westminster business men that the Royal City would build a rink in time for this year's league series, and that the Royals would have a team in the P. C. H. A. again. It is understood that syndicate has secured an option on property in the Royal City and that building operations will be commenced immediately. It is proposed to open the P. C. H. A. season about December 10.

MINTO CUP HOLDERS TAKE LAST GAME

New Westminster, Sept. 16.—The last league game of the season between Vancouver and Westminster at Queen's park Saturday afternoon resulted in the Minto cup holders winning by the decisive score of 9-4. The Redshirts were bent on winding up the series with a clear demonstration of their superiority, but when Vancouver were leading four goals to three at the end of the second quarter, it made many of the good fans look perplexed. It was a curious game, with Westminster doing all the scoring in the first quarter, and Vancouver doing all the scoring with one to the good, in the third quarter. The moral was there for all to see, and throwing off all signs of slackness, Westminster went at it hammer and tongs in the third quarter, and added no less than five goals to the three already obtained. It looked as if Hess ought to have caught one or two of the successful shots. It was evident that Westminster has all its vim left for the Minto cup series, and with their present condition maintained, Cornwall will certainly be impressed with the cup defending qualities of the Royal citizens. Their ability to rally all their strength at the right moment was strikingly exemplified and the last goal of the match was characteristic of their combination at its best.

VICTORIAN IS ALL-ROUND STAR

J. McNeill Does Good Work at Westminster Swimming Gala on Saturday

New Westminster, Sept. 16.—J. McNeill, the expert Victoria swimmer, won the president's cup here on Saturday night by proving himself the best all-round swimmer in the province. His total for the meet aggregated 70, and had he not been forced to retire in the 220 event through illness, it is likely that his mark would have been higher. Allen, of Vancouver, took second place in this competition with 66 points, and Bourne, also of the Terminal City, took third with 64 points.

Victoria lost the relay race only through the fact that Boggs collided with a Vancouver swimmer in his heat and the Island team was forced to take second. The performance of R. Gray, of the Capital City, in the 100 yard junior event was one of the features of the meet, the visitor swimming the race in grand fashion and giving evidence that he will be heard from in the senior ranks in a few years. J. McNeill's services were lost for the Victoria polo team through his being forced to leave the water and he was greatly missed. A Vancouver substitute played for Victoria.

The results follow:

Fifty yards, junior championship, final—1, H. Sproule, Y. M. C. A., Vancouver; 2, E. McNair, Y. M. C. A., Vancouver.

Junior hundred yards championship—1, R. Grey, Victoria; 2, H. Sproule, Y. M. C. A., Vancouver; 3, E. McNair.

Senior fifty yards—1, W. T. M. Barrett, Y. M. C. A., Vancouver; 2, R. H. Holland, Vancouver; 3, H. Boggs, Victoria. Time, 31 2-5.

Second heat—1, J. Thom, Victoria; 2, S. Warn, Vancouver; 3, G. Tayzlen.

Third heat—1, L. Smith, Y. M. C. A., Vancouver; 2, C. Beggs, New Westminster. Time, 31 2-5.

Final—1, Barrett; 2, Lee Smith; 3, Thom. Time, 31 2-5.

Relay race—Won by Vancouver Y. M. C. A. against Victoria and New Westminster, Victoria being second and New Westminster third. This race was very keenly contested.

Water polo—Vancouver Y. M. C. A. defeated a combination of Victoria by four goals to one.

Prof. Burrowes afterwards gave an exhibition of fancy swimming and the medals were presented by Mrs C. J. Trapp, of New Westminster.

The Surveyors of the city are requested to attend the annual organization meeting of the Rugby club to be held to-morrow evening.

• • •

The Winnipeg lacrosse challengers paid a visit here on Sunday. To-day they will be taken on a launch ride up to Indian River by the executive of the Vancouver professional club.

• • •

In case the Torontos come to the coast it is quite probable they will be seen in Vancouver in a game against Con Jones' Vancouver team. Also it is quite possible that the teams may play in Victoria. The Torontos are to decide upon their trip to-night.

• • •

Through a ruling of President Manson, of the local league, Cyril Baker cannot play second division soccer this season with the second North Ward team, despite the fact that the Wards will not have a first team. Cyril signed with the Wests as a senior and later changed his mind. Now he will play with the Wests as a senior or with any other team he desires to join, but as nothing but a senior player.

• • •

A Minto cup game between Toronto and Cornwall in Vancouver is a possibility if the Torontos come West and lift the cup from Westminster before Cornwall gets a crack at the Royals. Discussing the dispatch from Toronto in which it was stated that the Torontos may come to the coast and play for the Minto cup before the Westminster exhibition, when Cornwall is slated to play the Royals, Joe Lally, of Cornwall, declared his willingness to play the Torontos providing they won, a series for the cup on the coast, one game in Vancouver and one in Westminster. Joe, however, does not think the Torontos can beat Westminster, and does not believe that any arrangements he has made for Minto cup games will be upset by the Torontos.

BAIRD AGAIN CHAMPION.

Toronto, Sept. 15.—Final games in the Ontario tennis championships were played yesterday afternoon and some very good tennis resulted. Robert Baird, of the Ontario Tennis Club, the present holder of the Ontario title in the singles and winner this year on his visit to the Old Country of the West of Scotland championship defeated R. A. Burns, his club mate and ex-champion of Ontario. Burns, three or four years ago, was considered the most brilliant of the Canadian players. He at that time defeated some of the crack players, always making a good showing in the international championships.

A Splendid Showing of High Quality Beds on Our Fourth Floor

New Brass Beds

New Wooden Beds

New Iron Beds

In anticipation of the changes you are making this Fall, now is a splendid time to discuss the matter of the Brass Beds and the Iron and Wooden Beds, you intend to use either in your own sleeping room or the spare rooms of your home. We don't know that we have anything special to say of our new lines of Brass Beds other than that they are represented by the VERY BEST THAT IT IS POSSIBLE FOR BRASS WORKERS TO MAKE. In selecting our Brass Beds we got away from garishness as far as possible. We believe most people like simplicity and where richness is desired simplicity is its best aid. This is true of anything—in a greater degree, however, with Brass Beds.

FULL SIZE BRASS BEDS, from $18.00

FULL SIZE WHITE ENAMEL BEDS, from $4.25

FULL SIZE WOODEN BEDS, from $4.50

CHILDREN'S CRIBS in brass, brass and white enamel, all white enamel and wooden, from $8.50

New Things in Fine Crystal and Cut Glass

¶ Some of the most interesting of the new fall productions are to be found in the glassware section.

¶ There is no doubt about the popularity of crystal glass at present, extending to the plain, engraved, cut and gold decorated, with impartiality.

¶ Inexpensive wedding and holiday presents abound in each of these classes—things that will be admired and appreciated for their artistic qualities, irrespective of cost.

¶ Glad to have you come in and look them over.

You Can't Buy Better Carriages Than These For Your BABY

What's more, you can't buy as good anywhere and at these prices they are the very best value. See our immense new stock on the balcony, first floor.

FOLDING GO-CARTS, from $3.25

FOLDING SULKIES, from $5.50

FOLDING WICKER GO-BASKETS, from $12

The Unequalled Display of Rugs Awaits Your Selection

The new Rugs are ready, all fresh, beautiful and in almost endless variety. These are the days to get the cream of the new stock, and it is a wise time to make selections when the stock is the largest and best that has ever been shown in this city. The selection is much more satisfactory if done before the hurry-time begins. We never tire of talking about our carpets, and you won't wonder if you look over the elegant stocks we have for your inspection on the second floor.

KENSINGTON ART SQUARES, from, each $8.75

KENSINGTON ALL-WOOL SQUARES, from $11.00

WILTON SQUARES, from $22.50

TAPESTRY BRUSSELS ART SQUARES from $8.50

And hundreds of others too numerous to mention in this small space. It would take pages to tell about our showing and quote prices. Come in and be satisfied. It's the greatest showing ever.

If you want something dainty yet reasonable in price just drop in to our glass department and see these new Vases and Baskets. We have an unequalled variety of styles for you to select from. A few flowers in one of these pieces will make a splendid addition to any room in your home, from

10c

Worthy Enameled Kitchen Things

¶ We dare say every woman who keeps house, has had at least one experience with poor enameled ware—the prices quoted on "seconds" and "thirds" are very alluring at times, and one is tempted to take a chance.

¶ With the prices of the very highest grade as low as at present it is fallacy to buy inferior grades.

¶ With ordinary care good enameled ware will last a lifetime—it is the safest to use and the cheapest in the long run.

¶ Only sort we sell.

AUSTRALIAN LINER NEARS THIS COAST

Zealandia Will Be in Port Tomorrow Morning—Another Message From Yokohama

From different ports in the Antipodes the crack Canadian-Australian liner Zealandia, Capt. Phillips, will arrive in port to-morrow morning. There seems to be some doubt as to the exact time she will reach William Head, but the pilots say that she will be berthed between 8 o'clock and noon. No wireless messages have been received from the steamship since she reported last Friday night 1,293 miles from Victoria.

The Zealandia is having a good run north from Honolulu and will be in on schedule time. She is bringing a full list of passengers, a large number of whom will disembark at this port. Some are going south to 'Frisco and others are bound for eastern points and England. The Zealandia also has a good cargo and will put off a couple of hundred tons at this port.

Another wireless report was received last night from the Nippon liner Yokohama Maru, Capt. Noda, which gave her position as being 750 miles from Estevan. It is expected that she will dock here from the Orient on Wednesday about noon. She is one week behind her schedule, having been delayed at Nagasaki, owing to a case of cholera having been discovered aboard her. She has a big cargo for Victoria, amounting to 1,200 tons, and also a great many passengers. One hundred and sixty-nine of the steerage passengers will disembark at this port.

WIRELESS REPORTS

September 16, 8 a. m.

Point Grey.—Cloudy; calm; 29.89; 61; smooth.

Cape Lazo.—Cloudy; calm; 29.91; 60; spoke Princess May, Seymour Narrows, 7.30 p. m., southbound.

Tatoosh—Cloudy; S. E., 12 miles; 30.02; 60; smooth. In, during night, 4-masted schooner; out, 5.30 a. m., Emara; out, 5.45 a. m., Buckman; in, 6 a. m., 4-masted barque; out, 7 a. m., Curzon towing; in, 7.30 a. m., Victoria.

Prince Rupert.—Raining; wind S. E., strong; 29.62; 60; sea moderate. Out, Prince John at 8.50 a. m.; Prince Rupert at 9.20 a. m.

All steamships plying between New York and Galveston, and New York and New Orleans, which are owned by the Southern Pacific Company's Atlantic steamship lines, are to be converted into oil burners. This will necessitate the reconstruction of 17 vessels, a fleet of this size requiring 90,000 barrels of liquid fuel a month.

STOWAWAY'S ESCAPE CAUSES EXCITEMENT

Gives Officers of Empress and Immigration Men Little Work—Not Caught

Despite a most diligent search which was conducted by the officers and men and also the immigration officials aboard the R. M. S. Empress of India it was impossible to locate a Japanese stowaway, who had eluded his guards just before the steamship reached William Head. The Empress was detained at the quarantine station some hours with a hope that the Jap might be found, and from that point up to the outer docks and while the vessel was in port here the search was continued but without success.

There was a large crowd of people at the wharf to watch the docking of the India their curiosity being aroused by the queer actions of the men aboard the steamship. As soon as the gangplank was made fast several of the crew came ashore, which is a direct breach of the immigration rules, as no person is allowed to leave the ship until she is cleared. One made his way to the end of the dock and commenced to scrutinize the waters there. Another went to the bow and the boatswain kept his eyes over all.

The people were very curious but still they could get no clue as to the cause of the search. At last it leaked out that a Japanese stowaway had escaped from his room and gradually the people began to edge over to the side of the dock. They expected any minute to see a little brown man poke his head out of one of the portholes and then leap into the waters. Although the Empress was here for over an hour no sign was seen of the stowaway. A search of the bunkers was made and the holds, forecastle and every other nook and corner was thoroughly searched.

Whether the Japanese escaped while the ship was being passed at the quarantine station or whether he was stowed in some little corner, which the searching party had overlooked is not known. When one day out from Yokohama he was discovered in the bunkers and was locked up. When coming up the Straits yesterday morning in a last attempt to get into the land of opportunities he escaped from his cell.

SHIPPING INTELLIGENCE

Sept 15.

Tacoma, Wash.—Arrived: Nome City, San Francisco. Sailed: Buckman, Seattle; Hyades, Honolulu; Montara, San Francisco; Nome City, Everett.

San Francisco, Cal.—Arrived: Quinault, Willapa Harbor; Redondo, Coos Bay; Centralia, Gray's Harbor; C. P. Lucas, Seattle; Governor, Seattle. Sailed: Washington, Coos Bay.

The British ship Port Stanley, a vessel that has visited this coast in years gone by, has been sold to Finnish buyers for £5,000.

CAPT. BEETHAM MAY BE RUSSIA'S MASTER

Is Senior Commander of C. P. R. Pacific Fleet—Many Promotions This Year

Rumors which have been current here for the past few days have it that Capt. Beetham, master of the R. M. S. Empress of India, will be made commander of the new C.P.R. liner Empress of Russia, which was launched a few days ago on the Clyde. It is understood that when the India returns here early next December from the Orient he will leave the vessel and proceed to England to take charge of the Russia, which will leave early in the new year for Hongkong to commence service in the trans-Pacific trade.

Capt. Beetham is the senior captain of the C.P.R. Pacific fleet and he is looked upon to secure the position. No doubt Capt. Davidson, master of the Monteagle will be selected to fill his berth on the India. When the Empress of Asia is ready for service it is believed that Capt. Robinson, master of the Empress of Japan, will become commander of her. It is not known who will be master of the Japan or Monteagle but no doubt it will mean promotion for some of the chief officers in the trans-Pacific trade.

This year is seeing a large number of promotions of masters on Pacific steamships. Capt. Gibb, the popular commander of the Canadian-Australian liner Makura, is to leave that vessel when she returns to Victoria and proceed to England to take command of the new steamship Niagara. Capt. Morrisby, of the Marama, has been promoted to the command of the Makura, and Capt. Phillips, the congenial skipper of the Zealandia, will command the Marama.

TWO G. T. P. BOATS IN PORT YESTERDAY

George and Albert Arrive—Latter Delayed on Skeena by Dirty Weather

Two Grand Trunk Pacific steamers were in port yesterday, the Prince George, Capt. D. McKenzie, coming in from Stewart and Prince Rupert, and the Prince Albert, Capt. Donald, arriving from the Skeena River canneries and way ports. Officers of the George reported fine weather throughout the round trip, but those on the Albert had something different to say. The latter vessel was delayed three days loading on the Skeena owing to heavy gales of wind and heavy rainfalls.

From the Skeena canneries the Albert brought south 21,000 cases of salmon, which is the record shipment so far this season, bringing a few hundred cases to Victoria. From here the Albert proceeded to Stewart, where she will load a full cargo of hay for Foley, Welch & Stewart. Owing to the great amount of business which is offering for the Albert she has dropped behind in her sailings. She should have cleared from here for the north on Wednesday last.

The Prince George brought 72 saloon passengers south, including T. Frame Thomson, one of the leading shareholders in the G. T. P., and Percy K. Jackson, also of London, head of a large shipbuilding concern in the Old Land. They made the round trip on the George and intended to spend a few days in this city, but having business in Vancouver they went out on the steamer this morning.

Among those who left on the George this morning when she sailed for Prince Rupert and Stewart were the following: A. T. Greenwood, G. H. Peters, Mr. and Mrs. J. McAdams, Mrs. Fred Peters, M. R. Almour, W. E. Lossee, W. Worlock, E. R. Colburn S. M. Gillespie, M. Caldwell and J. Brookie. An Indian with a policeman's helmet and red jersey with two yellow stripes on was escorted to the George this morning by members of the provincial police. The Indian was from the West Coast and is being taken to the insane asylum at New Westminster.

The Prince Rupert, of the same line, Capt. Barney Johnson, left Prince Rupert this morning according to telegrams received here. She will dock on Wednesday morning.

SOME BAD WEATHER HITS WHITE LINER

EMPRESS OF INDIA IN FROM ORIENT DAY LATE

New Quarantine Regulations in Force—Many Passengers Arrive on Ship

Considerable dirty weather was experienced by the R. M. S. Empress of India, Capt. Beetham, which came into port yesterday morning from the Far East, and the white liner took the full number of days allotted in her schedule for the trans-Pacific trip. The first few days out from Yokohama the weather was rather boisterous, but was only working up the Empress for a severe blow which she was to encounter at the Meridian. A day before she crossed the 180th and the following day the India was tossed about by gigantic waves. A strong gale was blowing and the passengers had some difficulty in keeping their feet. The big seas broke over the vessel's bow and swept her decks clean. Off the Vancouver Island coast light mists were encountered.

Officers of the Empress said yesterday that the Japanese government had enforced new quarantine regulations following the outbreak of cholera in the Orient. All steamships bound from Shanghai for Japanese ports must put in five days in quarantine. They must call at Nagasaki, one of the quarantine ports, and remain there until the expiration of the fifth day after clearing from Shanghai. As Nagasaki is a coaling port the government has given the liners permission to coal ship while in quarantine, although all trimming must be done by the ship's crew, none of the coolies being permitted to board a vessel. The Empress of India was the first steamship to come under the new rules.

Outbreak of Cholera.

There has been a great outbreak of cholera in the Orient and the officers of the India say that the steamship Mexico Maru, of the Osaka line, which was due to dock here this week from the Far East, had six cases aboard, one of which proved fatal. A number of other vessels have also been delayed as a result of the discovery of cases of cholera aboard them. All passengers are being subjected to rigorous examination, which is resulting in the delaying of the steamships considerably.

The Empress of India brought a good list of saloon passengers across from the Orient, including the following: Col. D. C. Lamb, international secretary of immigration for the Salvation Army, who has been on a tour of the Orient; Hon. Mr. Justice Newlands, a member of the Regina bench, who has been visiting in the Far East Rev. Dr. Elliott Fox, prebendary of St. Paul's Cathedral, London, and formerly clerical secretary of the Church Missionary Society and Mrs. Fox; F. W. Bible, of Philadelphia; C. H. Edmondson, of Topeka, Kansas; Fred Summerbell, of Montreal; Mrs. H. E. Partridge and son, of Minneapolis; and Mrs. D. C. Holtom and child, also of Minneapolis, who have been on a visit to different points in China and Japan; Sisters Marie, Marcelle and St. Stanislas, from Shanghai, who are bound for Quebec; H. V. Collis Brown, J. S. Findley and Mrs. Findley; W. E. Ford, A. S. Ginger, J. Holland, Alfred Seidel and B. B. Tait.

There were several hundred Celestials aboard the Empress and 88 disembarked at this port. The cargo on the steamship totalled 3,000 tons, 200 tons of which is consigned to Victoria merchants. The local cargo will be discharged at Vancouver and re-shipped here. The silk shipment on the white liner was worth one million dollars, and is now on its way across the continent to New York.

The white liner will sail for the Orient on Wednesday of next week.

DULUTH CAR STRIKE.

Manager Willing to Take Back All But Original Nine Men Discharged By Him.

Duluth, Minn., Sept. 16.—The car strike situation here remained unchanged to-day. Still barring the original nine men discharged by him, but willing to take back all striking employees, Manager Warren said the way was open for a settlement of the trouble if the men would go back. The men stand for the reinstatement of the nine men. Cars were running on all lines.

FIRE IN SULPHUR QUENCHED.

Hatches of Fitzclarence Removed—Damage to Cargo Not Known—Ship Uninjured.

San Francisco, Sept. 16.—When the hatches of the British steamer Fitzclarence were opened yesterday it was found that the fire discovered last Wednesday in a cargo of sulphur amidships, had been extinguished. Carbon dioxide had been pumped into the tightly-closed compartments, after water had proven ineffectual in quenching the flames. The damage to the cargo of the Fitzclarence has not been determined. The damage to the vessel probably was slight. The cargo of 2,000 tons of sulphur from Japan was consigned to Portland.

TEN NEW LIFEBOATS PLACED ON EMPRESS

Are of Collapsible Type—Built in Hongkong—Can Carry Many Passengers

Taking a lesson from the Titanic's disaster the C. P. R. has decided to equip its trans-Pacific liners with more lifeboats. The Empress of India, which came into port yesterday from the Orient, was the first to arrive here with the increased life-saving equipment aboard. While the India was lying at Hongkong ten semi-collapsible lifeboats were placed aboard the vessel, and now the steamship is well able to accommodate all the passengers her license permits her to carry.

One of the new collapsible boats was swinging from the after port davits of the Empress when she came in yesterday. It was the cause of considerable questioning, as a craft of that kind had never been seen here before. There was only the bottom of the lifeboat and about a foot of the sides. The collapsible part of the boats is of heavy canvas and the gunwales are supported by strong irons. The new boats were built in Hongkong, and are strongly put together. Four of the boats are carried amidships, five on the poop and one swings on the after davits.

All the C. P. R. boats are to have a similar number of these boats added to their life-saving equipments. These collapsible craft although very beamy, do not take up a great deal of room as they set inside of one another.

SCHIFFBEK PASSES IN TO LOAD LUMBER

German Barque to Take Cargo at Vancouver—Curzon Out—Irwin Also In

After a good run up the coast from Santa Rosalia in ballast, the German barque Schiffbek was reported passing in at Tatoosh this morning at 9.30 o'clock. The sailer is to load lumber at Hastings mills, Vancouver, but it is expected that she will come to an anchorage in the Royal Roads before towing on to the Terminal City. The Schiffbek is well-known here having visited the Sound on several occasions in the past.

The Chilean barque Curzon was reported passing out to sea early this morning with her cargo of lumber from Vancouver for Valparaiso. The Curzon is operated by the same company as the barque County of Linlithgow, and is used in the lumber carrying trade between British Columbia and South American. She has 2,000,000 feet of lumber aboard, which was loaded at Hastings mills.

Another sailer reported passing in at Tatoosh this morning was the American brig James Irwin, bound from San Francisco for Puget Sound. She was scuttled at the Golden Gate a short time ago when her cargo of lime took fire and could not be subdued.

TROUT FISHING IS GOOD ON COWICHAN

After a rather quiet spell, the trout fishing at Cowichan lake and particularly in the river is improving daily, in fact several large catches have been made below the Riverside Inn lately. Mr. Brown, of Victoria, made the largest catch of the week, while big baskets were taken by Mr. Castley, of the Dominion government hatchery, and Col. Haggard. Fly has been used exclusively.

There are plenty of birds in this locality according to the best information, and many deer have been seen. A large number of hunters went in over the Cowichan lake road from Duncan on Sunday, including Herman Sehl, J. King, Duncan Stewart, H. Bishop and others of Victoria.

NOSE AND NOSE FINISHES AT FIRST DAY OF RACES

Parlor Boy Wins Handicap Purse. $27,462 Through Mutuel Machines. Noted People Applaud Whidden for Magnificent Distance Finish

The Country Club fall race meeting opened at the Willows Saturday under more than favorable conditions, chief among them being the excellence of the races, the conduct of the betting ring, the promptitude in starting the seven events, and a very satisfactory attendance, numbering between four and five thousand. There was a fairly good betting crowd, which averaged nearly $4,000 to each race, and came and went to boxes getting back, under the mutuel system, ninety per cent. of the money risked.

Speed was not particularly in evidence owing to a soft track, every race being at least one second behind track time, but five of the seven finishes were so close that a handkerchief might have covered the noses of the first two horses, while the pride of the afternoon belongs to Whidden for an exhibition of speed over a mile and one hundred yards, that called forth the admiration of every person present.

Starting in the crush Whidden had to take the outside turn and was away to the rear the second time past. Entering the back stretch the horse lengthened his stride and went to fifth place at the north turn. Whidden had to take the outside turn into the home stretch and seemed a beaten horse, despite his great run at the back. The horse, however, had never been fully extended until the last half furlong, for in that short distance he passed the four leaders and left a distance of one length between himself and the field on passing the judges' box.

Opening day, in addition to being a re-union of the fraternity, was somewhat of a social event, the proceedings being graced by the presence of many of the leaders of Victoria public life. Among those present were Sir Richard McBride, Hon. Thomas Taylor, Hon. Price Ellison, Hon. D. M. Eberts and Thomas Cavan, M. P. P., Andrew Laidlaw, the well-known mining man and prize horse breeder, W. J. Taylor, K. C., a breeder of standard bred horses many other well-known owners and breeders of horses and a score of members of the legal profession. The boxes were filled with ladies.

Ten mutuel machines were brought from Minoru to accomodate those who had reasons for believing they were able to pick winners, place and show horses. All arrangements in the ring were far advanced upon those of previous meetings held here, and figure boards in the ring and in front of the stand were an added convenience to the public. To aid in checking the dividends, detailed figures of the number of tickets sold on each horse, win, place and show, in every race, were posted in the ring. The public paid for its racing on Saturday ten per cent. of all the money that passed through the machines and the remaining ninety per cent., less fractions, was returned from the pay windows to the public pocket, a distinct advantage over the old 60 per cent. and 80 per cent. books that used to operate.

An orderly and enjoyment-seeking crowd, well behaved and keenly interested in the sport, flocked from stand to ring, and to the paddock, assembling afterwards to "pull" for the horse of the individual fancy. The fields were well filled, the smallest being six horses. The public was not kept waiting at the starts and no semblance of complaint could be made that the horses were not sent away together.

For the seven races $27,462 were paid into the machines, the percentage to the club being $2,746, of which $2,000 was given in purses. The highest purse was $500 for the winner of the opening handicap. The figures show that the public played the races to the extent of about $4,000, that sum being wagered on each event, and the amount, less ten per cent., being sent through the machines again at the next event. The Victoria betting public on Saturday, including the people associated with the horses, was therefore about $4,000 strong.

Fifty-seven dollars for two were paid on the winner of the second race, but the way the field gave the horse the rail while waiting for the start and bunched Pills, Hawkins and Wastella, to the top of the course, made the thing look like an arrangement. More especially so as Exchequer, after having had the best of the running from the start, had a hard job to beat off Hawkins in the last fifty yards, and only succeeded in winning by a head. Exchequer was the longest shot of the day, and made some good commencement money for those who were on.

The dividends on the whole were good, except the show which often paid only a few cents above the amount of the wager. Oldsmobile, a length the best horse over 4½ furlongs, paid $20.40; Canapa in beating Binocular, paid $11.40; Alder Gulch, although only third favorite, paid $13.20 when she beat Rosey Posey and Rosenta. The downfall of Imprint, probably due to the weight, 122, rather than to the speed of Parlor Boy, as the latter's time was 1 3-5 behind the track time, resulted in the comfortable return to the public of $24.20 for each $2 bet. Letta Creed, in beating Percy Henderson, by a nose, paid $14.70.

The heaviest place price was Exchequer, which paid $23.20, and in the same race Helen Hawkins paid $19.20 for place, while Sir Fretful returned $17.20 for holders of second tickets in the opening handicap. In the show betting as in the straight and place, the Exchequer race gave the largest dividend, Exchequer paying $8.60 and Helen Hawkins $9.40 to show.

Imprint was made favorite for the opening handicap, over six furlongs for three-year-olds and up, but carrying 122 pounds, being twelve pounds more than that assembled for Parlor Boy, the Nelson entry, despite Burlingame's clever riding, could not make the journey. Parlor Boy and Sir Fretful raced the mare up the straight after leading with her the first time round, and gaining a length, the Macushla stable entry managed to get in the last stride in time to push his head in front of Sir Fretful. The local entry, Delmas, which his owner, B. J. Perry, fondly hoped would win, formed the rear guard with Cleopat and Welford Park. Besides getting the purse, the Macushla stable obtained second money in the seven furlong race.

The only other local entry to show was George Fraser's Sanfraner, made favorite in the opening four and a half furlongs, and beaten a length by Oldsmobile for first and a head by Zenotok for second. In the seven races favorites were beaten for first on six occasions. Some of the horses, it was evident from the way they went up the hill at the turns, did not run on the half-mile track to the same form as they performed at Minoru, and to this is due the fact that the rail getters, and the early speed getters, made the best times.

The results of the seven events were:

Four and a half furlongs, 2-year-olds—Oldsmobile, Zenetock, Sanfraner. Also ran, Cal Curn, Moss Rose and Calcium. Time, 52 2-5. $2 mutuel paid, first, $20.40, win; $5 place; $3 show. Second, $3.80 and $2.80; third, $2.40. Amount in machine, $3,711.

Five furlongs, 3-year-olds and up: Exchequer, Helen Hawkins, Wastella. Also ran, Wiltrude S., Ed. G., Phil Connor, Lookout, Pills, Galvera, Calla. Time, 103 2-5, $2 mutuel paid: First, $57 win; $32.20 place; $8.60 show. Second, $19.20 and $9.40. Third, $4. Amount in machine, $5,118.

Five furlongs, 3-year-olds and up: Canapa, Binocular, Dromi. Also ran, Meada, Bummer, Green Isle, Masola, Locust Bud, Belle of Portland. Time, 102 2-5. $2 mutuel paid: First 11.40, win, $5.20, place; $3.20 show. Second, $3.60 and $2.80; third $2.80. Amount in machine $2,181.

Five furlongs, for 3-year-olds, non-winners of four races since June 23: Alder Gulch, Sallie O'Dea, Gilbert Rose. Also ran, Rosenta, Moralight, Rosey Posey, Eulalia May, Cantem. Time, 102 2-5. $2 mutuel paid. First, $13.20 win; $5, place; 4 show. Second, $8 and 4.40. Third, $5.20, Amount in machine, $2,572.

Six furlongs, opening handicap: Parlor Boy, Sir Fretful, Imprint. Also ran, Delmas, Welford Park and Cleopat. Time, 1.16. $2 mutuel paid: First, $24.40 win; $11.40 place; $3.80 show. Second, $17.20 and $3.80. Third, $2.60. Amount in machine, $3,202.

Seven furlongs: Lotta Creed, Percy Henderson, Buri. Also ran, Acolin, Emerald Isle, Gelico, Tom Murphy. Time, 1.29 3-5. $2 mutuel paid, First, $14.20, win; $8 place; $3.60 show. Second $4.60 and $3.60. Third, $2.20. Amount in machine, $4,791.

Mile and one-sixteenth: Whidden, Layminster, Lambertha. Also ran, Sinn Feinn, My Bouquet, High Range, Reene W., Trocha. Time, 1.51 1-5. $2 mutuel paid: First $8.80 win; $4.80, place; $3.40 show. Second, $4.80 and $3.40. Third, $6. Amount in machine, $5,887.

Total for day in machine, $27,462.

MANN CUP WILL STAY IN VANCOUVER

C. N. R. Team Gets Awful Trouncing by V. A. C. on Saturday

Vancouver, B. C., Sept. 16.—Establishing a new record in scoring for a championship lacrosse game, Vancouver's senior amateurs, holders of the Mann cup, representing the world's amateur championship, completely outclassed Winnipeg's challengers, the final score being 28 goals to 5.

The teams are scheduled to play another match, but it is doubtful whether the match will come off, owing to Winnipeg's miserable showing to-day. They were never in the game, the champions playing rings around them in every quarter.

Vancouver went away with a rush at the start and scored 8 goals in the opening quarter. They added 7 more in the second quarter, 8 in the third period, and finished the last 20 minutes by scoring 4 more. Nearly 6,000 people attended the match, but the majority left long before the match ended.

Fred Lynch and O. K. Snell, New Westminster officials, refereed the match. The line-up:

Winnipeg.	Position.	Vancouver.
Lloyd	G.	Davis
Moir	P.	Painter
Stephenson	C.P.	Burns
Walker	F.D.	McCuaig
MacFarlane	S.D.	Donohoe
Reynolds	T.D.	Matheson
Wilson	C.	Fierheller
Sullivan	T.H.	Gunn
Hay	S.H.	Murray
Smith	F.H.	Crookhall
Traer	O.H.	Wright
Cronn	I.H.	W. Davis

Masters Harold Hudson and Strother Foulkes will play their finals for the "Charles Elward Pooley" tennis cup this afternoon, while the young ladies' supremacy rests between Miss Marporie Tennant and Miss Bessie Miller, who also play in their finals to-day. The elimination matches held on Saturday were very good.

PEDEN GOES DOWN TO HIS DEFEAT

Challenger Griffin Beats Him in 20-Mile Race in Fine Finish

Tom Griffin, the cyclist, who challenged Tommy Peden to a twenty-mile race and which was held in connection with the Northwest Athletic and Cycling Club's meet at Oak Bay on Saturday, beat his rival on the last lap of the race with a magnificient sprint and also by winning two other bicycle events, proved himself the star rider of the meet. Peden took second place in the big race and was winner only of the lap prize, having 36 firsts to his credit as against Griffin's 22, but he was not equal to the tearing pace set by Griffin on the home stretch. Tom Bell, who took third in the race showed signs of giving both the first and second men a race until he was forced to lose two full laps through an accident to his machine. He continued the race, however, and finished third, Messrs. Horth and Clark retired before the end. Griffin's time for the distance was 1 hour and 7 4-5 minutes.

The athletic meet was successful in every degree, and while the attendance was not as large as was expected, there was nothing that could have been desired, so far as keen competition and good sport was concerned. The weather could not have been better.

Giving McCallum, the High school sprinter, five yards and also Dixon the same distance, in the one hundred yard event, Hal Beasley, the Canadian Olympic sprinter, had little difficulty in cleaning up the race in the fast time of 10 2-5 seconds over a grass course. McCallum took second place.

Tom Griffin easily won the mile handicap bicycle and the half-mile championship races. In the latter he beat Peden, who finished second in 1 minute 11 4-5 seconds. In the handicap race Griffin gave Hancock 75 yards and won the race with Hancock second and Tommy Peden third, who was 40 yard handicap man. The half mile bicycle race for boys under sixteen years was taken by Hancock, scratch man, with Watson second. The time made was 1 minute 16 2-5 seconds.

Stone, Stirling and Miller finished in the order named in the walking race. The time was 15 minutes 29 2-5 seconds.

Jimmy Petticrew, the great local football and baseball enthusiast and former player, easily won the football kicking competition, while Ed. Steele, first baseman for the Hill seniors, took the baseball throwing competition. Babe Shanks won the baseball batting event. Mrs. McMahon won the guessing competition for naming the rider winning the greatest number of laps in the twenty mile race.

The prizes were presented at the conclusion of the programme by Mrs. Leo.

The officials were: Judges, A. G. Smith and C. V. Clark; starter, R. P. Clark; trackmaster, Tom Bell; recorder, P. Manser; timekeeper, W. J. Shortt; competitors' steward, G. H. Knight; referee, E. L. Leo; secretary, E. B. Fullard Leo.

CIVILIAN RIFLE SHOOT.

The Civilian Rifle Club held their weekly button shoot on Clover Point range on Saturday afternoon under favorable conditions. T. G. Thomas won the gold button, W. W. Gibson won the silver button and E. Holmes won the bronze button. The scores in detail are as follows:

Class A.

	200	500	600	Tl.
T. G. Thomas	30	33	31	94
Capt. E. J. Gollop	31	32	29	92
S. Williams	31	35	26	92
W. H. Bailey	29	32	27	88

Class B.

	200	500	600	Tl.
W. W. Gibson	31	32	30	93
J. Wicks	29	30	29	88
W. Brayshaw	31	30	25	86
E. P. Gaiger	28	28	21	77
C. A. Goodwin	28	22	24	74

Class C.

	200	500	600	Tl.
E. Holmes	25	22	28	75
G. Sheldon-Williams	25	28	17	70
E. Satterthwaite	23	23	21	67

SERGT. SMITH MAKES CENTURY AT RIFLE SHOOT

The weather was by far the finest experienced by the Fifth Regiment Rifle Association for some months when they held their weekly competition at Clover Point on Saturday afternoon. The light was good and a gentle, steady breeze was blowing, which left little to be desired from a marksman's standpoint, as the appended scores will show. The feature of the competition was the century compiled by Sergt. Smith, who has been shooting very consistently this season and can always be depended upon for a good score. The principal scores follow:

Class A.

	200	500	600	Tl.
Sergt. Smith	33	34	33	100
*R. S. M. McDougall	33	34	31	98
C. S. M. Caven	32	31	34	97
*R. Q. M. S. Lettice	32	34	31	97
Gr. Cuross	33	33	30	96
C. Q. M. S. Latcher	30	31	31	92
Sergt. Carr	30	30	31	91
Sergt. Richardson	32	29	29	91
Sergt. de Carteret	32	31	28	91
Sergt. Parker	32	28	30	90

*Spoon winners.

Class B.

	200	500	600	Tl.
Gr. Pike	26	29	28	83
Gr. Thompson	25	29	29	83
Corp. Fatt	18	21	24	63

Class C.

	200	500	600	Tl.
Sergt. Fleury	28	30	23	81
Gr. McGibbon	28	31	22	81
Gr. Neil	26	27	27	80
Lieut. de Salis	20	23	24	67

Class D.

	200	500	600	Tl
Gr. Richardson	26	28	24	78
Gr. Whitty	27	11	16	54
Gr. Russell	15	22	3	40

Grandly gnarled and shady oaks, sylvan walks, homelike homes—briefly, surroundings of a character to inspire the artist and always to evoke admiration

ARE THE ATTRIBUTES OF RICHMOND PARK

We Have But a Few of These Delightful Properties to Offer.

Most Owners Are Building. Our Prices Are Right

That lot on Metchosin street, high and grassy, is a special bargain. One-third cash, balance easy. Price $1375

ON MADISON STREET is a corner uniquely suitable to the party wanting a superior homesite. With nearly seventy foot frontage, deep in proportion, beautified by a variety of natural shade trees, it registers 100 per cent in merit. One-third cash, balance arranged. Price $1800

TWO OTHER GOOD BUYS ARE—A Madison street lot, with fifty-foot frontage to a lane. One-third cash. Price $1500

A COWICHAN STREET "FIFTY," one-sixteen feet deep, to a lane. One-third cash, balance easy. Price, net $1450

A pretty wedding was celebrated at the home of the bride's aunt, Mrs. A. K. MacLean, 344 Twenty-third avenue east, Vancouver, on Wednesday morning, 11th inst., at 11.30, when Miss Maria Louise Munro, formerly of Cape Breton, was united in matrimony to Mr. Alexander Henry Matheson, of the firm of Matheson & Jacobson, New Westminster. The bride was married in a grey broadcloth travelling suit with silk blouse to match and a large black satin hat with flowers. She was attended by her sister, Miss Munro, who wore white muslin over pink. The bride's aunt, Mrs. MacLean, was gowned in grey voile trimmed with gold lace. After the wedding luncheon, at which a large number of relatives of the bridal party sat down, Mr. and Mrs. Matheson took the boat for Victoria and Portland, where they will spend their honeymoon. The wedding ceremony was performed by the Rev. George D. Ireland, of Westminster church, South Vancouver. Mr. and Mrs. Matheson will reside at the corner of Seventh and Fourth avenue, New Westminster.

The Evening Chit-Chat

By Ruth Cameron

Two good friends had quarrelled. One, who is of a passionate disposition, completely lost her self-control and said many unkind things.

When the thundercloud of misunderstanding finally passed over and the sunshine of reconciliation began to struggle out again, the quick-tempered woman told her friend she was sorry for her bitter words, and then added cheerfully, "And now you'll forgive me and forget all that I said, won't you?"

Whereupon the other woman answered, "Forgive you? Yes indeed, I'll do that with all my heart, but I cannot promise to forget because that is beyond my power."

The first woman called that an ungracious and relentless attitude.

Do you?

I don't. To me it was simply a truthful answer. Perhaps it might have been kinder for the woman to say that she'd forget all about it and things would be just as they were before, but it probably wouldn't have been true. In one of his essays Stevenson says, "I hate questioners and questions; there are so few that can be spoken to without a lie. 'Do you forgive me?' Madam and sweetheart, so far as I have gone in life I have never yet been able to discover what forgiveness means. 'Is it still the same between us?' Why how can it be? It is eternally different, and yet you are still the friend of my heart." It seems to me he should have added that other question, "Will you forget all that I have said or done?" for surely no other question that we foolishly and hopefully ask each other is quite so impossible to answer without a lie or a very cruel truth.

The woman called her friend relentless. That was not fair. It is not the person who cannot forget that is relentless; it is life itself and the laws of life that are inflexible.

I may no more promise my friend that I will forget anything than I may promise her that a deep cut in my flesh will heal and not leave any scar. I may promise that I will put soothing medicine in the cut and bind it up and keep it from irritation, and do all I can to make it heal without a scar, but I cannot surely promise what will be the result.

Hearts and souls are quite as sensitive as bodies. We would not easily allow ourselves in a flash of temper to scar our friend's body; why, then, be so careless with his heart.

Why? Because we think that such scars can be easily obliterated; because we think we can say, "please forget" and let that end it.

But we cannot.

And the next time you lift the javelin of an unforgetable word to cast into your friend's heart, suppose you remember that. Suppose you stop just one moment before you speak, and say this sentence over to yourself. "Of the unspoken word I am master, but the spoken word is master of me."

Ruth Cameron

A GAY BLOUSE.

An ecru pongee, with bright red and green figures, was made up into this convenient little garment.

The neck and sleeves are laced with black ribbons and a black belt is worn. The skirt was a red cashmere, pleated to a waist of white lawn, but the blouse would be very pretty worn with a blue serge.

A NEW TAFFETA.

Printed taffeta ribbon is effectively combined with plain taffeta, as shown above. The plain material is navy blue and that shade predominates in the ribbon, the flowers being in shadow effect with natural rose and yellow.

The skirt is draped a little in front and there is a shallow pleat at each side of the back. This gives the irregular outline, so much in demand.

C. P. R. PRESIDENT ARRIVES IN CITY

DIRECTORS OF COMPANY ON INSPECTION TRIP

Sir Thomas Shaughnessy is Pleased With Splendid Conditions in Victoria To-day

"I am wonderfully surprised," said Sir Thomas Shaughnessy, president of the Canadian Pacific railway, on returning yesterday with a party of directors from a special run over the Island branch, "at the progress of the city. Some of us remember what Victoria was fifteen years ago, and we cannot fail to be pleased at what we find here to-day. I think the citizens of Victoria have cause to thank our company for its share in that development when you remember the vessels we have brought to this coast both for the Pacific and coastwise trade, and also for this magnificent hotel (the Empress) where we now are.

"I am very pleased, as we all are with our trip to Port Alberni to-day, and as it is the first time I have been over the Island line beyond Wellington we did not hesitate to praise the beautiful country through which the extension passes, and the enterprise of the towns at its terminus on the Alberni canal."

Turning to the question of steamships Sir Thomas said: "The two Empresses will shortly be ready for service on the Pacific, and with the steamers now running on that service the effect on your overseas passenger traffic here will be considerable. So far as the coastwise vessels are concerned it is our intention to strengthen the fleet as circumstances demand. I think it will be agreed that the company has shown a disposition to keep abreast of the growing business between the Island, Mainland and Puget Sound, as is evidenced by the number and character of the boats now running to Seattle and Vancouver. This branch of our business gives the directors great satisfaction."

Thanks to the telegraph, interviews with Sir Thomas have been appearing in the local press for several days prior to his arrival and his store of interesting information having been seriously tapped en route the local public have been informed of his views on the proposed stock issue of the C. P. R.; the double tracking and improvements of the western division, the westward grain movement, the crop situation, etc.

Distinguished Group.

The presence of the president of Canada's great railroad system and the distinguished party who accompanied him, in the Empress hotel last evening made the usual Sunday evening gathering in the spacious rotunda exceptionally noteworthy. Besides Sir Thomas there were some of the most prominent masters of Canadian finance in the group, including R. B. Angus, president of the Bank of Montreal and brother of Forrest Angus of this city; Sir Edmund Osler, M. P., and W. D. Matthews, of Toronto, and Sir William Whyte, formerly vice-president and now director of the big road, a man whose career is an object lesson to the youth of Canada and whose popularity among all classes is unbounded. There were also James Redmond, a prominent Montreal capitalist; G. J. Bury, vice-president, and J. S. Dennis, Calgary, assistant to the president. The British Columbia staff of the company is represented by R. Marpole, executive assistant; H. J. Cambie, engineer, and H. E. Beasley, superintendent of the E. & N. The party crossed on the Princess Patricia from Vancouver to Nanaimo, and proceeded to Port Alberni by a special train. They spent about three-quarters of an hour at the West Coast terminal, being met at the depot by several leading residents of the new city. The train arrived in Victoria about 7 o'clock, and the party then went to the Empress hotel.

Grand Old Man of Finance.

R. B. Angus is one of the grand old men of Canadian finance, a member of that remarkable group of which Lord Strathcona, Lord Mount Stephen, J. J. Hill, and the late J. S. Kennedy, of New York, were conspicuous figures. He is eighty-one years of age, but bears himself with the vigor of a man much younger. Considerably senior in years to the other members of the party now visiting the city, Mr. Angus concedes nothing to them in vital, gripping interest in industrial affairs. He is a Scot of Scots, being born in Bathgate on May 28, 1831. At an early age he left Scotland and entered the service of the Manchester and Liverpool bank. He came to Montreal in 1857, and took a position on the staff of the Bank of Montreal. He advanced steadily in the service of Canada's chief banking institution, and in 1862 took charge of the Chicago agency, a few years later proceeding to New York as one of the agents of the bank at that city. From New York he returned to Montreal as local manager, and in 1869 succeeded the late E. H. King, as general manager. In 1879 he retired from the service of the bank, in which he had risen so rapidly, to assume a position in the management of the St. Paul, Minneapolis and Manitoba railway. In 1880 he associated himself with Mr. George Stephen (Lord Mt. Stephen), Mr. Donald A. Smith (Lord Strathcona), and others to form the syndicate for the construction of the Canadian Pacific railway. How the great Canadian undertaking was carried out to completion in 1885 is a matter of national history. Mr. Angus is a generous patron of art, is an ex-president of the Montreal Art Association, and has one of the finest private art collections in Canada.

He has devoted considerable time, and with good effect, to charitable work in Montreal, particularly to that in connection with the Royal Victoria hospital, of which splendid institution he is a former president. He is also a director of the Montreal Sailors' Institute, and a past president of the St. Andrew's Society. He is connected officially with McGill university as a member of the board of governors, is a governor and ex-president of the Fraser Institute and a governor of the Montreal Numismatic and Antiquarian Society.

He is a director of the Bank of Montreal, the Canadian Pacific Railway Company, Dominion Coal Co., Dominion Bridge Company, the Northwest Land Company, and the London & Lancashire Life Assurance Company. R. B. Angus was married to Miss Mary Daniels in 1854 and they are the parents of nine children.

Mr. Angus is a member of the St. James and Mount Royal Clubs—Montreal; Forest & Stream Club, Dorval; Royal St. Lawrence Yacht Club; Rideau Club, Ottawa; Toronto Club, Toronto, and Manitoba Club, Winnipeg, is also a Knight of Grace of the Order of St. John of Jerusalem, and is a past master of St. Paul Lodge E. R.

Police Court.—Magistrate Jay this morning sentenced Jerry McDonald, a laboring man to serve a month with hard labor for stealing a bicycle owned by H. Hutchison. The accused took the bicycle and sold it together with some tools to the proprietor of a cafe for $5. The cafe proprietor was this morning severely addressed by the magistrate regarding his willingness to participate in such a doubtful transaction. Lee Gun, who smoked opium, paid a fine of $20; H. P. Winsby, whose automobile was standing on a well-lighted street without a tail light was fined $5; C. Adams for speeding, paid $20, and E. McCurd for leaving his machine on the wrong side of the road was fined $10.

CROSSED IN LOVE DROWNS HIMSELF

NAVAL MAN'S BODY IN WATER THREE WEEKS

Henry Joseph Cochrane Throws Away Ring Girl Returned and Says He Won't Live

Because of a lovers' quarrel in which his sweetheart, a young girl living at Esquimalt, returned him the ring with which they had shortly before plighted their troth, Henry Joseph Cochrane, a native of Ottawa and a member of the naval police at Esquimalt, left the house occupied by himself and Naval officer French at Esquimalt, August 27 last, in the night, and was never seen alive again. His body was recovered from the water of Esquimalt harbor yesterday, being seen there by persons walking at the foot of Wellington street and brought to land by Provincial Constable Dunwoody, who was notified.

Having been three weeks in the water the body of deceased was unrecognizable. Its identification is due to the clothes on the body which Officers French and McKinney, of the naval police, declare to be the clothing worn by Cochrane when he was last seen the night of August 27.

Deceased and a young girl of about twenty years of age were fond of one another for some time previous to the death of Cochrane. Their engagement had been announced and he had given her an engagement ring. For some cause, of which the pair only were aware, they quarrelled, and the girl gave him back the ring. He is said then to have vowed that she would never see him alive again, and shortly afterwards to have thrown away the ring.

Employed as naval constable Cochrane did his duty as usual on August 27, about the date of the quarrel, and during that night he rose from his bed and left the house occupied by himself and Officer French. He failed to return, and although inquiries were made and a search for his body conducted, it was not until three weeks afterwards, yesterday, that the body was seen in the water. Deceased was 24 years of age, with a promising future in the service ahead of him.

He was a member of the A. O. U. W. and in good standing to the amount of $1,000, according to papers in his effects which the provincial police have taken possession of. His home was at North Nation Mills, near Ottawa, where his parents live. An inquest will be held to-morrow.

The Weather.—This morning telegraphic dispatches from all parts of the Dominion show that the weather is fine universally. Severe frosts were in the prairie districts to-day, especially at Qu'Appelle where the minimum temperature was 24 degrees or eight degrees of frost. At Winnipeg also, the weather was fine but very cold. In spite of the apparent settled state of the weather on the Pacific slope at the present time, it is not unlikely, according to observations at the Meteorological Association, that rain will fall in Victoria, and the lower mainland within the next thirty-six hours. A low pressure area is spreading inward from the North, and it is not impossible that to-morrow will see a break in the magnificent conditions of the last few days.

RECOMMENDATION ON NORTHEAST SEWER

City Engineer Rust Will Suggest That Work Shall Be Finished This Year

At the meeting of the city council this evening City Engineer Rust will recommend with regard to the northeast sewer that the council should expend another $25,000 to complete the sewer, and that strenuous efforts should be made to bring it into service this year.

This recommendation is in accordance with the announcement he made during his evidence on Friday before the committee that he would urge the city to take this course in order to save the work which has already been done.

ANOTHER RECOMMENDATION.

Dr. Hett Thinks Vancouver Island the One Place Free From Hay-Fever.

A new phase of the unique health-giving properties of Vancouver Island was given this morning by a well known Eastern physician in the person of Dr. J. E. Hett, of Berlin, Ont. He stated that he has just been paying a visit to Hon. Price Ellison, the minister of agriculture on the subject which lies near to the doctor's heart, and the minister has promised every consideration of the matter.

It appears that Dr. Hett has for several years been a chronic sufferer from hay-fever, which is derived, he declares, from the pollen of ragweed and golden rod. The complaint starts in the eastern and western states about August 15 and lasts until the first frosts set in. After many wanderings in search of the ideal climate, where hay fever cannot thrive and where the rag weed and the golden rod which are its boon companions do not grow, he has hit at last on the ideal location in Vancouver Island.

"Though ragweed is practically unknown in Canada," says the doctor, "yet the golden rod abounds and flourishes in the prairie districts, and also through parts of British Columbia, particularly along the line of the railroads, growing there from the seeds dropped by passing trains, especially those containing consignments of hay.

On this Island, according to Doctor Hett little golden rod plant does exist, save only in small patches beyond Duncans, and there also it is close to the railroad.

By a little observation and timely destruction, it is quite possible to keep this menace to society quite under control, wherever it should turn up, and the doctor is convinced that it would be easily possible to make the whole Island entirely free from any possibility of hay fever scourge; and the necessary corollary of this would be a largely increased tourist traffic and a wider advertisement of the health-giving properties and purity of the air.

'It should be seen," said the doctor, "that these facts are known to sufferers all over Canada and the States, who would be only too glad and willing to take advantage of a climate possessing such unique and distinctive advantages as Vancouver Island.

MEMORIAL SERVICES.

Tributes to the Dead Japanese Emperor Yesterday.

The services at the Japanese mission yesterday were of a memorial character, those in the morning being conducted by Rev. Mr. Kato, who paid a short tribute to the late Emperor of Japan from the standpoint of a Christian, showing how, during his reign, freedom in religious beliefs had come to be a recognized thing, and was supported by the Japanese constitution, which set this forth clearly in Article 17.

At the evening service, which like the morning service, was well attended, the minister once more recapitulated the virtues of the deceased ruler, pointing particularly to those qualities which might well be emulated by his subjects: his frugality and his diligence. The speaker concluded by referring to the tragic death of General Nogi, who, with Admiral Togo, stood in the estimation of the Japanese people next to their dead Emperor, and saying that at such a period in the progress of the island empire the incident had great significance and would leave a profound impression among the people of the Japanese kingdom.

Mr. Ishii also spoke at the evening meeting, dwelling particularly on the sympathetic and interested attitude which Mutsuhito had always taken in all matters regarding the welfare of his people and his empire—an interest which demanded the greatest patience and concentrated attention on the affairs of state. In connection with this Mr. Ishii quoted as an instance of the delicate situations which arose and which demanded the greatest tact on the part of the Emperor, the occasion on which the Crown Prince of Russia visited Japan and was attacked during his sojourn there by a fanatic policeman. It required all the diplomacy and tact on the part of the Emperor to prevent an international imbroglio over the affair, a personal apology having to be made before the Crown Prince's anger was dissipated.

The specially composed hymn which was first sung at the funeral services on Friday was again repeated on Sunday, the concluding hymn being sung to the air of "God Save the King."

MAY APPEAL TO COURTS.

Norwalk, Ohio, Sept. 16.—Statements that Mr. and Mrs. Harry Lavella, parents of the girl who was tarred and feathered and driven out of town, will appeal to the courts to have the perpetrators punished, have been received. Don Young, prosecuting attorney, said that unless complaint is made, nothing will be done.

It is learned that the tarring party, supposed to have consisted of women dressed as men, poured a bucket of paint on the nude body of the Lavella girl.

Fashion's Offerings at Gordons

Our Hats are prettier than ever this season. In style and design they are much more artistic than anything Dame Fashion has heretofore originated.

The possibilities of the new flat tri-cornered shape is exemplified in a splendid model outlined with a soft humidy quill and pheasant's breast. A black cavalier shape has a drooping ostrich plume which surrounds the crown and falls over the brim. Another stunning hat has a soft crown of white plush which also forms the brim, the edge itself being made up of black moline. The only trimming is magnificent white mount of real osprey. The white Paradise cockade is the stylish finish to a black velvet hat, whose upturned brim has a soft facing of moline.

These are meagre descriptions of only a few of our new Fall styles. To really appreciate them you must see them. Come in to-day.

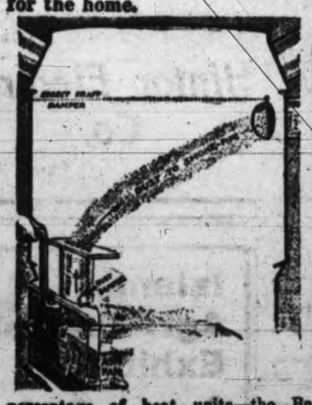
This is our final drawing, all Coupons are now null and void. National Biscuits and Haida Chocolates sell on their merits and price. If not equal or superior to anything on the market, return and get your money.

More Facts About McClary's "Sunshine" Furnace

—The Understudy of the Sun—

There's no dust nuisance about the "Sunshine"—when you rock down the ashes the dust is drawn up dust-flue then directly across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Direct Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace for the home.



See the famous "cup joints" here—the frame of the ash pit—the two sections of the fire-pot and the dome all jointed together by our "cup joint."

There's a layer of asbestos cement in each joint—this unites all sections in a permanent way, yet leaves room for the expansion and contraction of the metal.

No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace—Since it diffuses pure warm June air throughout the house.

You don't have to wear overalls when attending to the "Sunshine" furnace—It has a big roomy ash-pan. All the ashes are guided directly into the pan by ash-chutes. A minute or two performs the job. Yes, the "Sunshine" is the clean furnace.

The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater percentage of heat units—the Baffle plates (a new McClary device) decidedly increase the heating efficiency of the furnace.

But—see the McClary agent of your locality. Ask him to show you all the features and exclusive devices which make the "Sunshine" Furnace worthy of the name—The Understudy of the Sun.

If you do not know the McClary Agent, write us at our nearest address and we'll forward you a letter of introduction by return.

CADBORO GARDENS

The new Cadboro Bay Subdivision.

Every Lot a View Lot

The property has been divided into big fat double lots. Some of them are covered with fine arbutus and fir trees. On others there is orchard with the fruit hanging on the trees. Then there are some open lots that have been cultivated and are now in clover field. There is not a lot in the whole subdivision but has a delightful sea view. There is the bay, the Gulf of Georgia, and beautiful Mount Baker in the distance. The ships pass and repass, and all will be seen from the residences of those who build in Cadboro Gardens.

Don't forget when buying that

Our Lots Are Double Lots

Buyers are protected by building restrictions. The property almost adjoins the famous

Uplands Property

And will be just as good. Cadboro Bay will be the residential district de luxe for the elite of Victoria. That is the place to buy.

To view this property make an appointment, and we will drive you out in our motor car. Telephone to 3543 for particulars.

THE NEW HIGH SCHOOL AT THE CORNER OF FERNWOOD ROAD AND GRANT STREET, THE STONE OF WHICH WAS LAID SATURDAY AFTERNOON BY HON. DR. YOUNG.

LAY CORNER STONE OF HIGH SCHOOL

MINISTER OF EDUCATION PERFORMS CEREMONY

Dr. Young on Modern Educational Progress in British Columbia

A large gathering assembled round the temporary platform at the northeast corner of the new High school building on Saturday afternoon, when the minister of education, Hon. Dr. Young, laid the foundation stone of the building. Among those on the platform were noticed Mrs. Young, George Jay, chairman of the school board; Trustees P. J. Riddell, Capt. McIntosh, W. E. Staneland and A. B. McNeil, Superintendent of Schools E. B. Paul, Inspector of Schools Gordon, Mrs. Jay, Mrs. Wood, Mrs. Gordon, Mrs. Staneland, Munro Miller (representing the Saanich school board), Mr. and Mrs. R. L. Drury, Aldermen Baker and Dilworth, William Marchant, Principal S. J. Willis, and members of the High school staff, Principal J. M. Campbell, of the North Ward school, and Principal Ernest Campbell, of the Sir James Douglas school, Supervisor of Singing H. J. Pollard, William Henderson, J.P., U. S. Consul A. E. Smith, Rev. E. G. Miller, and F. H. Fatt, Mrs. Miller, Revs. John Robson, W. Leslie Clay and Thomas Green. C. Elwood Watkins, architect of the building, and Dinsdale & Malcolm, the contractors were also on the platform. Mayor Beckwith was at another function and so was prevented from attending. The cadet corps, with their band, under Major J. Dowler, Captains Yuill and Graves, and Lieut. Brown, and the instructor (Major Mulcahy), made a smart appearance in front of the platform.

Chairman's Welcome.

After the opening prayer by the Rev. W. Leslie Clay, the chairman, George Jay, made a few brief introductory remarks, in which he stated that after only ten years they were assembled to lay the foundation stone of another building for a High school, which was a proof of the development of education in the city and of the wise judgment of the citizens in voting funds for the construction of the building. (Applause.) He felt also that the building when constructed would be a credit to the architect.

Superintendent Paul then came forward with the casket containing the usual mementoes, which was safely placed in the cavity within the foundation stone, and this was then lowered into position.

After declaring the stone well and truly laid with the silver trowel presented to him, Hon. H. E. Young stepped forward and said in part: "Mr. Chairman, Ladies and Gentlemen: Some ten years ago a similar ceremony was held in Victoria, and the corner stone of the first High school in this city was laid, and I am happy to say that my brother, Judge Young, presided over that gathering. To-day I have the honor to lay the corner stone of the second High school in this city. A comparison in the size of the building is sufficient to impress upon us the great growth that has taken place in our city in the way of accommodation for our school children. The figures we have on record at the department of education have emphasized this great growth that has taken place, and I am pleased to say that the figures which will be embodied in our report for 1912, and which have not yet been given to the public show a greater increase in Victoria during the past year than at any time during the last ten years. The increase has been mainly in the last three or four years, and if the rate of increase continues the High school accommodation will have to be duplicated within ten years. Last year in the province at large there was an increase of ten per cent in the number of pupils, and to-day the school children of British Columbia number in round figures 90,000. Ten per cent is about what we should expect in the distribution of pupils in the different centres, but, of course, some centres do not maintain the general average, so that these figures do not give credit for the actual increase in populous centres, and I am pleased to say that Victoria has a little over 12 per cent. We have in the schools of Victoria 4,471 children, which does not include the number attending at the High school here. With this present rate of increase I should like to be able to show this time next year an increase of between five and six hundred. (Applause.)

"I think my prediction is a very conservative one. The educational facilities of this city rank second to none in this province and in the Dominion of Canada. The men who are devoting their time and energies and efforts without any hope of remuneration, simply hoping for the reward in seeing the success of their efforts, are largely responsible for the impetus given to educational matters. They have set an example for the province and for the Dominion, and they have to be thanked for the splendid and efficient schools which you have in Victoria city today. (Applause.)

"I would like in passing, as minister of my department, to pay a tribute to Mr. Willis and his staff. Ships show by what carpenters they were built. In examinations we have no reason to be ashamed of the results which have been obtained in competition with other cities, and we should be proud of the high standard to which the schools have been raised.

"A good deal has been said of late about the university of British Columbia and its progress. It is the intention of the government, and it will be to our own interest in the higher education of the province, to try to make that university the very best possible expression of the human mind. We must not overlook these things in striving after the best instructors and facilities, and it matters nothing how wealthy we make our university, unless we can get the right calibre of students, who will be equal to the facilities we have given them. (Applause.)

"Our university otherwise will fail, and is bound to fail, unless we maintain the standard that has been set in the public and high schools. When the boys get through the schools an age is reached when their character is practically formed. But the teachers of British Columbia are just as truly the cornerstone as this stone I am now laying, and of them British Columbia may well be proud. I also thank the trustees who are devoting themselves to education in this province, and I hope their efforts will be crowned with success.

"I hope the government will be able to do something to erect that topstone to education of which you will be justly proud."

After the stone was put in place by the contractors and their assistants, Rev. H. A. Carson offered the benediction, and the gathering closed with the National Anthem.

The inscription was as follows:

This stone was laid
by
The Honorable
HENRY ESSON YOUNG, M.D., LL.D.,
Minister of Education,
September 14, 1912.

In the stone cavity was placed a box containing the illustrated report of the board for 1912, recently published, current issues of the daily papers, and coins of Canada in circulation.

A notable witness of the ceremony was this year's silver medallist, John Stevenson.

AVIATOR KILLED.

Howard Gill Meets Death When Airships Collide.

Chicago, Sept. 16.—Aviator Howard W. Gill, of Baltimore, was fatally hurt on the aviation field Saturday night. George Mestach, of France, whose monoplane collided with Gill's biplane when they were participating in a race, 75 feet in the air, was picked up unconscious, but later he revived and his condition was found to be not serious. Gill died in an hour after the accident.

At the hospital, Mestach was able to talk. "'I was going at top speed in my monoplane to win the 12-mile race,' he said, 'when looking behind, I saw Gill in his Wright biplane turning around a pylon and rapidly approaching me, a few feet below. I jerked my elevator, thinking to give him ample space to clear me beneath. From the cockpit of my monoplane I was unable to get a good view of just what was happening, but it seems that Gill driving straight ahead hit my understructure.'"

Gill had a premonition of an accident. Just before he entered his machine and started he called to a friend to throw him a heavy oil coat which the man was bearing.

"I'm liable to bring back some blood on this," said Gill with a laugh, as he slipped it on.

The friend jokingly remarked: "Gill is as safe in those machines as if in a bus on the ground."

To which Gill replied: "When you go up you can never tell what shape you will be in when you come down."

Ten minutes later Gill's mangled body lay beneath the wreckage of a machine.

Darkness was said to be primarily the cause of the accident.

Mestach said just before the monoplane race was to start he protested to the officials of the Aero Club of Illinois against racing in darkness, but the start was called and he went up.

The Politician—"What is the next question to bring before the people?"

The Voter—"They have had questions enough. What they want is a few answers."

WAS AIDE-DE-CAMP TO THE EARL OF MINTO

Major A. C. Morrison-Bell Revisits Canada — Is Great Hunter and Mountaineer

Travelling with Rt. Hon. Walter H. Long, the distinguished Unionist leader, is Major A. C. Morrison-Bell, the Conservative member for the Honiton division, Devonshire, since 1910, who occupies a seat in the Imperial House along with his twin brother, Capt. E. F. Morrison-Bell, who in 1908 won a sensational victory in Mid-Devon.

The gallant major is well known to many Canadians, for it was he who was A. D. C. to General Hutton in 1898 and 1899. He accompanied the first Canadian contingent to South Africa in command of the Maxim gun squad, and was A. D. C. to the Earl of Minto from 1900 to 1904. He was always known as Capt. Bell while in Canada before, but his real family name is the one with the hyphen, his father being Sir Charles William Morrison-Bell, a wealthy landowner of Northumberland and Durham.

His political hobby is redistribution, which he rides with all the zeal that is characteristic of every project he takes in hand. His military career has been exceptionally brilliant. A product of Eton and Sandhurst, he specialized in rifle shooting at an early age and did a great deal towards developing target practice as a recreation in the Brigade of Guards.

For a number of years Major Morrison-Bell was adjutant of the great rifle camp at Bisley, and as such made the intimate acquaintance of many officers of the Canadian militia before he first came to the Dominion. When Lord Roberts undertook the organization of the Society of Miniature Rifle Clubs in Great Britain, Major Morrison-Bell was selected as organizing secretary to assist him, and did much useful work in that connection. Since he was last in Canada he has acted in many diplomatic missions, being King's messenger for the foreign office to Berlin, Constantinople, St. Petersburg and Vienna, so that, altogether, he has had a very interesting and varied state service.

A keen sportsman, Major Morrison-Bell is particularly devoted to hunting and mountaineering; in the latter connection he is a member of the famous Alpine Club. He expects to do some climbing in the Rockies during his present visit. During his residence in Canada he usually managed each autumn to get in a moose hunt and roughed it in the woods with the best of them.

"THE BEST IN THE WEST"

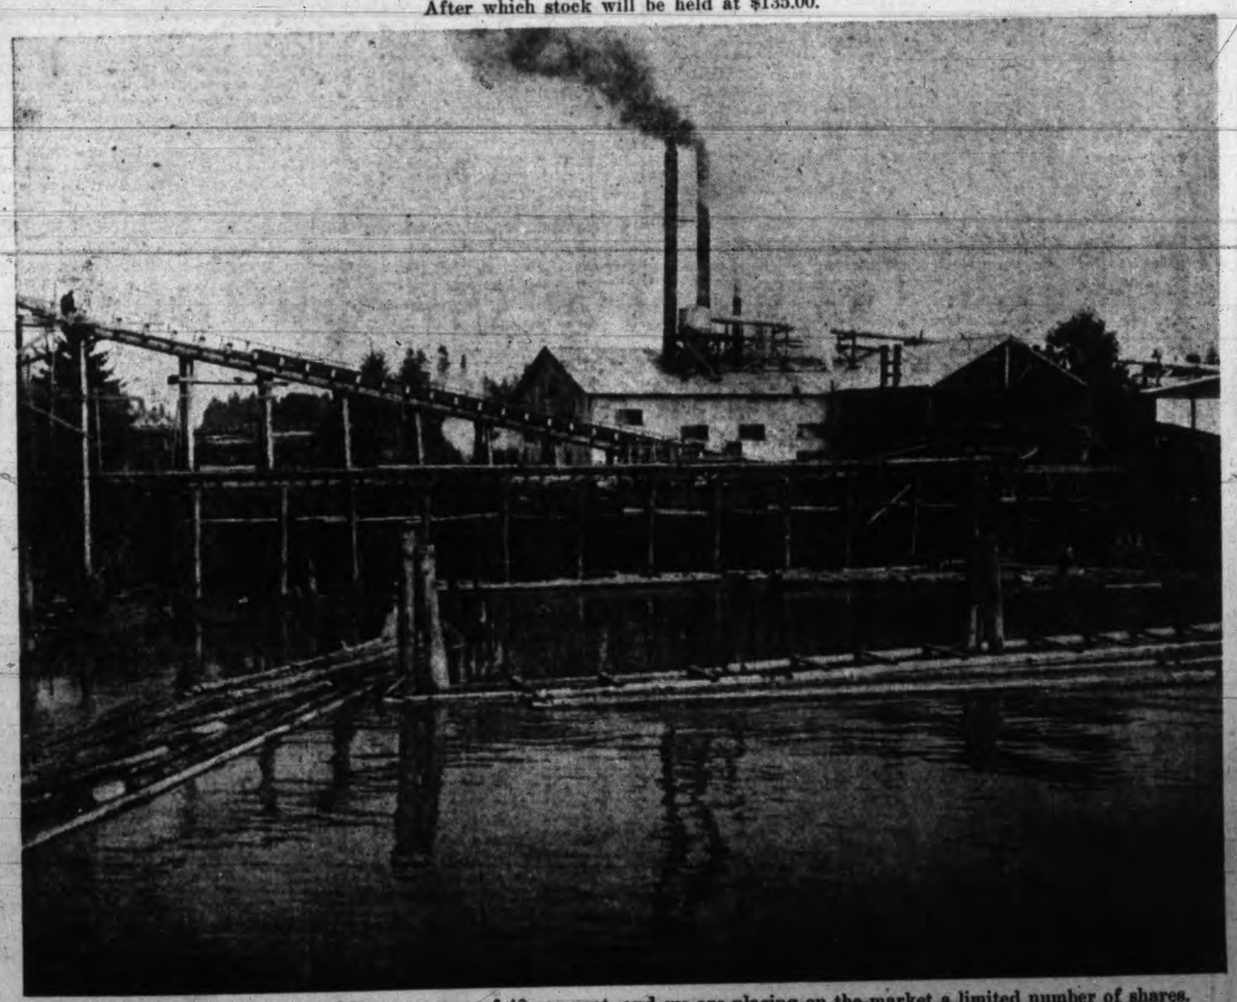
TO THE CITIZENS OF VICTORIA

We are now offering you a bona fide proposition, not a speculation, but an investment. "Shares in the Port Hammond Lumber Company." The last week for the purchase of stock in the

Port Hammond Lumber Co. at $110

After which stock will be held at $135.00.



The above plant is to-day making a revenue of 40 per cent, and we are placing on the market a limited number of shares.

We invite those that are interested to call at room

308 Dominion Hotel

For further particulars.

Visitors in Victoria Just Now

Should make it a point to see this beautiful property. The ablest men who have visited Western Canada—men from all parts of the world—have had no hesitation in forecasting a great future for Victoria as a residential city. Victoria and Vancouver Island will, among other considerations, be the playground of Canada, and indeed, of the United States as well. Consider how Los Angeles grew. Victoria will grow bigger and more rapidly. Victoria is growing now at a tremendous pace. One of the soundest and most profitable investments that can be made to-day is an investment in first class residential real estate in this city.

Spare Half An Hour And See "Highlands" At Our Expense

An Investment Here Now Will Net You Profits Sufficient to Pay Twice the Cost of Your Tour

Face These Facts---Cadboro Bay Marks Victoria's Most Desirable Residential District

Mr. John C. Olmsted, of Brookline, Mass., considered one of the world's foremost experts on landscape architecture, said in his exhaustive report on the famous "Uplands," which he laid out, that facts showed that the Cadboro Bay region enjoyed an even more salubrious climate than did Victoria proper, despite their comparative contiguity. "Highlands" is right in the heart of the beautiful Cadboro Bay region. It lies on the gentle slope that extends to the beach, and has an elevated position of remarkable value. The view takes in "Uplands," which lies below and sweeps the adjacent countryside, the beach, the Bay, the Gulf of Georgia and the Olympic Mountains far beyond. The elevation insures pure air and freedom from epidemic. The lots are cleared of small growth, but have lovely oak shade trees. There is no rock, and the soil is deep and rich.

The Extension of the Electric Line on Cadboro Bay Road

Will serve "Highlands" residents admirably. Other improvements are under way. There is no other property to compare with this for the money. A few hundreds dollars now will make you a splendid profit or provide the site for a magnificent home.

Quarter Acre Lots, Ready to Buiid on, $850 and Up

One-tenth Cash and One-tenth Quarterly—One-fifth cash, 6, 12, 18, 24 and 30 Months—Quarter Cash, 1, 2 and 3 Years.

CONSULTING ENGINEER RETURNS TO VICTORIA

Excavations Near Centennial Church Form Subject of Warning

Consulting Engineer Wynn Meredith having returned to the city in connection with the Sooke Lake contract, an early report on the position is expected from him.

Meanwhile at the council meeting this evening Alderman Cuthbert's motion for a committee to draft the by-law defining the water commissioner's duties, and appointing the city engineer to that position will come up for approval.

Two by-laws with reference to the issue of treasury certificates in connection with the waterworks loan are posted for introduction this evening at the meeting.

The city engineer has been in communication with the Westholme Lumber Company with reference to the excavation at the Centennial church for the pipe line from Sooke. The company's work people have opened a trench near the foundations of the tower which is believed, in the opinion of the church trustees, to jeopardize the safety of the edifice, and to prevent any untoward incident the engineer has suggested that the section should be particularly heavily timbered, and that the pipe should be rushed on that portion of the road as soon as possible so that the situation may be relieved. It is, however, not thought there is any fear of a slip while the dry weather lasts, but the position would be reversed in case the rainy season set in early.

EXHIBITION WEEK

IS NEAR

Soon Victoria's Annual Fair will be in full swing, and the prospects are that it will be a record breaker in point of attendance and class of entertainment.

24th to 28th inst.

Are the Dates

Horse Show, Horse Races, Dog and Cat Shows, Acrobatic Performances are some of the features announced.

The Educational Departments of Agriculture, Horticulture, stock, etc., will be exceptionally fine.

Friday will be a public school holiday, when the children will be admitted free of charge.

General Admission, 50c
Children 25c

B. C. Agricultural Ass'n.
Phones 2343-2344

Secretary.

The ADVANCE MAN

Coming This Week.
Wednesday—"The Heartbreakers."
Thursday, Friday and Saturday, with matinee—Gilbert & Sullivan Festival Co.

"The Heartbreakers."

The management of the Victoria theatre take great pleasure in announcing that on Wednesday they will offer Manager H. Singer's best and latest musical comedy the "Heartbreakers." This will be the second season of this successful musical play and also will be the second year for the appearance of Mr. George Damerel as a star. Mr. Damerel with his pleasing personality, clever singing and graceful dancing, has become a favorite with the theatre-goers all over the country. He was last seen as the Prince in the "Merry Widow." There are any number of songs hits in the piece and "Your Eyes, Your Smile and You," sung by Mr. Damerel in the second act is whistled all over the country. Especial attention has been paid to the chorus and a large and pretty bevy of girls that all of the Singer shows are noted for are carried.

Gilbert & Sullivan Festival Co.

An engagement unprecedented in the annals of local theatrical history is announced at the Victoria theatre for September 19, 20, 21, when the Gilbert & Sullivan Festival Co., which includes DeWolf Hopper, Blanche Duffield, Eugene Cowles, George MacFarlane, Arthur Aldridge, Kate Condon, Viola Gillette, Arthur Cunningham, Alice Brady, Louis Barthel, and the New York Casino chorus of fifty-six people and an augmented orchestra, will be seen in a revival of the most popular of Gilbert & Sullivan's work, which includes "The Mikado," "Pinafore," "Patience," and "The Pirates of Penzance." This remarkable organization is identically the same that but recently concluded a record-breaking engagement at the Casino theatre, New York, which playhouse has been the birth-place of every one of these revivals since they became operative two years ago.

The Gilbert & Sullivan Festival Co., counting principals, its chorus and the orchestra, together with the heads and various assistants of the different mechanical departments, which numbers in all one hundred and ten persons, make all their journeys by special train. This train consists of three standard Pullman drawing-room cars, one tourist car, three baggage cars, one dining car and one observation car, making in all a train of nine cars. In this train the company travel from city to city, naturally only the largest cities being included in their tour, as it would not only be impossible, but profitless for them to play any of the small towns, and their special train has right-of-way over all others during their time of travel.

The following repertoire has been arranged for the presentation of these different operas: "The Mikado," on Thursday evening; "Patience" on Friday evening; "Pinafore" at the Saturday matinee and "The Pirates of Penzance" on Saturday evening.

The PASSING SHOW

The Empress Theatre.

Henry Brooks and company, including Katherine Clinton and Thos. Carroll, present the feature attraction at the Empress theatre this week, a sketch which offers great scope for the excellent character work of that well known player, Mr. Brooks. He offers an amusing sketch entitled "The Old Minstrel Man." The part taken by Mr. Brooks is that of a deaf old minstrel, and his work in the role shows his great capabilities as a character player. It is a pretty piece with much pathos and comedy, and has a good moral. Henry Brooks was formerly engaged in legitimate work, making his last appearance in Faust.

With songs and impersonations Thomas Potter Dunne gives an amusing number on the good bill provided for this week. Mr. Dunne, who is a dialect singer of no mean ability, seems likely to duplicate the success he achieved when on his former visit over the Sullivan & Considine circuit. He includes some good comedy work in his act.

Dancing as she plays the violin, Mlle. Musette offers an interesting contribution to the bill. She is a capable musician and has a well-selected repertoire which includes both classical and popular music. Added zest is given to the act by the singing of an assistant who occupies a box, and suddenly replies to one of the song numbers from the stage.

With a troupe of ten trained canines, mostly poodles and a few fox terriers, Madame Busse offers a good animal act. The dogs have been highly trained and are seen in a number of amusing tricks. It is likely that this act, which is up to the usual standard of the animal performances seen on this circuit, will find much favor with the children at the matinees.

Two good hard shoe dancers are O'Rourke and O'Rourke, who present a lively dancing number. The two dancers are among the best of their class of entertainers seen here.

By special request the management has arranged for the production again this week of the striking film depicting a series of scenes during a fox hunt in England.

Majestic Theatre.

The programmes for Monday and Tuesday will be found par excellence in quality, "An Trabian Tragedy" is a powerfully, affecting story of Egypt, with much that is beautiful in the way of scenery. It is also highly instructive, because the producer has been careful to make his sets and his scenes typical. "Heaven Avenges" is an extraordinary biograph drama. There are strong scenes. The strongest is the final, where the betrayed wanderer has come back to the home and, to her surprise, the opened arms of her father, also, to her greater surprise and her deep joy, the extended arms of the old lover. "Pathe Weekly No. 35." This week's topical opens with a picture of a burning dock in New York city. It is very exciting. There are some excellent views of troops in review which are thrills in a measure. There is also a picture of a remarkable horse race, besides many other items of interest. "Wanted, a Sister," is a good comedy, revolving around a clever female impersonation.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 16.—5 a. m.—The barometer is falling over the northern coast and showery weather may extend to this district during the next thirty-six hours. The weather is fine in the prairie provinces, and sharp frosts have occurred in Alberta and Saskatchewan.

Forecasts.

For 36 hours ending 5 p. m. Tuesday.

Victoria and vicinity—Moderate to fresh southerly winds, generally fair, followed by showers.

Lower Mainland—Light to moderate winds, generally fair, followed by showers.

Reports at 5 a. m.

Victoria—Barometer, 29.96; temperature, 50; minimum, 50; wind, calm; weather, clear.

Vancouver—Barometer, 29.98; temperature, 48; minimum, 48; wind, calm; weather, clear.

Kamloops—Barometer, 30.06; temperature, 46; minimum, 46; wind, 4 miles E.; weather, clear.

Winnipeg—Barometer, 30.16; temperature, 48; minimum, 46; wind, 8 miles E.; rain, .01; weather, cloudy.

Victoria Daily Weather.

Observations taken 5 a. m., noon and 5 p. m., Saturday:

Temperature

Highest	78
Lowest	57
Average	67

General state of weather, fine.

Observations taken 5 a. m., noon and 5 p. m., Sunday:

Temperature

Highest	78
Lowest	53
Average	65

Bright sunshine, 10 hours.
General state of weather, fine.

Regina, Sask., Sept. 16.—Daniel Ehman and John Schuman narrowly escaped with their lives when the gas tank in the house of Ehman exploded with terrible force, badly wrecking the house and severely injuring both men. At the time of the explosion, which was caused by the breaking of an improvised gas tank, the men were engaged upon an invention in connection with automobiles and which it was hoped to have completed during the next two weeks.

STEEDMAN'S SOOTHING POWDERS FOR CHILDREN

RELIEVE FEVERISH HEAT, PREVENT FITS, ETC. and preserve a Healthy state of the Constitution. These Powders contain NO POISON.

WHERE MEN gather for social relaxation—in College Hall or in Clubdom, in bachelor or in benedict assembly, the question of clothes quality is ever a factor.

May we show you the new Semi-ready garments for Fall and Winter? It's a great pleasure always to see and to show things so finely made, so artistically conceived.

You will wonder, as others do, how we can sell such beautifully tailored garments for $15, $20, and up to the purest and finest woollen fabrics of England at $25, $30 and $35.

Semi-ready Tailoring

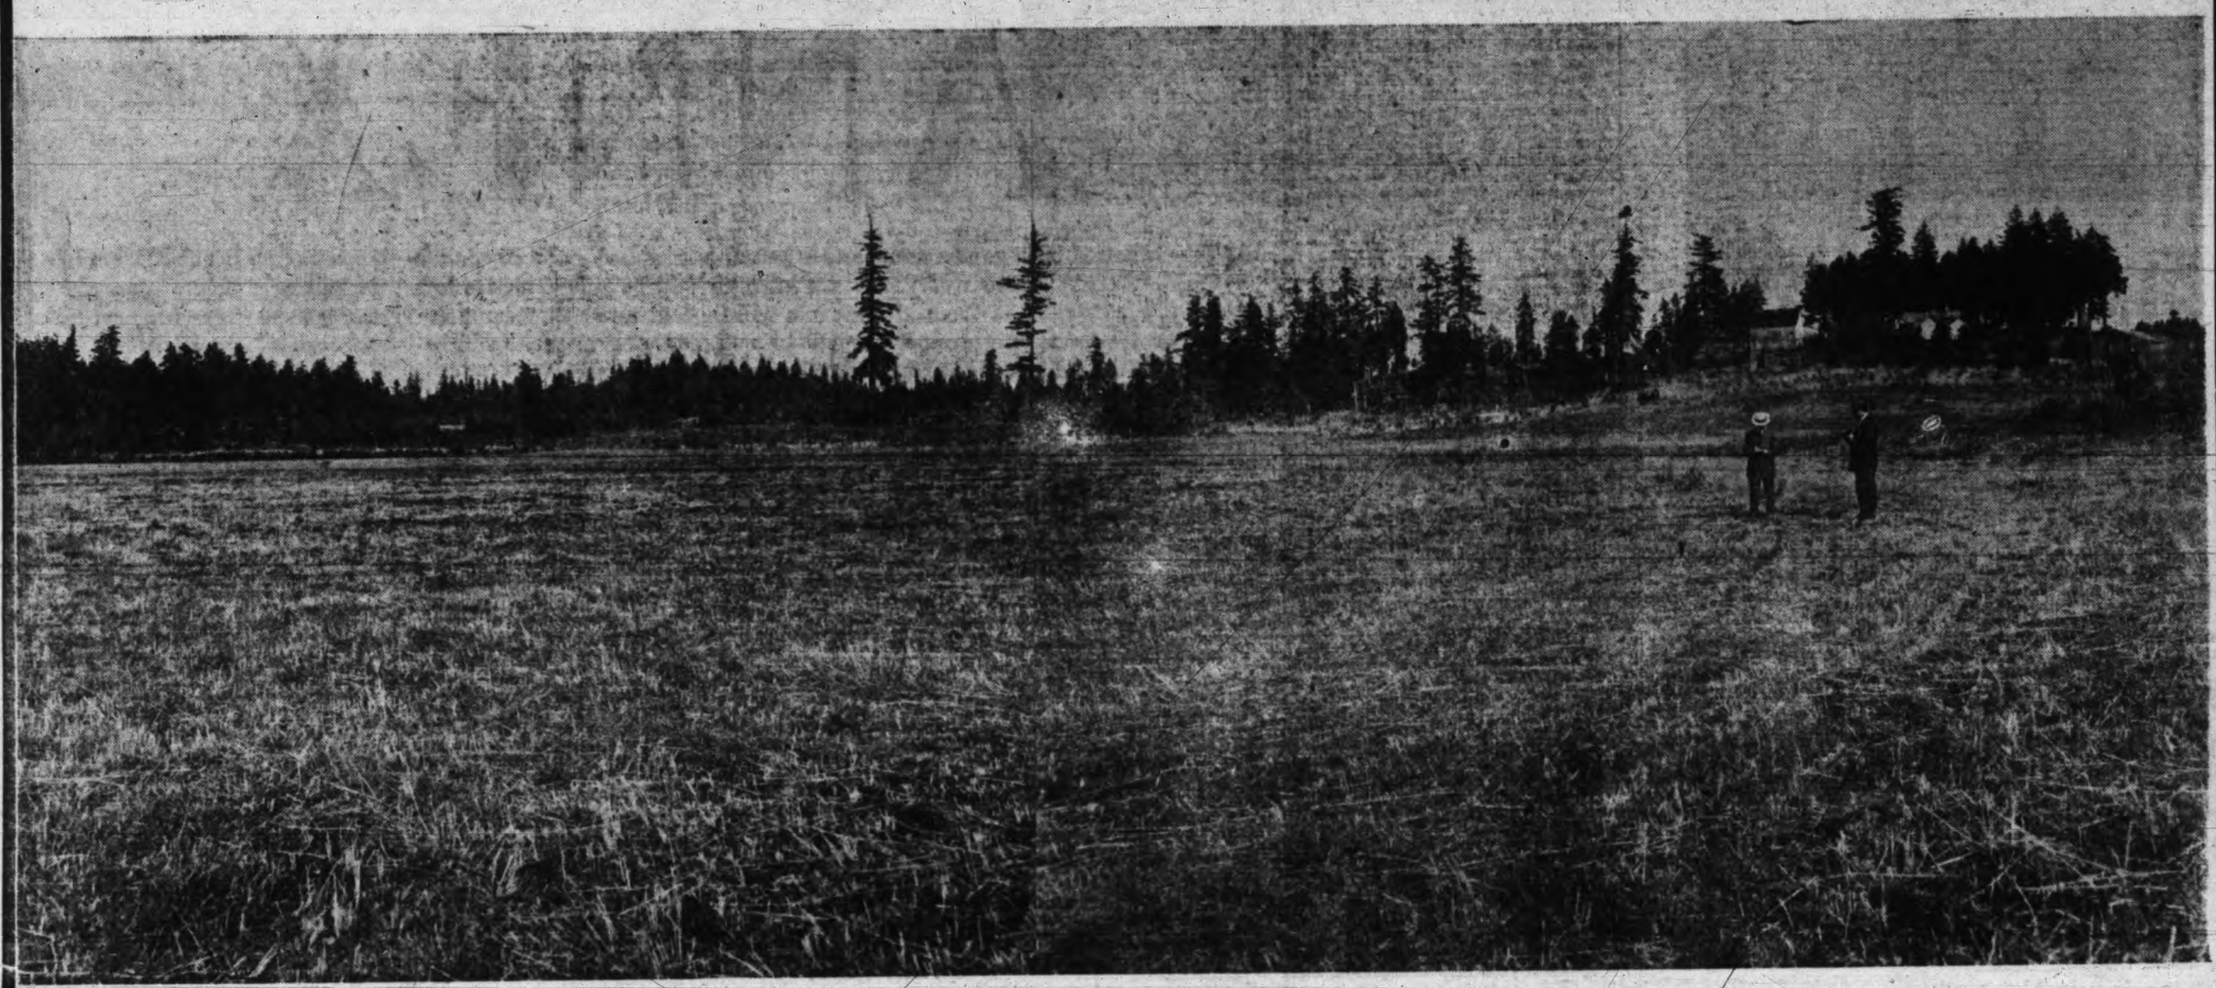
Corner View and Douglas Streets

BURNSIDE
CARLINE SUBDIVISION

More Than Half Sold and Going Strong

Among the first buyers of this property was Mr. C. D. Clinton, rated as one of the shrewdest real estate men on the Pacific Coast. Mr. Clinton stated to us that he believed that "Burnside Carline" was a first class buy because it was close to a fast-growing city. IN THE PATH OF THE MOST RAPID DEVELOPMENT, situated on an electric car line which would revolutionize the character of suburban Victoria; the prices were very reasonable and the terms were easy to meet. He bought one lot first and then took several more.



One Very Interesting Feature

Of the sale of this property is the fact that almost every one of the customers who have taken lots by reason of the newspaper advertising, has brought in one or more friends, who, after seeing the subdivision, have bought also. "Burnside Carline Subdivision"

Is Not a Second "Uplands" But—

It IS a first class, honest investment for those who are not able or do not care to tie up more than a few dollars in Victoria real estate. Victoria is growing faster than any other city in Western Canada to-day, bar none. It will continue to grow at this pace because it is becoming better known daily. Everyone knows that a new street car line through a rich suburban district brings rapid development in its wake. It has been so everywhere else; it will be so here. The Saanich Electric line will be in operation January 1, 1913. Don't you see that NOW is the time to buy on that car line? You must realize that values will soar as soon as the first car runs.

Here's What "Burnside Carline" Offers You

A lot measuring 50x138 to 50x139, 15 minutes from City Hall by electric. Level, clear, rockless, rich, black bottom land now under cultivation, two blocks from new car line, school one block away, churches and stores near by. Saving of 50 per cent in living expenses.

MINIMUM TAXES—NO BIG IMPROVEMENT ASSESSMENTS—EASY TERMS

PRICES FROM $250 TO $500

Big Generous Lot for $25 to $50 Down and Just $10 a Month

LET US TAKE YOU TO SEE THE LOTS—MOTORS EVERY TWO HOURS. NO CHARGE AND NO OBLIGATION TO BUY. BRING YOUR FRIENDS—BUT DON'T DELAY.

A. T. FRAMPTON & CO.

727 FORT STREET — Autos to Property Run Regularly — PHONE 1658

DEAN DOULL IS BACK FROM THE OLD LAND

A hearty welcome was accorded Very Rev. the Dean of Columbia, Mrs. Doull, and their children, on their return to the city on Saturday afternoon after an absence of several months in England. Among those who were at the wharf to greet them on their arrival were Bishop Roper, H. O. Litchfield and H. H. Woolison, churchwardens; the chancellor of the diocese, Lindley Crease, and the following members of the church committee: Messrs. Arthur Crease, E. H. Hiscocks, H. S. Crotty, G. Hodgson, E. B. Taylor, and A. J. Dalzain. At the deanery the cathedral branch of the Women's Auxiliary, headed by the vice-president, Mrs. E. H. Hiscocks, met the returned travellers and presented Mrs. Doull with a bouquet of pink carnations, another

VERY REV. DEAN DOULL

welcome awaiting them in the deanery, which had been brightly decorated with flowers by the ladies of the auxiliary.

Both the dean and Mrs. Doull expressed themselves as being glad to be back in Victoria once more. During his absence in the Old Land the dean had an opportunity to see the trend of public feeling on church matters, and had noticed a growing sympathy between the leaders of the church for the laboring classes. The church had still a very strong hold over the people, and the Welsh Disestablishment Bill was a potent factor in the unpopularity of the present government in England.

While in England Dean Doull was present at the annual meeting of the B. C. Church Aid Society, which was held in July at Westminster, among the speakers being the Bishop of London, who will shortly visit Victoria, and Bishop Perrin, the dean himself addressing the gathering. He was present at a meeting of the Representative Church Council, a gathering of the different houses of the convocations of Canterbury and York, when, on the first day of the great dock strike debates were held having particular reference to the labor disturbances. The Archbishop of York, the Bishop of Winchester, and the Dean of Worcester had all spoke on that occasion, in their addresses evincing the strongest sympathy with the laboring classes and the great disabilities under which they labored.

British Columbia, he said, was the cynosure of all eyes, and everywhere he went the dean was questioned by people who wanted to learn more about this country. The British Columbia Church Aid Society and the Archbishops' Western Canada Fund had been more successful in collecting money than in getting workers, and at the present time there was a conspicuous paucity of candidates for holy orders.

A large congregation was present yesterday morning at Christ Church Cathedral, when the dean occupied the pulpit.

REPORTING UPON FIELD IN CHINA

SALVATION ARMY MAY BE ORGANIZED

Colonel Lamb Returns From Orient After Mission of Investigation

Colonel Lamb, international secretary for immigration at the Salvation Army headquarters, London, arrived yesterday from the Orient on the Empress of India, and spent the day in the city. He was met at the wharf by Brigadier Burditt, of Toronto, and Ensign Macdonald, of the local corps.

The colonel has been in China in connection with the organization of the Army in the Celestial Empire, the present occasion being regarded as the psychological moment for the work to be set on foot in the new republic. General Booth, Colonel Lamb told a Times man yesterday, was anxious to see a commencement made which would be the inauguration of a great movement, and strangely enough the colonel was in negotiation in Pekin when the news came of the passing of the veteran head of the army.

"There is, however," he said, "another reason why we had to take into consideration the position in China immediately. There has been growing up a native movement known as the Eastern Salvation Army, the ideals and objects of which we desired to analyze, to see if they approximated to those of the Salvation Army. If the objects are found to be sufficiently Christian to be acceptable to the international code we shall be glad to absorb the native movement.

"While I am not in a position to discuss the report which I shall make on the subject to headquarters, as upon that report will largely depend what action is taken in connection with the foundation of the Army in China, there is one thing which has been forced largely upon my view while there, and it is that Christian missionary work in China will have to be effective and direct if the Chinese are not to grow up with a materialistic attitude to life such as resulted with Japan. The progress of the Japanese was so great that it more than kept pace with their development along Christian ideals.

"I proceeded to Korea, and arrived in Seoul the last day of the trial of the conspirators for the supposed assassination of the governor-general. I do not care to give my impressions of the trial, although I formed definite ones at the time, as the Japanese are very susceptible to criticism, and resent observations by foreigners about their customs and procedure. The work of the Army in Korea is going on well, and our institutions are developing.

"In Japan I took an opportunity of examining into the work in progress in some of the principal centres, and find also material advance to be reported. Our work in the Orient, so far as it has gone, is excellent and we believe great changes will be the rule in the near future."

Colonel Lamb came through from London by the Siberian railway, and says that the Russian authorities are keeping a stringent lookout for espionage. He was stopped two or three times himself for taking photographs en route. There is a good deal of activity along the last three hundred miles of the line, in spite of the unsettled political conditions in Manchuria.

The colonel will carry through some immigration work in the west before returning to England. As one of the ablest officers of the headquarters staff in London, his visit to the coast is of special importance in Salvation Army annals.

FIRST MUNICIPAL POLL IN ESQUIMALT TO-DAY

Resident Property Owners Choosing Councillors and School Trustees

Polling is taking place to-day at the Soldiers' and Sailors' Home, Esquimalt road, for the first municipal council of the district of Esquimalt. A. B. Ellis is acting as returning officer. For the council, six to be elected, the official candidates are Col. Peters, R. A. Anderson, G. F. Matthews, J. S. McAdam, J. T. L. Meyer and C. A. Rea, and unofficial J. F. Mesher and George J. Cook.

For the five seats on the school board there are seven nominations, namely, Mrs. Birch, Lieut. Mulcahey (a former member), Rev. W. W. Bolton, Leonard Tait, F. Guest, George Robson and Bertram Mantrop.

Polling takes place between the hours of nine and five o'clock, and the electors are resident property owners who have registered. Nearly half the electorate registered are women voters.

The announcement of the result will depend on whether the block vote, which is expected, materializes. It is expected there will be a large vote for the official council candidates, and that the poll for school trustees will be more scattered, which, of course, will cause a delay in counting.

An effort to have the letters patent altered to extend the time to 7 o'clock was ineffectual, on an appeal to the deputy attorney-general.

BISHOP RUDOLPH SPOKE LAST NIGHT

EMINENT DIVINE IS VISITING THE CITY

Preached Morning and Evening Yesterday in Reformed Episcopal Church

Rt. Rev. L. Rudolph, of Philadelphia, the eminent divine who was consecrated bishop of the Reformed Episcopal church in the early part of 1909, arrived in the city on Saturday afternoon, and preached twice in the city yesterday at the Church of Our Lord. In the evening, after the regular services at St. Andrew's Presbyterian church, he gave a short talk to the young men of the congregation, quite a large proportion of the gathering remaining in order to hear the bishop's address.

The speaker was introduced by Rev. Mr. Gladstone, who said that Bishop Rudolph held a dual dignity in being bishop coadjutor of New York and Philadelphia, and professor of dogmatic theology and Christian ethics at the Reformed Episcopal seminary at Philadelphia, and that his work had always been characterised by the most perfect loyalty to Bible truth.

In his address Bishop Rudolph described the work which had been accomplished by Dr. Manuel Ferrando, a Spanish priest, who, impressed with the need of spiritual life in the Roman Catholic church, had gone out to South America to work among the Indians there. While there he came by accident into possession of a sheet of the Tract Society which opened his eyes to religious truths which had been hidden from him hitherto, and which further convinced him that the Roman Catholic church had deceived him in concealing spiritual truths which he should have known. In 1895, in the theatre at Caracas, he publicly renounced Roman Catholicism; and, proceeding to New York, entered Christ Mission, of which Father O'Connor had been superintendent for the past 33 years. Under the influence of this good man he spent a year in study and seeking after the knowledge of which he had so long been kept in ignorance. At the conclusion of this time he returned to Caracas, where for two years he worked with Dr. Pond. Later he crossed to Porto Rico, making his way ten miles into the interior among the ignorant and degraded people, to carry to them the message which had brought so much peace into his own life.

The population of the island was dense, he was poor, and without friends or assistants at the beginning, but the work accomplished during his twelve years' residence among the natives was a splendid testimony to the ardor with which he entered upon his duties. At the time of his first entry among them the people were utterly neglected, and marriages could not be solemnized because there was no one to perform the ceremony; neither could religious rites be performed at burials because there was no man to perform this. Now all this had been changed; the message of Christ had been taken to them, and it was like going into a new world to enter the island to-day and see the happiness on the faces of the people. Men of vicious character had been changed into new beings by the understanding of the simple Word of God as preached by this good man, and he who had any doubts of the operation of the Spirit of God in the world to-day needed but to go to Porto Rico to see the marvellous changes effected there.

Following on the knowledge of the Saviour had come the desire for education, and to-day in Porto Rico there were 150,000 school children being taught under the direction of those who came to know God through the teachings of this disciple of Christ. There were 1,500 communicants in the island now, and the number of ordained workers was continually growing. Columbus had first landed on the island in 1493, and Ponce de Leon was the first governor there, so that for many decades the Roman Catholic church had had full liberty to work out its principles; but no headway had been made, whereas in the few brief years since Dr. Manuel Ferrando's coming great and visible changes had elevated the people from a condition of barbarism to a happy and industrious community.

"It is within our power to do much for other places and other peoples," said Bishop Rudolph in conclusion. "I think the results of mission or no-mission work find their parallel in Palestine, where the Sea of Galilee, breathing forth, as it seems, the breath of life, both receives much and gives forth much; whereas the Dead Sea, receiving from just as great a source, gives nothing back. I am not one of those who would do foreign mission work to the neglect of those at home, however, and think that if you have failed to do all that is needed in your own church, in your own city, it is too soon to enter into fields abroad."

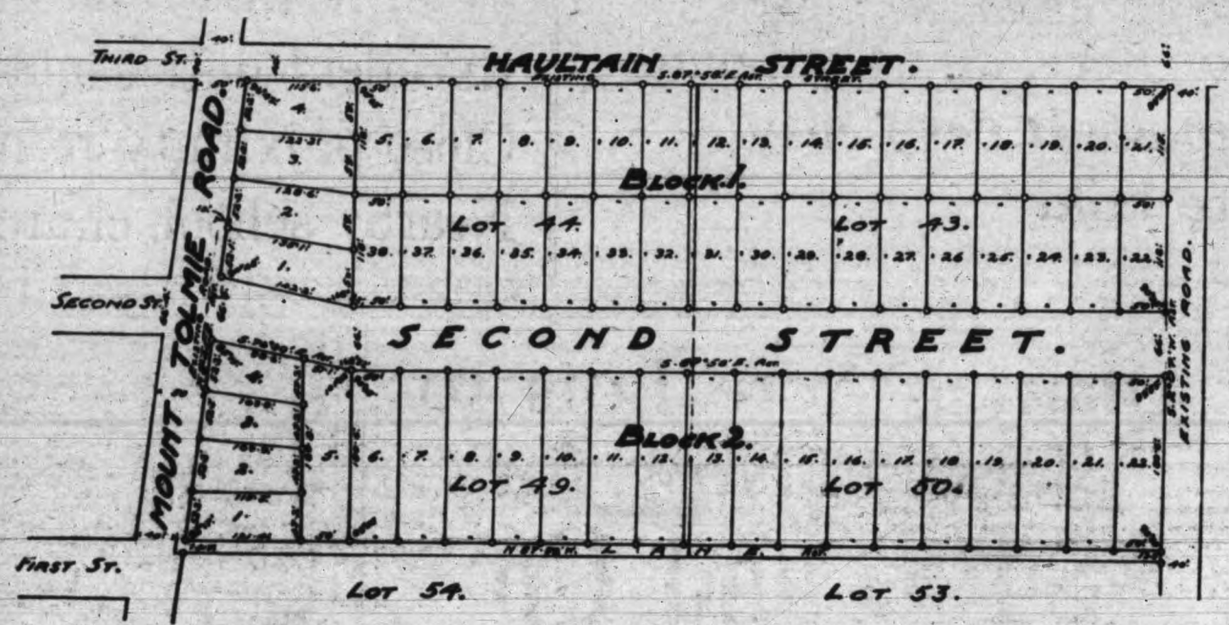
During the evening Bishop Rudolph referred with some surprise to the large number who had remained to such a late hour in order to hear him speak, saying that it would be almost impossible to get such a large attendance at a late meeting in New York city.

Your Home Will Cost Less Money

The [illegible] is big, important consideration in buying a homesite lot: The less money you pay for the lot the less your home will cost you, and with the cost of building getting higher, that is something worth thinking about. If you buy a homesite lot merely for an investment the same consideration applies. The buyer who takes the lot from you will think of this feature. In

JUBILEE ANNEX

At the corner of Richmond avenue and Haultain street, inside the city limits—the last close-in subdivision in Victoria. A large number of Victorians have already bought homesite lots that will save money on the homes that are built on them. These lots will be constantly increasing in value because they are large, clear, deep-soil lots in a desirable neighborhood, enjoying all the facilities of modern municipal life—city water, electric light, sewerage and first class street car service.



The Jubilee Hospital—considered close enough to all parts of the city to be desirable for emergency cases—is on the corner of Fort street and Richmond avenue. "Jubilee Annex" is just one street north of Fort and also on Richmond avenue. The excellent Willows car service, one of the very best in town, is operated on Fort street. The Mount Tolmie car line runs along Richmond avenue. Thus "Jubilee Annex" has two car lines within as close proximity as is desirable.

"Jubilee Annex" doesn't have to wait for the future. It is selling on the strength and assurance of "NOW," not on "NEAR FUTURES." All around the property there are charming homes of the better class, where desirable families are permanently located. The lots in "Jubilee Annex"—from 50x118 to 50x180—are ample for the most pretentious houses. Most of them have fine fruit trees now in full bearing. Otherwise they are clear. The soil is extra good.

The subdivision is all but sold out, but there are a few lots left that are as good as any that have been sold. The prices are the same and the terms the same.

$1,100 TO $1,400

One-Fifth Cash, Balance One, Two and Three Years

But the Terms Will Be Stiffened to One-Third Cash, Balance Six, Twelve and Eighteen Months, on all Unsold Lots, on and After September 20th

NOW IS THE TIME TO BUY—THE OPPORTUNITY WILL NEVER COME AGAIN. SEE IT IN OUR MOTORS, OR TAKE WILLOWS CAR—DO IT TO-MORROW.

LESS SPECULATION MORE CULTIVATION

SIR EDMUND OSLER, M. P. SOUNDS A WARNING

Says Country Is Being Over-Subdivided—Land Should Be Settled and Made Productive

A note of warning was sounded last evening by Sir Edmund B. Osler, one of the distinguished party accompanying Sir Thomas Shaughnessy on his tour of the West.

In conversation with a Times representative he spoke of the danger of over speculation, especially in land; a danger which had long ago made its presence felt in the east and had now spread practically over the whole of Canada. In the west he deplored the buying and selling of the innumerable subdivisions for miles and miles out of all the great cities that he had encountered.

For the rest, Sir Edmund was enthusiastic about British Columbia and the chances of making good out here. From a financial standpoint, opportunities were unlimited, and save for the exploitation of the evil aforementioned, he thought the country was going ahead wonderfully.

When asked as to Vancouver Island, Sir Edmund said he thought the work of development was going forward very well. "But," he added, "There is a tremendous lot still to do." It had struck him, he said, that the land was not being cultivated and developed so quickly as it might be, owing, he thought, to the fact that the majority of the people were so well off that the tilling of the soil was scarcely necessary for their material welfare.

Sir Edmund Osler belongs to a remarkable family which has contributed to the professional world men whose eminence has not been limited by the buondaries of their native country. Sir William Osler is a world-famous physician, of whose career Canadians are exceedingly proud; another brother, Hon. Featherston Osler, was for years a distinguished member of the Ontario bench; the late B. B. Osler was Canada's leading criminal lawyer, a man of unusual brilliance.

Sir Edmund himself is one of the biggest financiers in Canada. He is a man of many and diverse interests, and one whose munificent donations to deserving charities have made his name a household word throughout the Dominion. He represents West Toronto in the House of Commons, where he sits as a Conservative. He does not speak often, but when he does his words carry great weight. His business interests are manifold and of a widely comprehensive character. Born in Simcoe, Ontario, sixty-seven years ago, he early betrayed keen business ability and commenced his career in the Bank of Upper Canada and after the failure of that institution formed a partnership with the late Henry Pellatt as money brokers and financial agents; later he joined H. C. Hammond, forming the firm of Osler & Hammond, financiers and stockbrokers. He retired from the Toronto Stock Exchange in 1902.

Sir Edmund is president of the Dominion Bank, the Niagara Navigation Co., Ontario Rifle Association and of the Toronto Branch of the American Archaeological Association; also he acts as hon. president of many clubs, sport organizations and charitable institutions. There is not in Canada a more public-spirited citizen or sounder-headed man of affairs.

IMMIGRATION WORK OF SALVATION ARMY

BRIGADIER BURDITT ARRIVES IN CITY

Will Discuss Programme With Ministers—Immigration of Widows to Canada

Brigadier Burditt, of Toronto, Dominion immigration secretary for the Salvation Army,, has arrived in the city to interview provincial government officials on the immigration work of the Army in so far as it relates to this province.

The brigadier said that never had there been a greater demand for domestic servants than at present. Those they had brought out from the Old Country had so quickly married that it was difficult to fill their places. They could fill three of four times as many applications as they had women wanting work. The demand on their Vancouver agency was always considerable, and probably with the larger number of men than women in the province the Army was doing good work in attempting to readjust the balance of sexes.

The brigadier, who is the successor of Thomas Howell, now C.N.R. immigration commissioner, repudiated the claim that the Army was introducing into Canada undesirable citizens, or persons who, brought out under the understanding they would work in the agricultural industries, drifted to the towns and caused an accentuation of the unemployed problem. He said there were many who came out with Salvation Army parties who paid their passages, merely accompanying the parties, and over their future movements the Army could exercise no further check. But those brought out for the farms were placed satisfactorily, as also the domestics. These were the two classes to whom they devoted their attention.

He pointed out that the Army officials were now considering a plan for the emigration of widows and children. When the home was desolate with the loss of the breadwinner, the struggle with poverty began under difficult circumstances among the complex conditions of the older countries, and the officers believed some satisfactory scheme could be evolved for the emigration of widows, that they may be placed in better conditions in a newer land where the children would have a fairer chance of facing the struggle for a livelihood. General Bramwell Booth felt the desirability of doing something along these lines, and was as anxious as any officer to see the scheme launched on right lines.

Of the Army settlement at Coombs, Brigadier Burditt said it was making as good progress as might be expected, but the heavy labor of clearing was a problem which was new to most of the residents there. It was possible developments of a similar character might be undertaken elsewhere.

It is understood that during the brigadier's visit here he will discuss plans for the inauguration of other means of inducing desirable settlers to come to British Columbia with the government's representatives.

WILLOW CITY

On Main Line of Grand Trunk Pacific, and Pacific and Hudson Bay Railway

At the junction of the Fraser and Willow Rivers—the geographical, strategic and commercial centre of British Columbia—with more than 1,000 miles of navigable waterways, is the very heart of thousands of acres of the most fertile and productive land in the world—the logical distributing point for the Peace River country and the rich Cariboo mining district.

The great natural advantages that brought Fort George so prominently to the front are not only repeated at WILLOW CITY, but are supplemented by many others.

With the Grand Trunk Pacific building into WILLOW CITY from the east and west, and with the assurance that their line will be completed into WILLOW CITY before the close of next year; with the Pacific & Hudson Bay Railway having reserved large trackage and depot sites in WILLOW CITY and their engineers on the ground surveying their terminals; and with the Cariboo, Barkerville & Willow River Railroad assured, is sufficient for the most careful investor.

WRITE TO-DAY for maps, plats and printed matter about WILLOW CITY, where early investors, just as they did at Fort George, will reap the profits sure to be made on lots bought now, and secure the advance bound to take place from time to time as the railroad approaches.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

It will be a wise course for you to take some extra care of your health. Bodily strength lightens material and emotional troubles, both of which threaten you.

Those born to-day will have versatile dispositions and some too much so for their own good. If too changeable and unfortunate in enterprise they should seek alliance with more steady minds. In this way they can become efficient.

Birthday Congratulations TO

September 15.

Anderson, Rev. Peter William (Ottawa); born Oakwood, Ont., 1839; pastor of McKay church, Ottawa, and a past moderator of the Presbyterian synod.

Belcourt, Hon. Napoleon Antoine, LL. D., K. C., P. C. (Ottawa); born Toronto, 1860; barrister since 1882; Liberal M. P. for Ottawa city 1900-1907 when appointed a senator; speaker of the House of Commons, 1904.

Bogue, Richard (Moose Jaw, Sask.); born Westminster, Ont., 1845; merchant and municipal reformer.

Dyke, Joshua, B. A., B. D. (Fort William, Ont.); born Wednesfield, Staffs, Eng., 1849; Methodist minister, 1874-1900; mayor of Fort William for several years; an active immigration agent.

Fraser, Rev. Daniel James, B. A., LL. D., D. D. (Montreal); born Alberton, P. E. I., 1866; professor in Montreal Presbyterian college and a champion golf player.

King, John, K. C. (Toronto); born Toronto, 1843; one of the leaders of the Ontario bar and a prolific author.

Noyes, John Powell, K. C. (Cowansville, Que.); born Potton, Que., 1842; lawyer, journalist and Freemason.

Rivet, Louis Alfred Athemar, B. A., LL. B., K. C. (Montreal); born Joliette, 1873; Liberal M. P. for Hochelaga, 1904-1911, when defeated.

Shutt, Frank Thomas, M. A., F. R. C. I., F. R. S. C. (Ottawa); born London, Eng., 1859; public analyst at Toronto for many years; now chief chemist of Dominion experimental farms.

Whyte, Sir William, K. B. (Winnipeg); born Dunfermline, Scotland, 1843; in railway service of Canada since 1863; worked his way up from position of brakesman on Grand Trunk to being second vice-president of Canadian Pacific, retiring in 1911; knighted 1911.

September 16.

Baker, Edward Crow (Victoria, B. C.); born Lambeth, Surrey, Eng., 1845; in royal navy, 1860-1878, and for a time navigating lieutenant of H. M. S. Niobe; later superintendent of pilots and secretary of the Victoria board of trade; Conservative M. P. for Victoria, 1882-1889; a prominent Freemason.

Barr, Robert (London, Eng.); born Glasgow, Scotland, 1850; school teacher in Ontario for some years, then a journalist in Detroit; went to England in 1881 and founded the Idler magazine; a prolific novelist.

Casavant, Joseph Claver (St. Hyacinthe, Que.); born St. Hyacinthe, 1855; organ manufacturer.

Demmers, Hon. Louis Philippo, B. A., LL. D., K. C. (Montreal); born Henryville, Que., 1863; Liberal M. P. for St. Johns-Iberville, 1900-1906; now judge of the Superior court of Quebec.

Dubord, Hon. C. Eugene, M. L. C. (Quebec); born Champlain, Que., 1856; merchant and farmer; member of Quebec Legislative Council since 1907; president of the agricultural commission of Quebec.

Gage, William James (Toronto); born Peel county, Ont., 1849; publisher, capitalist and philanthropist; founder of the national crusade against tuberculosis.

Gorman, Michael James, LL. B., K. C., (Ottawa); born Pembroke, Ont., 1856; leading parliamentary counsel and agent.

Gwynne, Lieut.-Col. Reginald John (Grenfell, Sask.); born, London, Eng., 1863; cavalry soldier and farmer.

Hastings, George Victor (Winnipeg); born Montreal, 1853; general manager of the Lake of the Woods Milling Company.

Hatheway, Warren Franklin, M. P. P. (St. John, N. B.); born St. John, 1850; wholesale grocer, soldier and author; Conservative M. P. P. for St. John since 1908.

Hill, James J. (St. Paul, Minn.); born near Guelph, Ont., 1838; went to Minnesota in 1856 and has since then been identified with the wonderful West; president and founder of the transportation development of the Great Northern railway system.

Hodgins, Charles Constantine (Lucan, Ont.); born Biddulph, Middlesex, Ont., 1857; Conservative M. P. P. for North Middlesex, 1905-1909.

Jarvis, Ernest Fred (Ottawa); born St. Eleanor P. E. I., 1862; entered civil service, 1881; private secretary to Hon. J. C. Patterson, 1892-1895; now secretary of militia council and assistant deputy minister of militia.

King, Rev. Harold George (Fort William, Ont.); born Barrie, Ont., 1876; rector of St. Paul's church, Fort William.

Law, Rt. Hon. Andrew Bonar, P. C., M. P. (London, Eng.); born Rexton, N. B., 1858; Conservative M. P. for Blackfriars division of Glasgow, 1900-1906; M. P. for Dulwich, 1906-1910; now M. P. for Bootle; parliamentary secretary of the board of trade, 1902-1906; now leader of the opposition in the British House of Commons.

Mowbray, William, B. A. (Toronto); born Howard, Kent, Ont., 1874; educationalist and soldier.

Rose, Hugh Edward, B. A., LL. B., K. C. (Toronto); born Toronto, 1869; barrister and law examiner.

Thacker, Lieut.-Col. Herbert Cyril (Ottawa); born Poonah, India, 1870; officer in Royal Canadian artillery since 1893; now director of artillery; served in South Africa and was attached to Japanese army in Manchuria during Russo-Japanese war.

Watts, John William Hurrell, R. C. A., F. R. A. I. C. (Ottawa); born Teignmouth, Devon, Eng., 1850; assistant architect of public works department for many years; now in private practice.

White, William Robert, K. C. (Pembroke, Ont.); born Pembroke, 1843; barrister since 1868; a past grand master of the Masonic order and a leading Conservative.

LOOK HERE! JUST SEE WHAT A BEAUTIFUL LOT YOU CAN GET FOR FROM $250 TO $500 IN

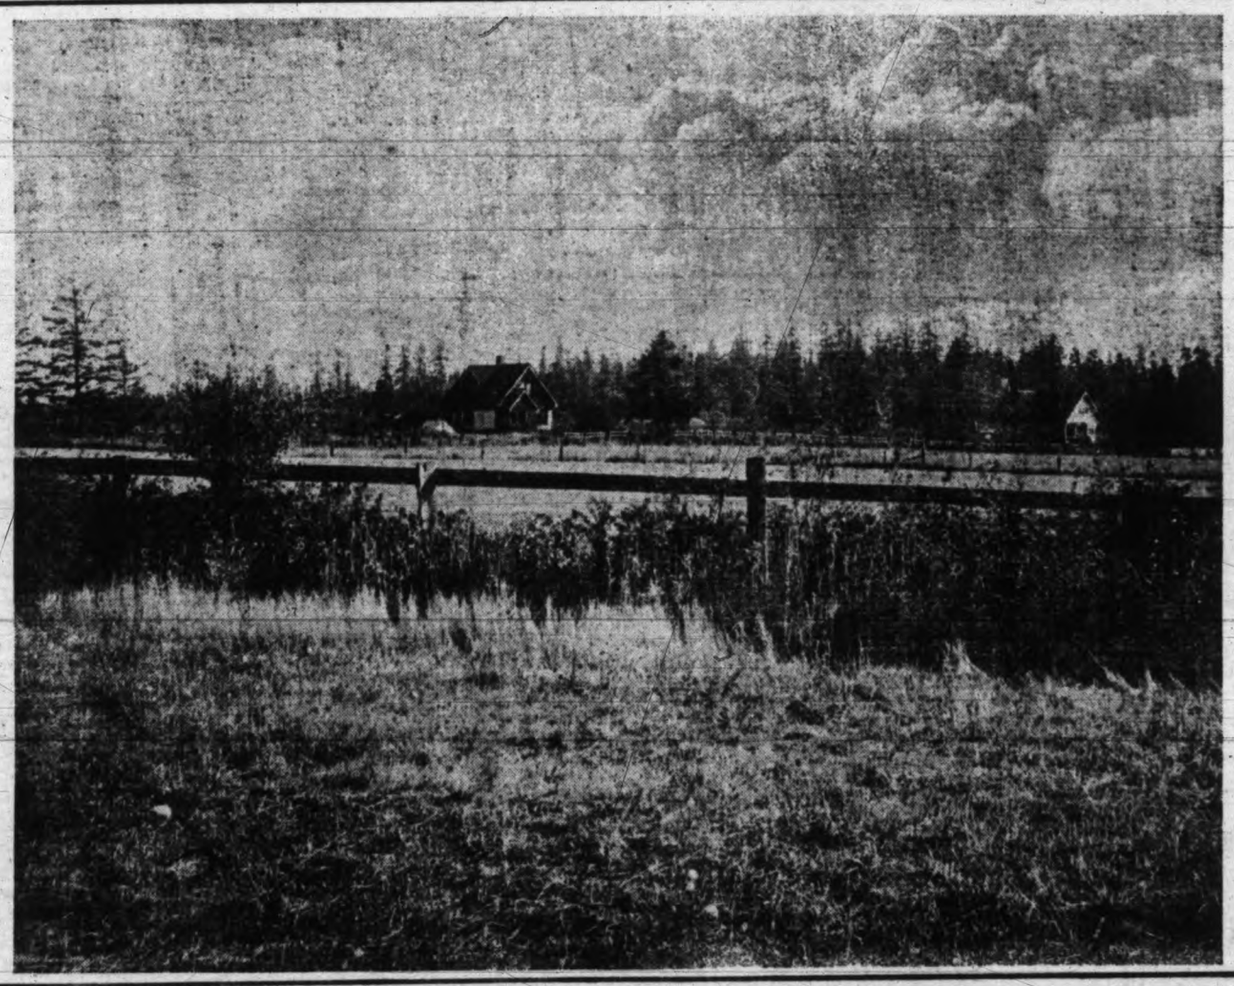
'BONNYVALE'

AND THE TERMS ARE ONLY $25 CASH AND $10 A MONTH

You don't have to tie up a large sum of ready cash to own a lot that will be worth twice as much in a few months, when you buy in "Bonnyvale." This property is just as valuable and just as well situated, has just as many advantages and just as good a view as other properties whose prices are far higher and whose terms are far harder. "Bonnyvale" will make you good profits if you get in now. And, even if you fear that property won't advance, even if you are a "Doubting Thomas," you can have a bigger chance to win for less money in "Bonnyvale" than in nine-tenths of the properties now selling.

"Bonnyvale" is orchard property of the kind that makes good homesites. It lies near the city in a district that is growing fast right now. It commands an excellent view, taking in Cedar Hall and Mount Tolmie. But it has advantages that make it worth while even if there was no view to speak of. It is good, clean property; the lots are generous in size; the streets are well laid out; development is going on all around, and the prices and terms place the lots within reach of everyone who wants to own a bit of good Victoria property that is certain to increase in value quickly. No one can make a mistake in buying a lot or two in "Bonnyvale" now while the conditions are so easy.

SAY, LET US SHOW YOU JUST HOW GOOD THIS "BONNYVALE IS. WE'LL TAKE YOU OUT TO-MORROW



DON'T JUST THINK, "OH IT CAN'T BE ANYTHING GOOD AT THAT PRICE," AND PASS IT UP. BE FAIR. SEE IT.

If You Want to Know More About "Bonnyvale" Glance Over These Brevities

- Close to Mount Tolmie car line.
- B. C. Electric surveys within block of property.
- School 200 yards from property.

- Close to "Uplands" and Cadboro Bay.
- In network of the best roads.
- One fine residence already built.
- Part of property now in orchard.

- Excellent arable soil.
- Pure water in abundance.
- All lots cleared.
- All lots free from rock.

- All lots generous in size.
- Surrounding property well built up.
- Only half mile from sea.

GIVE US A FAIR CHANCE. LET US TAKE YOU TO SEE THIS LOW-PRICE, HIGH-GRADE PROPERTY. MOTORS AT ANY TIME TO SUIT YOUR CONVENIENCE AND EVERYBODY WELCOME. OFFICE OPEN EVENINGS

TRADING LIGHT IN NEW YORK MARKET

Prices of Stocks Are Well Maintained—Money Market Commands Attention

(Courtesy F. W. Stevenson & Co.)

New York, Sept. 16.—Trading in the stock market to-day was not much of an affair, and sales were only light. However, prices were well sustained, and show tendency to do better.

With call money touching 5½ per cent, and with time funds, especially four months' money to carry over the turn of the year, particularly strong, the money market naturally commands attention as the predominant influence at the moment, despite the favorable development as to crops, the steel industry, the copper situation and general business.

Efforts have been made during the past few days to so shift loans as to preserve a small surplus. Whether this can be accomplished or not remains to be seen.

CORONATION GOLD REMAINS STEADY

Brokers Report Resting Orders to Buy—Granby Stock is Stronger

Victoria, Sept. 16.—Two hundred and one shares of Victoria Steam Laundry Co. sold at $9.00 per share on the local exchange this morning, the market closing with no offerings. B. C. Packers common was $123 bid and Granby Smelter $56 bid and $60 offered. Trading in Coronation Gold remains stationary for the time being, but it is not expected to drop materially because of the numerous resting orders to buy around present quotations.

NARROW RANGE IN WHEAT PRICES

Slight Reaction From Low Point—Country Movement Will Influence Market

(By Courtesy F. W. Stevenson & Co.)

Chicago, Sept. 16.—There was not much in the way of news to affect wheat prices to-day, and the range was narrow, with a tendency lower. Losses were limited to ⅛ to ⅜ cents from Saturday's close, and there was slight reaction from the low points. Traders do not seem eager to press sales except on the good bulges. Future action will be largely under the influence of the country movement.

September corn lost 2 cents, but reacted at half before the close, December option was only a half a cent lower, and May slightly off. Cash market was 2 to 2½ lower, which was the main damper to the speculative trade.

Cash markets generally were lower for oats, but May option withstood remarkably well this fact, and buying was in moderate swing, and has been for the past few days. Tremendous crop prevents any bulge of importance however.

Sent on 60 Days Trial

No longer any need to drag through life in the clutches of rupture.

No earthly excuse for letting yourself keep on getting worse.

No big expense to stand in your way. And you won't have to take a single cent's worth of risk.

Think of that! you who have spent dollar after dollar without finding a thing that has done any good.

Think of that! you who have been afraid that some day you'd have to risk the dangers of operation—you who dread the surgeon's knife because you know it results in permanent weakness or death about as often as in recovery.

* * * * * * * * * *

In the last 24 years probably more ruptured people have been cured WITHOUT operation than by all the operations ever performed.

Cured without leaving home—without being in bed a single day—without losing a single hour from work.

Cured by the wonder-working Cluthe Truss (Cluthe Automatic Massager), something so remarkably beneficial that nearly all feel better and stronger—get immediate relief—after trying this truss.

For this is far MORE than a truss—far more than merely a device for holding the rupture in place.

Test it on 60 Days' Trial

We have so much faith in the Cluthe Truss that we are willing to let you prove at our risk just what it will do for you.

We'll make a Cluthe Truss especially for your case and allow you 60 days' trial to prove that it will hold your rupture securely in place, when working and at all other times—that it will put an end to the trouble you've heretofore had and do you a world of good. If the trial we allow you doesn't prove it, then the truss won't cost you a single cent.

For your protection, we guarantee all this in writing.

Healing Takes Place While You Work

We guarantee that with the Cluthe Truss on you can do any kind of work, exercise, take a bath or swim (this truss is water-proof), etc., with absolutely no danger of the rupture coming out.

You see this truss—unlike all others—is self-regulating, self-adjusting; can't slip or shift away from the rupture opening; automatically and instantly counteracts every one of the strains or sudden movements which, with ordinary trusses, are almost certain to throw the rupture out.

And, in addition, something no other truss or appliance in the world does—

It is made to overcome the WEAKNESS which is the real CAUSE of rupture—

All day long, without any attention whatever on your part, it AUTOMATICALLY MASSAGES the weak ruptured parts—

And this massage STRENGTHENS just as EXERCISE strengthens a weak ARM—in many cases makes the ruptured parts so strong and sound that the rupture opening is entirely closed and no sign of the affliction left.

That is how the Cluthe Truss has cured some of the worst cases of rupture on record—

Among them men and women 50 to 70 years old, who had been ruptured 20 to 50 years—cured many of them after everything else, including operation, had proved utterly useless.

Get World's Greatest Rupture Book

So that you can judge for yourself, we want to send you a free book we have written—a cloth-bound book of advice. Even physicians who have read it say it is the best book ever written on rupture.

It sums up all we have learned in 40 years of day-after-day experience—in the successful treatment of over 290,000 cases. It deals—in simple language and photographic illustrations—with rupture in all its forms and stages; explains the dangers of operations; puts you on guard against throwing money away on things that can't stand a fair test.

And it tells all about the Cluthe Truss—how little it costs—how it ends constant expense—how it frees you forever from the torturing harness which makes other trusses so uncomfortable (no springs, belt or elastic around your waist, no leg-straps)—how you can try a Cluthe Truss 60 days at OUR risk, thus giving you plenty of time to make sure of its wonderful holding and healing powers.

Also—in their own words—it tells the experiences of many former sufferers—gives their names and addresses—perhaps you know some of them.

Book sent in plain, sealed envelope. Write for it to-day—don't put it off.

After reading this book, you'll know more about your condition than if you had gone to a dozen doctors. You'll know how to get immediate relief without risking a penny.

Just use the coupon, or simply say in a letter or postal: "Send me the Book." In writing us, please give our box number as below:

FINANCIAL NOTES.

Twin City earnings for the first week in September totalled $206,193, increase $32,890.

Minneapolis reports a good demand for cash wheat. Velvet chaff 1¼ over September. Receipts well taken care of. Flour sales late Saturday were big. Business moderate.

Lyle's report from Omaha says: Further observations show the Nebraska corn crop is seriously impaired.

North Butte has declared a dividend payable Oct. 19 to stock of record Oct. 4.

A Chicago dispatch says the visible supply shows an increase of 2,700,000 bushels in wheat, with the lakes to hear from.

FATAL FALL FROM LADDER.

Toronto, Sept. 16.—Mrs. Dyment, Empire avenue, who, while cleaning windows at the Frankel Brothers' store, Don road and Eastern avenue, fell two stories to the ground, died in the General hospital from a fractured skull. A broken rung on her step ladder caused her to fall.

IF YOU WANT SOMETHING

CONSULT THE

TIMES Want ADS

YOU will find almost anything you are looking for, and if you don't you will find it by putting in a small ad. stating what you want. There are still a few business men of ancient business habits who say they do not believe advertising accomplishes anything. The Times would like to convince them they are mistaken, and if one of them wants to hire a boy, an ad. will be inserted in these columns free for a month, on condition that the address of the advertiser is published. Before that time the advertiser will gladly pay for it on condition that it be discontinued. Now, why would he do that?

SOCCER AT NANAIMO.

Nanaimo, Sept. 16.—In a somewhat listless game Ladysmith and Nanaimo Thistles opened the football season here yesterday. Neither team was in the best of condition, and the game was largely one of luck. Nanaimo scored first, and Ladysmith equalized in five minutes. The second half was brisker. It was a very clean game throughout, but neither side is up to form yet, and being only an exhibition game the players did not exert themselves. Later on these teams will provide some hot arguments.

RT. HON. WALTER LONG

Rt. Hon. Walter H. Long, addressed the Canadian Club this afternoon on Imperial federation. A large number were present. Very Rev. Dean Doull, vice-president of the club, presided. Mr. Long's address was of a most interesting and instructive character and at times the speaker's remarks were loudly applauded.

TOUR OF ROYAL PARTY.

Duke and Duchess of Connaught and Princess Patricia Now in British Columbia.

Laggan, Alta., Sept. 15.—To-day the governor-general and party entered British Columbia where, from all accounts, a tremendous reception is awaiting his majesty's representative. Canada's "furthest west" province must compete with a series of entertainments unparalleled in the history of the western portions of the Dominion, but it is felt that in British Columbia Their Highnesses will be given a better idea than ever before of the vastness of Canada.

The Duke of Connaught and party arrived here from Banff Saturday evening. Before leaving Banff Their Royal Highnesses bade farewell to Inspector Duffus of the Royal Canadian Northwest Police, who accompanied the party from Calgary and was with them in their rides at Banff.

The Duke has taken a great interest in the famous corps which guards the prairies and mountains of the West. He will present a silver cup for revolver shooting to be competed for annually by the mounted police. His Highness is looking forward to his visit to the headquarters of the force when the royal party is in Regina next month.

HUDSON'S BAY COMPANY.

Sir Thomas Skinner Says Stores Will Keep in Line With Progress of Country.

Winnipeg, Sept. 16.—"It is the aim of the Hudson's Bay Company to keep abreast of the times in the west, and we are anxious to keep our store buildings in line with the progress of the cities in which we are located," said Sir Thomas Skinner, chairman of the company, who is here on a trip of inspection through the west. He expects they will get into the new Calgary store by March next. The Vancouver store is to be doubled in capacity and extensions will be made probably at Victoria.

RIOT AT BELFAST.

Several Workmen Injured in Sectional Fight at Shipyard.

Belfast, Sept. 16.—Queen Island shipyard was the scene to-day of another fierce outbreak of sectarianism. Several artisans were badly mauled, one of them so severely that he was carried out of the yard unconscious.

Many men refused to go to work to-day at Harland & Wolffe's plant and a very few Catholics are working at the other yard, as the manager advised against their return to work on account of the feeling shown by the Protestants among them.

The military, which had been confined to barracks since Saturday's disturbances, when sixty persons were seriously injured in a fierce fight waged on the Celtic Park football grounds, was ordered to-day to keep the peace.

BORN

BANISTER—On Sept. 12, to Mr. and Mrs. A. E. Banister, of 706 Cook street, a daughter (still-born).

ROSS—On Saturday, the 14th inst., to Major and Mrs. Lorne Ross, a son.

DIED.

MACLAUGHLIN—On the 16th instant, at the family residence, Fernwood road and Pandora avenue, in the seventy-second year of her age, Rebecca Jane, loved wife of the late J. H. MacLaughlin, Esq., assistant receiver-general for British Columbia.

MINTO CUP COMPETITION.

Big Four Union Not Opposed to Toronto Club Playing on Coast.

Toronto, Sept. 16.—A private meeting was held this morning here of the Big Four lacrosse union and while nothing definite could be learned, it was intimated that the principal business for discussion was regarding the Toronto team going after the Minto cup. There is a clause in the Big Four constitution that says that no club in that body can play a game outside the organization without the unanimous consent of all the clubs. The majority of the delegates when spoken to said they would not oppose the Toronto team making the trip if it wanted to.

As the matter stood when the delegates went into session it was purely up to the Toronto club whether the eleven made the trip or not.

OBITUARY RECORD

The death occurred very suddenly on Sunday of Mrs. Grace Aitken at the home of her daughter, Mrs. Slater, 930 N. Park street. Mrs. Aitken leaves to mourn her loss a son, William Aitken, and her daughter, Mrs. Slater, also many friends who will be saddened to learn of her sudden death. The remains have been removed to the Hanna-Thompson parlors pending funeral arrangements, which will be announced later.

The death occurred at 7 o'clock yesterday morning of Mr. Fleming Hewett, who lived at Metchosin. The deceased, who was in his eighty-fifth year, was a native of Barking, Essex, and came to this country 23 years ago from Yarmouth, England, where he was engaged in the fishing business. He was a widower, his wife having died many years ago. For some time the deceased had been in indifferent health, and for the past three months had been quite ill. His niece, Mrs. W. Sweatman, was living with him at the time of his death, and he is survived by two other nieces here, Mrs. F. A. Howell and Mrs. W. Ward, both of this city. The funeral will take place on Thursday at 2 o'clock from St. Mary's

Special Meeting.—A. O. U. W. hall, Yates street, Mr. Robert McMurdo, evangelist, Chicago, will address Christians to-night at 8 o'clock. Christians invited.

THINKS HOME RULE WILL GO THROUGH

PROMINENT SCOTTISH PARLIAMENTARIAN HERE

Rt. Hon. Munro-Ferguson, Well Known Liberal, Visits the Island

"That Home Rule all round will be one of the accomplishments of the near future," is the opinion of the Rt. Hon. Cranford Munro Ferguson, the Liberal member for the Leith Burghs in Scotland who arrived in Victoria on Saturday.

"We have had a very strenuous session," he continued, "and the Home Rule bill has caused much talk and controversy, but it will go through to a certainty."

Mr. Munro-Ferguson was very emphatic on this point. He pointed out that though the House of Lords may throw the measure out, yet the upper house has so little authority at the present time that if the present government could hold the confidence of the people two years longer, and the member for Leith saw no reason why they should not, the measure would become law.

Rt. Hon. R. G. Munro-Ferguson, who is one of the most distinguished speakers on the government side of the house, is accompanied on his Western tour by Charles Dalziel and O. B. Jones, both prominent citizens of Edinburgh. The party is making a tour through the Dominion in connection with some investments that they are making as directors of an insurance company. Mr. Munro-Ferguson's wife is a daughter of the late Marquis of Dufferin, the great diplomat whose name fills so important a place in Canadian history.

The Naval Question.

Mr. Munro-Ferguson holds this point in common with the Unionist M. P.'s who have lately visited the West, namely, the fact that the German menace is a very real one. As one much interested in the naval question, he believes whole-heartedly in the efficacy of war, and thinks it not yet out of date. He thought that the speeches of the First Lord of the Admiralty, Rt. Hon. Winston Churchill, best represented the state of affairs. There was no room for doubt that Germany was organizing rapidly, and though there was no war in sight at the present time, yet there was no saying when it might turn up.

The colonies would, of course, come forward, he said, as they were doing now, and aid with the naval programme, but he was under the impression that the difficulty lay in the manner of providing the aid. If direct contribution were made, he could see that in all probability there would be a lack of local interest in naval matters in the more distant dominions. There was not by any means the same interest evinced in ships built abroad, as those erected in one's own dockyards, and flying one's own flag at their peaks. For his part, he would like to see each of the Dominions build its fleet, and he hoped to see that idea accomplished in time. Yet in case of an emergency such as now, it might be as well to have a direct contribution either in the way of money or ships.

Yet, when possible, Mr. Munro-Ferguson thought the direct contribution should be avoided, as it might come to be looked upon in the light of a levy or of a subserviency, which was not a good thing to have. At the same time the difficulty confronted the legislators of uniformity of defence in time of war. There must be some central control and some similar scheme of defence.

Scotch Immigration.

As one of the most prominent Scottish members in the British house, Mr. Munro-Ferguson had some interesting things to say about Scottish immigration into Canada. He is satisfied that the enormous emigration out of Scotland during the last few years was not an excessive drain on the country. He pointed out that the passing of the land development bill had had the desired effect of getting more people on the land, and of considerably relieving the congestion of the great cities. So, he averred, regarding the question from an economic standpoint, the population of Scotland was not really decreasing. One of the chief causes of Scottish emigration he had discovered was in the fact that there was not the diversity of trades in Scotland that there was in England.

Close Friend of "Teddy."

In addition to his political activities in the Old Country, Mr. Munro-Ferguson has found time to take a deep interest in the political events and various propoganda of American politics. In this connection he has made many good friends across the line, and none whom he admires more thoroughly than the hard-hitting son of Jove, who is now perched on the dizzy pinnacle at the head of the Progressive party. Indeed, Colonel Roosevelt and the Scottish member are very intimate friends and have known each other well for a quarter of a century.

When asked as to what he thought would be the result of the presidential election, he would not go so far as to say that the Colonel would win, but he knew of no man in the public eye who had such a capacity for organization, such wide sympathies and indomitable courage. He avers that brave men among politicians are few, but that Roosevelt stands supreme.

Women's Suffrage.

What are your views on women's suffrage? Mr. Munro-Ferguson was asked. "I am not in favor of women's suffrage," he replied, "Yet I believe that they should have the vote in the provincial legislatures, and I would let them elect their own representatives, if they wished. Personally, I think that imperial affairs, especially in the matter of imperial defence, should be handled entirely by men."

Rt. Hon. R. C. Munro-Ferguson has been the Member of Parliament for Leith Burghs since 1886, having entered parliament two years previous as the member for Ross and Cromarty. He was only twenty-four years of age when he first shouldered his way into the sacred precincts of St. Stephen's. Educated at Sandhurst, he became a lieutenant in the Grenadier Guards.

Appointed Lord of the Treasury in 1894, his career since that time has been varied, but he has always been in the forefront when there was any fighting to be done. He is now a Privy Councillor and a power in his party.

DIES SUDDENLY.

Seattle, Wash., Sept. 16.—Thomas Welch, a real estate man of Vancouver, B. C., while dressing after a swim at the Luna Park natatorium yesterday, was overcome by a stroke of apoplexy. He died early this morning at the city hospital. As far as can be learned Mr. Welch is single. He had been staying at the Plaza hotel, Fourth avenue and Westlake. He had announced to friends his intentions of locating in Seattle and just closed a deal for two lots at the corner of Fifteenth avenue and Yesler Way. He was also said to own valuable property in Vancouver.
